It is not man's greatness as it is perceived by others that matters most to the man himself nor his achievements. Every U.S. president is perceived as a great achiever. Henry Ford, J.P. Morgan, J.D. Rockefeller and their like are believed to be great achievers. Yet true happiness eluded all these men. In the end it is only true happiness that matters to a man himself. Andrew Carnegie was unique among men of all ages. In the thought that he had worked for the realization of certain ideals he discovered the secret of a serene and happy spirit, a characteristic which marked his life up to the day of his death. S.N.D. North, Editor in *A Manual of the Public Benefactions of Andrew Carnegie*. True happiness is a state of unbroken peace which results in a serene and happy life. When it is achieved we are beyond of negative influence. We are beyond influence of the subconscious because our entire past is transformed into Love. We are beyond influence of the world since its negativity finds nothing to relate to in our mind as it is all but Love. This book is not about how to become wealthy. It explains how to achieve a life of true happiness and wealth. The Law of True Success works regardless of the goal's magnitude. It can be as small as a one person business or as large as Andrew Carnegie's enterprise. In order to begin your creative process your subconscious, your past memories must all be cleansed of negativity and transformed into Love which will make you loving and accepting. You will acquire essential qualities of character necessary for business success. You will keep in your mind only what you want to see in your life of happiness and riches. A purified and loving mind will be relaxed and naturally alert. It is this Carnegie's state of being that will help you discover great ideas and seize every opportunity that will benefit yourself and others. The Law of True Success is easy to grasp. Love and Grow Happy and Rich. It is preparation, your key preliminary steps that are extremely important in order for The Law of True Success to work best for your goal for a life of Happiness and riches. The material in the book is all factual. It is based on Andrew Carnegie's life as well as on the events experienced by the author.

*A Total Life* Louis C. Baker, 2009-11. In thinking about life and what it is all about, I have come to believe that all men and women should discover what it is that they can leave behind for the next generation or the next adventurer. Some leave behind buildings, some appear in movies and others create music, poetry or other timeless gifts. After much evaluation and thought, I have decided to leave an idea behind in the form of a book and that idea is that of *A Total Life*. What I offer is myself

and what I have are my thoughts on how I see life and the world These observations have come through constant examination continual reading life experiences and a general care for others I believe for some there is freedom in this work because the ideas when understood help people rediscover their passions and live more exciting happy lives As a young man I was always desperately searching for mentors I was looking for people I could model my life after and in my search I found and walked with many great men and women After years of watching these individuals and growing with them I started to respect each mentor and role model for their specific respective strengths For example one individual was amazing with her financial affairs another had a great marriage another was healthy and yet another really had his spiritual life together What was so interesting was none of my early mentors had it all It seems each of them was lacking either wealth health spirituality or relationship success At some point I started to think about finding someone who had it all Who can I model my life after who isn't making any trade offs Which of these men or women are healthy happy wealthy fun spiritual have great relationships and more After years of searching I discovered men and women who had it all who were living A Total Life and this book is about Four Timeless Principles they all used to achieve total complete multifaceted lives My legacy is my thoughts that have been developed through friendships business pain sadness success betrayal and a constant yearning for truth In this writing are my hopes for my children my dreams for my friends and my love for humanity and all of us who have a deep longing for more I hope each of you will enjoy my thoughts on life

*The Royal Path of Life* T. Haines, L. Yaggy, 2012-10-06 The subject matter of this book Success and Happiness has been the consideration of every eminent pen from the days of Solomon to the present The contents of this book teaches how to think logically act responsibly and conduct your life This book tells you everything you need to know to feel good about yourself how to think like a winner how to progress when life seems unfair Easy to read the points are plain and simple The authors speak in a warm and generous way of the stages and values of life There are thoughts and ideas that appear as Victorian and millennial yet merely throwback to simpler times with a relevant perspective on how little values change in a hundred years An excellent teaching guide as well as reference manual for Success and Happiness In life there is a Royal Path Alas That so many not being urged to seek life's prizes fail to find them It is hoped that this book shall be a counselor to those who have become indifferent to life's purposes a comfort to those who have long traveled on this Royal Path and if it shall serve to awaken the slumbering genius within the youth stimulate and impel them to noble thoughts and actions and lead them to honor success and happiness then it is a labour well spent

**The Law of Life - Basic Principles for a Better Life: Towards an**

**Understanding of the Essential Principles of Success** Er Alam,2018-04-03 Our entire life is based on a belief system that we did not choose We have been raised with the belief that to have a better life we need to go to school get good grades compete with everyone else get a good job save money for future and because of this belief system we never get to learn what we truly are The truth is that we are spiritual beings living in physical bodies and we have an intellect to think Our brain is like a hard disk which has a record of every past experience of our life everything is stored in our brain in the form of electrical circuits and when we fire those same circuits again instantly and automatically the experience that is connected to them flashes on the screen of our mind and our body start to feel the same emotion that is the end product the same past experience with the same emotion comes the same behavior and with the same behavior comes the same results When you dwell on the past shortcomings and failures fear of failure in the future experience and on everything that you don't like in your life you trigger the process of it becoming your future reality as well It's like a computer program and it's on autopilot it will keep bringing in your life the same results until you decide to take control and build a better program which will make the old program obsolete and everything you desire will come to you THE LAW OF LIFE Basic Principles for A Better Life is written in the hope to help the readers to understand in the simplest way possible how to build this new program in their Mind so that they can enjoy everything they desire The Golden Gems of Life S.
