Heimlich's Maneuvers Henry J. Heimlich, 2014-02-11 Here in his own words is the story of one of the twentieth century's most creative medical innovators, Dr. Henry Heimlich. The thoracic surgeon is best known for having developed the Heimlich Maneuver, the world's easiest to learn and most universally known method to save people from choking to death on food or foreign objects. But many don't know about Dr. Heimlich's other life-saving inventions. He is the inventor of the Heimlich Chest Drain Valve, which saved thousands of lives during the Vietnam War, and the Heimlich MicroTrach, which provides a remarkably efficient way for people to take oxygen. In the present decade, Dr. Heimlich has turned his attention to two devastating illnesses for which medicine has not yet found a cure: cancer and HIV. He describes his research and its promise as well as the controversy and resistance his new ideas have generated from the medical establishment. Interweaving the author's personal life with riveting stories of his numerous medical breakthroughs, this rich memoir provides insights into the workings of a creative mind and the machinations of the American medical system.
