Land And People Of China:

The Land and the People of China. A Short Account of the Geography, History, Religion, Social Life, Art, Industries, and Government of China Ad Its People John Thomson,2024-06-24 *The Land and People of China* John S. Major,1989 An introduction to the geography history culture economy and government of China **The Land and the People of China; a Short Account of the Geography, History, Religion, Social Life, Art, Industries, and Government of China Ad Its Pe** John Thomson,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1876 edition Excerpt CHAPTER V CHINESE CITIES AND VILLAGES A Chinese city viewed from a distance Fire walls Suburbs Foochow f u The great bridge Streets Shops Signboards Walls Boats Villages Huts Village life Village warfare Hired braves Robbers Government interference Settled communities The typical Chinese city when viewed from a distance presents a vast area of tiled roofs rising to a nearly uniform height and a network of narrow alleys and streets In most of the densely populated towns the roads are so contracted and the overlapping eaves of the houses so broad as to convey the idea that the place is made up of one unbroken mass of human dwellings but in cities such as Peking and Nanking there are many straight wide roads and open breathing spaces These two cities however are the ancient and modern capitals of China for which reason they were specially laid out to accommodate the imperial Court and the aristocracy In towns where available space is really of greater importance to the people sunlight and pure air appear to be carefully excluded hence all the inhabitants who may desire to cheer themselves by a glimpse of the blue sky and a draught of the passing breeze must resort to their house tops which are commonly decked with rows of fragrant flowers set out in pots and surrounded with ornamental rails marking the limits of a small wooden platform Running along the ridges of the roofs numerous jars may also be seen filled with water to the brim so as to afford a ready resource in case of fire They have no fire engines and indeed only those of the most portable kind would be of any service since otherwise they could never be conveyed to the scene of a conflagration We may also notice that the close packed [The Land and the People of China](#) J. Thomson,2015-07-23 Excerpt from The Land and the People of China A Short Account of the Geography History Religion Social Life Art Industries and Government of China Ad Its People The geographical position which China occupies in Eastern Asia and the physical features of the country itself are so remarkable as in some measure to account both for the antiquity of the empire and for the long continued isolation of its people Shut in all round by the vast mountain chains of Manchuria Mongolia and Thibet the dependencies of the modern empire and watered by a river system unsurpassed in the world the low lying plains of China proper were prepared for tillage in times long previous to the advent of their present inhabitants by a gradual process of denudation in the highlands and the resulting deposit of alluvia carried seawards with the streams The land was thus made ready for its busy occupants and the soil rendered suitable by its depth and richness for maintaining a large population About

The Land and People of China Cornelia Spencer,1972 Introduces the history and culture of the four thousand year old country known today as the People s Republic of China *The Land and People of China* Derek Bryan,1968 **Land and the People of China** ,1876 The World, Its Lands and Peoples Zoe Agnes Thralls,1948 **Argentina - The Land** Greg Nickles,2000 A fascinating tour of the South American country of Argentina is offered to readers through this book From its near tropical forest in the north to the arid desert in the south to the lofty Andes Mountains in the west Argentina s breathtaking landscape its weather plants animals farming and industry are featured in full color photos and illustrations

Urban Development in China under the Institution of Land Rights Jieming Zhu,2019-09-17 How have the development and redevelopment of China s cities since the early 1950s transformed the settlements and fortunes of a fifth of the world s population Rapid urbanization since the 1980s has changed the nation from a rural society to an urban one marking it as one of the most significant transformations in history As a country with severe land scarcity land resources are intensively contested for during urbanization under the new regime of marketization This book focuses on the impact of the institution of land rights that have transitioned from private ownership to socialist state ownership and subsequently to public land leasing in the urban domain and to collective ownership in rural areas In the context of defining the relationship between the state and the market the gradualist transition of land rights gives rise to intriguing processes of place making The elaboration of these

processes will engage several revealing conceptual notions land as a means of production land commodification ambiguous land rights incomplete land rights trading land use rights for land development rights institutional uncertainty land rent seeking and dissipating local developmental state danwei enterprises and more The newly created landed interests are embedded intricately within the urban spatial structure This book would especially be of interest to scholars interested in developmental economics urban planning geography public policies public management and sociology and also practitioners focusing on development and planning

