## Lacanian Ink 8:

*Lacanian Ink 9* Wooster Press, The, 1995      *Lacanian Ink*, 2006      *The Subject of Psychosis: A Lacanian Perspective* S. Vanheule, 2011-10-03 This book discusses what Jacques Lacan's oeuvre contributes to our understanding of psychosis. Presenting a close reading of original texts, Stijn Vanheule proposes that Lacan's work on psychosis can best be framed in terms of four broad periods.

*The Lacanian Left* Yannis Stavrakakis, 2007-08-09 In recent years psychoanalysis, especially Lacanian theory, has been gradually acknowledged as a vital resource in the ongoing reorientation of contemporary political theory and analysis. Of particular note is that the work of Jacques Lacan is increasingly being used by major political philosophers associated with the Left. This indicates the dynamic emergence of a new theoretico-political horizon, that of the Lacanian Left. However, this field has yet to be properly conceived as a field, and this is the first book to bring it into academic consciousness and to systematically draw its implications for concrete political analysis. This book offers an accessible mapping of its main contours, a detailed examination of the convergences and divergences between the major figures active within or at the periphery of this terrain, including Slavoj Žižek, Ernesto Laclau, Alain Badiou, and Cornelius Castoriadis, and a critical evaluation of their respective arguments on social construction and the political affectivity and discourse ethics and social change and negativity and positivity. Engaging with the role of affect and emotion in political life through the central Lacanian notion of enjoyment, *The Lacanian Left* puts forward innovative analyses of political power and authority, nationalism, European identity, consumerism and advertising culture, and de-democratization and post-democracy. It will be of value to everyone interested in exploring the potential of psychoanalysis in reinvigorating political theory, critical political analysis, and democratic politics.

*Perversion* Stephanie S. Swales, 2012-08-21 Lacan's psychoanalytic take on what makes a pervert perverse is not the fact of habitually engaging in specific abnormal or transgressive sexual acts, but of occupying a particular structural position in relation to the Other. Perversion is one of Lacan's three main ontological diagnostic structures, structures that indicate fundamentally different ways of solving the problems of alienation, separation from the primary caregiver, and castration, or having limits set by the law on one's *jouissance*. The perverse subject has undergone alienation but disavowed castration, suffering from excessive *jouissance* and a core belief that the law and social norms are fraudulent at worst and weak at best. In *Perversion*, Stephanie Swales provides a close reading, a qualitative hermeneutic reading of what Lacan said about perversion and its substructures, i.e. fetishism, voyeurism, exhibitionism, sadism, and masochism. Lacanian theory is carefully explained in accessible language, and perversion is elucidated in terms of its etiology, characteristics, symptoms, and fundamental fantasy. Referring to sex offenders as a sample, she offers clinicians a guide to making differential diagnoses between psychotic, neurotic, and perverse patients and provides a treatment model for working with perversion versus neurosis. Two detailed qualitative clinical case studies are presented: one of a neurotic sex offender and the other of a perverse sex offender, highlighting crucial differences in the transference relation and subsequent

