Ladies Bountiful:

Lady Bountiful's Legacy to Her Family and Friends John Timbs, 1868 **Ladies Bountiful** William Garland Rogers, 1968

Woyshner, 2008-03-18 This book explores women's organizations and their various educational contributions through local state and national networks from 1890 to 1960. Contributors investigate how women united to support and sustain education in both formal and informal settings and examine various associations.

The Woman Question Elizabeth K. Helsinger, Robin Lauterbach Sheets, William Veeder, 1983

Women Healers Susan H. Brandt, 2022-04-15 In her eighteenth century medical recipe manuscript the Philadelphia healer Elizabeth Coates Paschall asserted her ingenuity and authority with the bold strokes of her pen. Paschall developed an extensive healing practice, consulted medical texts and conducted experiments based on personal observations. As British North America's premier city of medicine and science, Philadelphia offered Paschall a nurturing environment enriched by diverse healing cultures and the Quaker values of gender equality and women's education. She participated in transatlantic medical and scientific networks with her friend Benjamin Franklin. Paschall was not unique; however, *Women Healers* recovers numerous women of European, African, and Native American descent who provided the bulk of health care in the greater Philadelphia area for centuries. Although the history of women practitioners often begins with the 1850 founding of Philadelphia's Female Medical College, the first women's medical school in the United States, these students merely continued the legacies of women like Paschall. Remarkably though, the lives and work of early American female practitioners have gone largely unexplored. While some sources depict these women as amateurs whose influence declined, Susan Brandt documents women's authoritative medical work that continued well into the nineteenth century. Spanning a century and a half, *Women Healers* traces the transmission of European women's medical remedies to the Delaware Valley where they blended with African and Indigenous women's practices, forming hybrid healing cultures. Drawing on extensive archival research, Brandt demonstrates that women healers were not inflexible traditional practitioners destined to fall victim to the onward march of Enlightenment, science, capitalism, and medical professionalization. Instead, women of various classes and ethnicities found new sources of healing authority, engaged in the consumer medical marketplace, and resisted physicians' attempts to marginalize them. Brandt reveals that women healers participated actively in medical and scientific knowledge production and the transition to market capitalism.

British Aristocracy and the Modern World Professor Miles Taylor, Christopher Ridgway, 2025-07-02 In the thirty-five years since the publication of David Cannadine's *Decline and Fall of the British Aristocracy* (1990), the power of Britain's landed elite declined, but they remain far from extinct. One-third of Britain's land still belongs to the aristocracy. Moreover, partly inspired by Cannadine's book, we now know much more about the ways in which the aristocracy established their hold on modernity and how they have lasted so long. Many key questions remain: How much was this a distinctively British story? To what extent were things different in Scotland, Wales, and Ireland? Does

