Everyone is interested in themselves and by using the fun techniques in this unique book you'll find that sometimes you simply haven't got the time to check out everybody's handwriting. **REVIEWS** I really enjoyed reading your new book and would heartily recommend it. It is a great way to learn the art without spending hours ploughing through the many books out there on the subject. Richard Osterlind: Julian is a wonderful teacher. I've tried learning enough about graphology before to use as an adjunct to my mentalism performances but it never stuck. And I quickly became bored. With Julian's system, once the info is in your head, it isn't easily leaving. And I found the whole process fun. Julian has set this up in a way that you get constant reinforcement for your efforts and just want to keep going. Bill Cushman: I have finished Julian's book on Graphology and highly recommend it. Julian has condensed a large amount of information on graphology into an easily memorized system and provided a presentation that is short, sweet, and can be done on the back of a business card. I like to explain how I am getting my information as I am doing the reading, and Julian's system is perfectly suited for this. In fact, it is so simple to explain that your subject will likely go away believing they have learned something valuable, even in the unlikely event that most of your reading doesn't hit the mark, so you really cannot lose. Anyone that is interested in Graphology should definitely pick up this book. John Lumber: As a long time graphologist, I've perused Julian's manuscript and can attest that it is exactly as described. He's taken some of the real meat of the subject and found a way to explain it clearly and simply, AND to do it in a wicked clever mnemonic sort of structure that makes it quite easy to remember. And therefore easy to explain to others. He's done a lot of hard mental work so that you won't have to. Well worth the price tag for those who wish to use it.