treatment recommendations for both forensic and private practice contexts Perversion offers a fresh psychoanalytic approach to the subject and will be of great interest to scholars and clinicians in the fields of psychoanalysis psychology forensic science cultural studies and philosophy      *Lacanian Psychoanalysis* Ian Parker, 2010-07-16 Jacques Lacan's impact upon the theory and practice of psychoanalysis worldwide cannot be underestimated Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts The book argues that Lacan's elaboration of psychoanalytic theory is grounded in clinical practice and needs to be defined in relation to the four main traditions psychiatry psychology psychotherapy and spirituality As such topics of discussion include the intersection between psychoanalysis and social transformation a new way through deadlocks of current Lacanian debate a new approach to clinical structures of neurosis perversion and psychosis Lacanian Psychoanalysis draws on Lacan's work to shed light on issues relevant to current therapeutic practice and as such it will be of great interest to students trainees and practitioners of psychoanalysis psychotherapy counselling and other domains of personal and social change      *Lacan and the Destiny of Literature* Ehsan Azari, 2011-10-27 In contemporary academic literary studies Lacan is often considered impenetrably obscure due to the unavailability of his late works insufficient articulation of his methodologies and sometimes stereotypical use of Lacanian concepts in literary theory This study aims to integrate Lacan into contemporary literary study by engaging with a broad range of Lacanian theoretical concepts often for the first time in English and using them to analyse a range of key texts from different periods Azari explores Lacan's theory of desire as well as his final theories of *littoral* and the *sinthome* and interrogates a range of poststructuralist interpretive approaches In the second part of the book he outlines the variety of ways in which Lacanian theory can be applied to literary texts and offers detailed readings of texts by Shakespeare Donne Joyce and Ashbery This ground breaking study provides original insights into a number of the most influential intellectual discussions in relation to Lacan and will fill a recognised gap in understanding Lacan and his legacy for literary study and criticism      Writing, Speech and Flesh in Lacanian Psychoanalysis Shirley Zisser, 2021-09-13 This book explores the place of the flesh in the linguistically inflected categories of Freudian and Lacanian psychoanalysis drawing explicit attention to the organic as an inherent part of the linguistic categories that appear in the writings of Freud and Lacan Lacan's return to Freud famously involves a linguistic turn in psychoanalysis The centering of language as a major operator in psychic life often leads to a dualistic or quasi dualistic view in which language and the enjoyment of the body are polarized Exploring the intricate connections of the linguistic and the organic in both Lacanian and Freudian psychoanalysis from its beginnings Zisser shows that surprisingly and not only in Lacan's late teaching psycho linguistic categories turn out to be suffused with organicity After unfolding the remnant of the flesh in the signifier as a major component of Lacan's critique of Saussure using visual artworks as objective correlatives as it does so the book delineates two forms of psychic writing These are aligned not only with two fundamental states of the psychic apparatus as described by Freud pain and

satisfaction but with two ways of sculpting formulated by Alberti in the Renaissance but also referred to by Freud Continuing in a Derridean vein the book demonstrates the primacy of writing to speech in psychoanalysis emphasizing how the relation between speech and writing is not binary but topological as speech in its psychoanalytic conception is nothing but the folding inside out of unconscious writing Innovatively placing the flesh at the core of its approach the text also incorporates the seminal work of psychoanalyst Michel Montrelay to articulate the precise relation between the linguistic and the organic Writing Speech and Flesh in Lacanian Psychoanalysis will be indispensable to psychoanalysts literary theorists rhetoricians deconstructionists and those studying at the intersection of psychoanalysis language and the visual arts Theology after Lacan Clayton Crockett, Creston Davis, Marcus Pound, 2015-02-26 This groundbreaking volume highlights the continuing relevance of Jacques Lacan 1901 1981 a French psychiatrist and psychoanalyst whose linguistic reworking of Freudian analysis radicalised both psychoanalysis and its approach to theology The book's first section Part I Lacan Religion and Others explores the application of Lacan's thought to the development and phenomena of religion Part II Theology and the Other Lacan moves through the physical world and into the metaphysical probing theological issues and ideas of today's world with curiosity and in the light of Lacan In both parts I and II a central place is given to Lacan's exposition of the real thereby reflecting the impact of his later work Topics traverse culture art philosophy and politics as well as providing critical exegesis of Lacan's most gnomic utterances on theology including The Triumph of Religion Contributors include some of the most renowned readers and influential academics in their respective fields Tina Beattie Lorenzo Chiesa Clayton Crockett Creston Davis Adrian Johnston Katerina Kolozova Thomas Lynch Marcus Pound Carl Raschke Kenneth Reinhard Mario D'Amato Noelle Vahanian and Slavoj Žižek **Jacques Lacan and the Freudian Practice of Psychoanalysis** Dany Nobus, 2013-01-11 Jacques Lacan and the Freudian Practice of Psychoanalysis paints a completely new picture of the man and his ideas The book succeeds in showing how ideas can become more accessible and re-evaluates his significance within the field of psychodynamic psychotherapy The book is structured thematically around five key issues diagnosis the analyst's position during the treatment the management of transference the formulation of interpretations and the organisation of analytic training For each of these issues Lacan's entire work both published and unpublished material has been taken into account and theoretical principles have been illustrated with clinical examples The book also contains the first complete bibliography of Lacan's works in English Clear detailed and wide-ranging Jacques Lacan and the Freudian Practice of Psychoanalysis will prove essential reading not only for professionals and students within the fields of psychology and psychiatry but for all those keen to discover a new Lacan **Hegel & the Infinite** Slavoj Žižek, Clayton Crockett, Creston Davis, 2011 Here 13 major scholars reassess the place of Hegel in contemporary theory and the philosophy of religion The contributors focus not only on Hegelian analysis but also on the transformative value of his thought in relation to our current turn to religion *Lacan on Depression and Melancholia* Derek Hook, Stijn Vanheule, 2022-12-30 Lacan on Depression and