decline and fall accurately describe what happened to landed elites in other countries particularly in western Europe or amongst assimilated elites such as Jews Was the soft power of the aristocracy their role in the arts philanthropy and higher education as significant as their political and economic sway How dependent on the colonies and also the USA were the British aristocracy for their wealth in the first place and how did their role overseas change their profile at home This volume brings together a wide ranging group of scholars to explore The Decline and Fall developing its themes in new ways and investigating other aspects for the first time **World Drama, Volume 1** Barrett H. Clark, 2013-02-28 Volume 1 of this two volume set contains 26 plays including Aeschylus Prometheus Bound Sophocles Antigone Seneca Medea Marlowe Dr Faustus Heywood A Woman Killed with Kindness Johnson Every Man in His Humour Beaumont and Fletcher The Maid's Tragedy Sheridan The School for Scandal plus plays from the Orient medieval plays and more Elite Women and the Agricultural Landscape, 1700-1830 Briony McDonagh, 2017-08-14 Elite Women and the Agricultural Landscape 1700-1830 offers a detailed study of elite women's relationships with landed property specifically as they were mediated through the lens of their estate management and improvement This highly original book provides an explicitly feminist historical geography of the eighteenth century English rural landscape It addresses important questions about propertied women's role in English rural communities and in Georgian society more generally whilst contributing to wider cultural debates about women's place in the environmental social and economic history of Britain It will be of interest to those working in Historical and Cultural Geography Social Economic and Cultural History Women's Studies Gender Studies and Landscape Studies Chapters 2, 3 and 4 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **English Women in Life and Letters** Margaret Phillips, William Shirley Tomkinson, 1926 The Broadview Anthology of Restoration and Eighteenth-Century Drama - Second Edition Diana Solomon, David Weston, J. Douglas Canfield, 2024-11-01 This exciting second edition provides an exceptional range of plays edited by leading scholars of Restoration and eighteenth century theatre In addition to fifteen plays from the first edition are four new plays and one new afterpiece Nathaniel Lee's The Rival Queens John Vanbrugh's The Provoked Wife David Garrick's Miss in Her Teens Richard Cumberland's The West Indian and Elizabeth Inchbald's Such Things Are Every play now features an engaging headnote and a fully edited dramatis personae prologue and epilogue The innovative introduction plunges its readers into the experience of playgoing in London and the edition features supplementary texts including select actor and actress biographies and theatrical documents that provide a vivid cultural context Women and the Practice of Medical Care in Early Modern Europe, 1400-1800 L. Whaley, 2011-02-08 Women have engaged in healing from the beginning of history often within the context of the home This book studies the role contributions and challenges faced by women healers in France Spain Italy and England including medical practice among women in the Jewish and Muslim communities from the later Middle Ages to approximately 1800 Aristocratic Women and

Political Society in Victorian Britain K. D. Reynolds, 1998 This is a study of gender and power in Victorian Britain It examines the contribution made by women to the public culture of the British aristocracy in the nineteenth century It challenges the view that power and authority were predominantly masculine attributes and shows that a partnership of authority between men and women was integral to aristocratic life The book is thus an important addition to the debate on separate spheres Dr Reynolds explores the roles of aristocratic women in estate management patronage of churches and schools and in caring for the poor and other dependants She shows how women were at the heart of the local communities and institutions on which aristocratic power was based The book goes on to discuss the realm of national politics analysing women's participation in the electoral process in Westminster based political life and at Queen Victoria's court Based on a wide range of previously unused archival sources *Aristocratic Women and Political Society* presents a lively portrait of women's experiences and a corrective to the view of the upper class Victorian woman as a passive social butterfly

Women and Reform in a New England Community, 1815-1860 Carolyn J. Lawes, 2021-10-21 Interpretations of women in the antebellum period have long dwelt upon the notion of public versus private gender spheres As part of the ongoing reevaluation of the prehistory of the women's movement Carolyn Lawes challenges this paradigm and the primacy of class motivation She studies the women of antebellum Worcester Massachusetts discovering that whatever their economic background women there publicly worked to remake and improve their community in their own image Lawes analyzes the organized social activism of the mostly middle class urban white women of Worcester and finds that they were at the center of community life and leadership Drawing on rich local history collections Lawes weaves together information from city and state documents court cases medical records church collections newspapers and diaries and letters to create a portrait of a group of women for whom constant personal and social change was the norm Throughout *Women and Reform in a New England Community* conventional women make seemingly unconventional choices A wealthy Worcester matron helped spark a women led rebellion against ministerial authority in the town's orthodox Calvinist church Similarly a close look at the town's sewing circles reveals that they were vehicles for political exchange as well as social gatherings that included men but intentionally restricted them to a subordinate role By the middle of the nineteenth century the women of Worcester had taken up explicitly political and social causes such as an orphan asylum they founded funded and directed Lawes argues that economic and personal instability rather than a desire for social control motivated women even relatively privileged ones into social activism She concludes that the local activism of the women of Worcester stimulated and was stimulated by their interest in the first two national women's rights conventions held in Worcester in 1850 and 1851 Far from being marginalized from the vital economic social and political issues of their day the women of this antebellum New England community insisted upon being active and ongoing participants in the debates and decisions of their society and nation
