*How to Love Yourself. 50 Ways to Improve Self-Esteem* Anastasia Zaloga, 2016-05-09 This book is for women who criticize themselves and are often unhappy with themselves It is a collection of valuable practical pieces of advice Use the magical recipes that have already helped dozens of women to start loving themselves If you don't love yourself you're not satisfied with yourself and the results of your life up to that point When you compare yourself with someone else over and over you feel disappointed When you criticize your every action you're always unhappy Your reflection in the mirror doesn't create positive feelings but rather becomes another source of negativity Sometimes you may truly believe that you are the biggest loser ever You often ignore your own needs and desires You lack love If you're single you strive to attract your soul mate and hope that with his coming you will feel loved At the same time you think that there may be no one who could love you If you have a partner his love is not enough You live with a feeling of not being loved appreciated or respected enough You blame yourself constantly for any mistakes that have happened in your past How could I have screwed things up so much you angrily think Not loving yourself is not only an internal and invisible process but it affects your life too How does low self esteem affect your relationships Well your partner behaves in such a way that he is not afraid of losing you He may promise and quickly forget he may insult you cheat on you and still pretend that all is fine He may even hit you This behavior doesn't cause any active resistance from your side though Of course you may complain about him but most likely you tend to tolerate the behavior Your self esteem is too low and his dignity is too high In this case you're afraid to lose your tormentor and you live with the dead end belief that you will meet no one better People with low self esteem are prone to explicit and implicit jealousy attacks With a certain periodicity you'll be jealous of your partner's past relationships casual small talks and his colleagues Coming up with a reason for suspicion is not a big deal for you you're good at this Stupid jealousy is what hinders the healthy relationships As for the girls who are not in relationships the low self esteem is not less destructive It may be hard to believe that there will be a man who can fall in love with you with all his heart Sometimes a girl doesn't allow relationships with a man to develop believing that he is too good for her With similar actions or inactions you simply push a new boyfriend away give him a more worthy in your opinion woman Lack of self love pushes you to conquer the men You don't believe that the members of the opposite sex may be interested in you Therefore as soon as you meet an attractive man you start to run after him and show an excessive interest This most likely will lead to nothing and may scare this man Your low self esteem may also affect your career success Sometimes you may be afraid of sharing your own opinion and thus block any opportunities You seem to be no one special and therefore your results have little or no value This is why you choose to sit quietly and not stick out If you created something you would definitely be showered with a wave of criticism Lack of self love makes you less demanding in regards to income as well This is why you may work in a low paying job and earn less than you serve Your life strategy is to tolerate poor working conditions and a bad attitude of your manager Your self esteem cannot but affect your quality of life It's enough to look around and note the conditions in which you live You may put an equals sign
