ManagingNonprofits.org Ben Hecht, Rey Ramsey, 2002-03-12 Nonprofit managers have been slow to embrace the digital age Although technology has transformed the face of the for profit sector and how it

operates nonprofit use of technology to improve internal functioning and to change the way services are delivered is almost nonexistent. These limitations actually have opened the door for for profits to compete successfully for traditional nonprofit business such as moving people from welfare to work. Managing Nonprofits.org is both a call to action and a roadmap for change. Each chapter defines an element of Dynamic Management and identifies digital hotspots or places within that element and the nonprofit's implementation of that element where digital issues will most likely arise and need to be addressed. In addition, at the end of each chapter, Maxims of Dynamic Management or core truths that the authors have found helpful to follow in their day to day experience as nonprofit leaders in bringing Dynamic Management to their organization are provided. Finally, the authors highlight the experience of various nonprofit and for profit organizations that have successfully made elements of Dynamic Management a reality in their organizations.

Leadership in Nonprofit Organizations Kathryn A. Agard, 2011. Leadership in Non Profit Organizations tackles issues and leadership topics for those seeking to understand more about this dynamic sector of society. A major focus of this two volume reference work is on the specific roles and skills required of the non profit leader in voluntary organizations. Key features include contributions from a wide range of authors who reflect the variety, vibrancy and creativity of the sector itself; an overview of the history of non profit organizations in the United States; description of a robust and diverse assortment of organizations and opportunities for leadership; an exploration of the nature of leadership and its complexity as exemplified in the non profit sector; availability both in print and online; this title will form part of the 2010 Encyclopedia Collection on SAGE Reference Online. The Handbook includes topics such as personalities of non profit leaders; vision and starting a nonprofit organization; nonprofit law, statutes, taxation and regulations; strategic management; financial management; collaboration; public relations for promoting a non profit organization; human resource policies and procedures.