Melancholia considers how clinical cultural and personal understandings of depression can be broken down and revisited to properly facilitate psychoanalytical clinical practice The contributors to this book highlight the role of neurotic conflicts underlying depressive affects the distinction between neurotic and psychotic structure the nature of melancholia and the clinical value of Freudian and Lacanian concepts such as object a the Other desire the superego sublimation as demonstrated via a variety of clinical and historical cases The book includes discussions of bereavement and mourning transference in melancholia suicidality and the death drive excessive creativity melancholic identification neurotic inhibition and manic depressive psychosis Lacan on Depression and Melancholia will be essential reading for psychoanalysts and psychoanalytic psychotherapists in practice and training Lacanian clinicians and scholars of Lacanian theory *Unmaking Love* Ashley T. Shelden, 2017-01-10 The contemporary novel does more than revise our conception of love it explodes it queers it and makes it unrecognizable Rather than providing union connection and completion love in contemporary fiction destroys the possibility of unity harbors negativity and foregrounds difference Comparing contemporary and modernist depictions of love to delineate critical continuities and innovations *Unmaking Love* locates queerness in the novelistic strategies of Ian McEwan Zadie Smith Hanif Kureishi Alan Hollinghurst and Hari Kunzru In their work queer love becomes more than shorthand for sexual identity It comes to embody thwarted expectations disarticulated organization and unnerving multiplicity In queer love social forms are deformed affective bonds do not bind and social structures threaten to come undone *Unmaking Love* draws on psychoanalysis and gender and sexuality studies to read love's role in contemporary literature and its relation to queer negativity *Lacan and Fantasy Literature* Josephine Sharoni, 2017-07-03 Eschewing the all pervading contextual approach to literary criticism this book takes a Lacanian view of several popular British fantasy texts of the late 19th century such as Bram Stoker's *Dracula* revealing the significance of the historical context the advent of a modern democratic urban society in place of the traditional agrarian one Moreover counter intuitively it turns out that fantasy literature is analogous to modern Galilean science in its manipulation of the symbolic thereby changing our conception of reality It is imaginary devices such as vampires and ape men which in conjunction with Lacanian theory say something additional of the truth about primarily sexual aspects of human subjectivity and culture repressed by the contemporary hegemonic discourses **Zizek and Law** Laurent de Sutter, 2015-03-05 The very first book dedicated to Slavoj Zizek's theoretical treatment of law this book gathers widely recognized Zizek scholars as well as legal theorists to offer a sustained analysis of the place of law in Zizek's work Whether it is with reference to symbolic law psychoanalytical law religious law positive law human rights to Lacan's Hegel's or Kant's philosophies of law or even to Jewish or Buddhist law Zizek returns again and again to law And what his work offers this volume demonstrates is a radically new approach to law and a rethinking of its role within the framework of radical politics With the help of Zizek himself who here and for the first time directly engages with the topic of law this collection provides an authoritative account of Zizek and law It will be invaluable resource for researchers and students in

