Legal Method Sharon Hanson, 2000-10-17 The competent study of law is a finely tuned balance of excellent language ability good reading and writing skills good personal study discipline a thorough appreciation of the relevant areas of substantive law and excellent argumentative skills Legal method is an important area of study for two main reasons First it is important for the range of techniques that it can offer to break into legal texts both primary and secondary Secondly it exposes reasoning processes concerned with the theory and practise of law The book deals in both the areas mentioned and aims to deal with issues of

Legal Method and the Rule of Law Sebastián Urbina, 2002-08-31 We cannot see the world as it is because we face it in a contaminated vein That is our conceptual scheme and biological constitution condition our world view The legal normative world we are dealing with has some special features like the primacy of practical reason over theoretical reason and the primacy of the internal point of view over the external point of view Although it is not a feature of all legal traditions legal dogmatics is a privileged way of knowing legal normative object that is our legal orders But we are not undertaking as legal scholars an empiricist enterprise because among other reasons we are not interested in the reality in itself but in the relevant reality at least for us In this respect we do not only depend on theories like physicists but also on legal authoritative sources that is power and legitimacy Legal scholars and other participants in the legal life are not neutral observers of their own world trying to discover some hidden truth They are committed experts trying to describe justify and improve the legal order

Nigerian Legal Methods C. C. Ohuruogu, O. T. Umahi, 2013-09-27 This text is a collection of writings on assigned topics by some scholars and lecturers in the Faculty of Law at Benson Idahosa University and those invited from outside the university The idea to write a text for use in the study of legal methods for law students was borne out of the desire to present a range of updated material in this area of study The focus of this text is Nigeria The book is written in simple easy to understand language and meant essentially for law students in the first year of the five year course in Law as structured by the National Universities Commission NUC Nevertheless

persons who are in need of information or education on different aspects of the Nigerian legal process will also find aspects of the text useful. The contributors come from diverse backgrounds and experiences which is reflected in their styles of presentation. However, each has endeavoured to present the assigned topic in such a form as to enhance comprehension by the primary beneficiaries. The inclusion of chapters on advocacy and mooted skills as well as examination skills and strategies makes this text unique and allows it to offer more detailed analysis than existing texts in Nigeria provide. *Legal Method, Reasoning and Research Methodology* K.