Power over Property Matthew Noellert, 2020-10-13 Following the end of World War II in 1945 the Chinese Communist Party CCP spent the next three decades carrying out agrarian reform among nearly one third of the world's peasants This book presents a new perspective on the first step of this reform when the CCP helped redistribute over 40 million hectares of land to over three hundred million impoverished peasants in the nationwide land reform movement This land reform the founding myth of the People's Republic of China 1949 present and one of the largest redistributions of wealth and power in history embodies the idea that an equal distribution of property will lead to social and political equality Power Over Property argues that in practice however the opposite occurred the redistribution of political power led to a more equal distribution of property China's land reform was accomplished not only through the state's power to define the distribution of resources but also through village communities prioritizing political entitlements above property rights Through the systematic analysis of never before studied micro level data on practices of land reform in over five hundred villages Power Over Property demonstrates how land reform primarily involved the removal of former power holders the mobilization of mass political participation and the creation of a new social political hierarchy Only after accomplishing all of this was it possible to redistribute land This redistribution moreover was determined by political relations to a new structure of power not just economic relations to the means of production The experience of China's land reform complicates our understanding of the relations between economic social and political equality On the one hand social equality in China was achieved through political not economic means On the other hand the fundamental solution was a more effective hierarchy of fair entitlements not equal rights This book ultimately suggests that focusing on economic equality alone may obscure more important social and political dynamics in the development of the modern world

Hong Kong, China

Gordon Mathews, Dale Lü, Jiewei Ma, 2008 The idea of national identity is an ambiguous one for Hong Kong Returned to the national embrace of China on 1 July 1997 after 150 years as a British colony the concept of national identity and what it means to belong to a nation is a matter of great tension and contestation in Hong Kong Written by three academic specialists on Hong Kong cultural identity social history and mass media this book explores the processes through which the people of Hong Kong are learning to belong to a nation by examining their relationship with the Chinese nation and state in the recent past present and future It considers the complex meanings of and debates over national identity in Hong Kong over the past fifty years and especially during the last decade following Hong Kong's return to China It also places these arguments within

a larger global perspective to ask what Hong Kong can teach us about national identity and its potential transformations Multidisciplinary in its approach Hong Kong and China explores national identity in terms of theory mass media survey data ethnography and history and will appeal to students and scholars of Chinese history cultural studies and nationalism

China's Motor Hill Gates,2018-10-18 This monumental work reveals the continuities that underlie the changing surface of Chinese life from late imperial days to modern times With a perspective that encompasses a thousand years of Chinese history China's Motor provides a view of the social economic and political principles that have prompted people in widely varying circumstances to act believe and behave in ways that are labeled as Chinese This original reinterpretation of Chinese culture as meticulous in detail as it is vast in scope will revise not only the study of China but also the very terms of social analysis

Land Policy in China Shukui Tan,Xianjin Huang,2023-06-08 This book shows the most recent changes in China's land policy and the progress in land policy studies in terms of theory and cases It provides an up to date introduction to specific land policies implemented in China as well as an in depth analysis of the positioning and mechanisms of these policies It is divided into four parts with seven chapters consisting of a introduction to land and land policy b overview of China's land policy c typical policy issues in specific fields including land tenure development protection and administration and d outlook of China's land policy With its emphasis on the importance of practice this book not only provides readers with tools for a systematic understanding of China's land policy practices but also sheds light on relevant policy formulation and practice in other countries

The Far East ,1906 **Contemporary China Review** [2024 Spring/Summer Issue] Journal Editors,2024-07-25 As the Year 2024 has already passed half I sincerely hope and pray for world peace and for people to live and work in peace But looking ahead I believe the future will still not be peaceful The Russian Ukrainian war is still raging and the people are suffering The Israeli Hamas conflict seems to have no signs of stopping and the US election is surging As I said before the three major divisions facing the world are presented at the same time this year the Russian Ukrainian war is a major division between the democratic and dictatorial camps the US election is a major left right division and the Israeli Hamas conflict has surpassed the left right division and the democracy dictatorship division Is the world heading for doomsday We wait and see