the fields of law legal theory legal philosophy political theory psychoanalysis theology and cultural studies      **Reading Foucault Through Lacan** Jessica L. Davis, 2024-12-28 Jacques Lacan and Michel Foucault are often cast as intellectual adversaries their legacies marked by differences in method lineages and analytical priorities Yet beneath their distinct projects lies a shared ambition to decenter the Western conception of the subject while critically engaging with the notion of subjectivity in post Kantian thought This book examines Foucault s critical project through the lens of Lacan s theory of the four discourses introduced in Seminar XVII The Other Side of Psychoanalysis 1969 70 Divided into two parts Reading Foucault through Lacan unfolds as a dialogue between the discourses of the Hysteric and the Analyst Part I The Hysteric reframes Foucault s genealogical critique from the early to mid 1970s as a form of hysterical questioning directed at Kant s transcendental legacy and its aftermath Through an exploration of how violence and embodied resistance interact in a discursive framework Part I uncovers the epistemological fractures that mark the modern subject Part II The Analyst examines Foucault s redefinition of Kantian critique as a historically situated engagement with the present Building on Lacan s claim that analytic experience begins with the hystericization of discourse this section views Foucault s re alignment with Kant as retroactively constituting the transformation from Hysteric to Analyst Addressing themes such as parrhesia transference and the ethics of speaking Part II examines discourse as a social link that transcends fixed identities to inhabit new modes of being Drawing on newly available English translations of Foucault s lectures and Lacan s seminars this book bridges two key trajectories in French thought and offers valuable insights for scholars of psychoanalysis critical theory and social philosophy      **Lacan and the Concept of the 'Real'** T. Eyers, 2012-08-07 This is the first book in English to explore in detail the genesis and consequences of Lacan s concept of the Real providing readers with an invaluable key to one of the most influential ideas of modern times      Ethics of Contemporary Art Theo Reeves-Everson, 2020-11-26 What happens when the shock of artistic transgression wears off when scandal dissipates when outrage becomes a tired routine In this original new book Theo Reeves Everson argues that transgressive art no longer succeeds on its own terms in societies where language prohibition and morality have become increasingly malleable This compels us to rethink the relationship between contemporary art and ethics and focus our attention on the potential of artworks to propose new values rather than simply challenge pre existing moral codes Assembling a novel theoretical framework from the writings of Félix Guattari Jacques Lacan and others Ethics of Contemporary Art narrates a journey away from transgression towards a new critical paradigm for the relationship between ethics and aesthetics that places questions of subjectivity centre stage Along the way artworks by Kader Attia Artur Zmijewski Dora Garcia and others serve as springboards launching discussions of the varied pathways along which a renewed ethics of contemporary art might develop      *Everything Was Forever, Until It Was No More* Alexei Yurchak, 2013-08-07 Soviet socialism was based on paradoxes that were revealed by the peculiar experience of its collapse To the people who lived in that system the collapse seemed both completely unexpected and completely unsurprising At the

moment of collapse it suddenly became obvious that Soviet life had always seemed simultaneously eternal and stagnating vigorous and ailing bleak and full of promise Although these characteristics may appear mutually exclusive in fact they were mutually constitutive This book explores the paradoxes of Soviet life during the period of late socialism 1960s 1980s through the eyes of the last Soviet generation Focusing on the major transformation of the 1950s at the level of discourse ideology language and ritual Alexei Yurchak traces the emergence of multiple unanticipated meanings communities relations ideals and pursuits that this transformation subsequently enabled His historical anthropological and linguistic analysis draws on rich ethnographic material from Late Socialism and the post Soviet period The model of Soviet socialism that emerges provides an alternative to binary accounts that describe that system as a dichotomy of official culture and unofficial culture the state and the people public self and private self truth and lie and ignore the crucial fact that for many Soviet citizens the fundamental values ideals and realities of socialism were genuinely important although they routinely transgressed and reinterpreted the norms and rules of the socialist state      **Vanishing Women** Karen Redrobe Beckman, 2003-04  
Disappearing women as a persistent trope from nineteenth century magic through contemporary theory film and psychoanalysis
