*How Student Journalists Report Campus Unrest* Kaylene Dial Armstrong, 2017-11-22 Journalists are trained to tell the stories of others and leave themselves out of their writing Student journalists are no different They spend their days on their college newspaper writing about what happens to others especially when what is happening involves protests sit ins riots hunger strikes and other unrest on the very campuses where they also attend school Now some of these former student reporters and editors tell their own stories of some of the challenges all student journalists face in reporting events that most administrators would rather see not covered at all For some this is the first time the stories of what happened in the newsrooms and behind the scenes will appear in print Some of the issues they discuss include censorship the role of the newspaper as the conscience of the community objective and activist journalism and the challenges of reporting crises The protests covered here represent the many concerns college student protesters have tackled through the decades integration in 1962 the free speech movement of 1964 racial issues and the Vietnam War in 1968 and 1970 and continuing racial issues in the present Many of these former student journalists look back decades to their work in the 1960s Some discuss a more recent protest Looking back they admit they might have done things differently if they had to do it again yet all are fiercely proud of the work they did in recording the first version of history      **Covering Your Campus** Matt Nesvisky, 2008

Wilson, 2015-12-03 After 9 11 liberal professors and students faced an onslaught of attacks on their patriotism and academic freedom In a lively narrative this book tells the story of attacks on academic freedom in the past five years It highlights nationally prominent and lesser known cases drawing upon media reports university documents and reports and studies seldom seen by the public It shows how conservative attacks on higher education distort the facts in order to pursue an assault on liberal ideas A wave of Web sites and think tanks urge students to spy on their professors for any sign of deviation from the new PC Patriotic Correctness Free speech on campus is facing its greatest threat in a half century and Patriotic Correctness Academic Freedom and Its Enemies documents the danger to rights and looks to solutions for ensuring and promoting the free exchange of ideas requisite in any thriving democracy      **Inviting Transformation** Sonja K. Foss, Karen

A. Foss, 2019-01-03 The fourth edition of *Inviting Transformation* continues to offer an innovative approach to presentational speaking at a very reasonable price. The authors introduce readers to invitational rhetoric, teaching speakers to clarify ideas and to work to achieve understanding for all participants in an interaction. A primary goal of presentational speaking is to create an environment in which growth and change can occur for both the audience and the speaker. The text highlights four external conditions affecting transformational environments: safety, openness, freedom, and value, honoring the intrinsic worth of all individuals. To reflect respect for the diversity of the world, Sonja Foss and Karen Foss include options from many speaking traditions and practices to foster creativity. Discussions of all the processes of presenting, selecting a speaking goal, organizing ideas, elaborating on ideas, and delivering the presentation emphasize inclusive speaking practices. Sample presentations provide clear and contemporary examples of the best invitational speaking practices. The authors recognize readers as competent communicators and encourage them to think about and systematize their approaches to presentational speaking. The exceptionally accessible writing style is an aid to readers in thinking through strategies for meeting their interactional goals. Readers learn to design and deliver effective presentations for any speaking situation. Journalism Education, Training and Employment
