New Rhetorics for Contemporary Legal Discourse Condello Angela Condello, 2020-03-18 Are the general and the particular separated in legal rhetorics What is the function of singular events facts names in legal argumentation and what is their relationship to legal normativity Bringing together an international range of legal scholars this collection takes a diachronic approach and addresses these questions from the perspective of contemporary legal discourse It explores the changes in legal form and transmission that have been generated both by globalisation and by common law s irreversible encounter with the civilian methods of European law It explores how in the contemporary legal discourse exemplarity and all rhetoric processes based

on the general particular dichotomy more generally regained relevance In doing so it highlights the centrality of the example and proposes the development of new rhetorical approaches better suited to today s legal practices which operate in a globalised field *Legal Research, Writing and Analysis* William P. Statsky,1974 **Proposed Federal Correctional Institution, Southern West Virginia** ,2005 Resources in Education ,1986 **Sourcebook on Legal Writing Programs** Ralph L. Brill,1997 *Opinion Writing and Case Preparation* The City Law School,2024 **Legal Issues in Mental Health Care** B.A. Weiner,R. Wettstein,2013-06-29 I OVERVIEW Legal Issues in Mental Health Care is aimed at the mental health clinician who provides services on either an inpatient or an outpatient basis It is written for psychiatrists psychologists social workers nurses and other therapists to help them understand and manage legal issues in their daily practice The issues covered apply to therapists who work for an agency or hospital as well as those who work independently The book is meant to serve as a handbook but it also provides a quick resource as legal questions arise which are related to the obligations of the therapist It ad dresses the legal issues that confront the clinician It is not aimed at the clinicianwho specializes in forensie mental health issues because the information provided does not reach that level of detail or sophistication Nor is it aimed at the scholar because our goal is to provide practical information in a clear and concise format Wehave not addressed the wide array of laws protecting the mentally disabled from discrirnina tion most notably the Americans with Disabilities Act 1990 and the Fair Housing Act Most states also have laws that prohibit discrimination in employment services and housing These issues are beyond the scope of this book because we are address ing the legal issues that arise in providing care rather than the rights of mentally disabled persons 11 ORGANIZATION OF THE BOOK The book consists of eleven chapters and a Glossary of Legal Terms **Aging** ,1973 **Doing Legal Research** Roberta Morris,Bruce D. Sales,Daniel W. Shuman,1997 Finding and using the appropriate legal materials can help social researchers design and execute their research more appropriately as well as assist mental health practitioners seeking answers to legal questions that their practice increasingly presents Where can social researchers and mental health practitioners go to learn these techniques Doing Legal Research will enable researchers and practitioners to develop a proficiency in using legal materials by describing how to use the law library to find cite and track cases statutes passed by the state legislatures or Congress legislative history of these statutes and administrative rules regulations and decisions promulgated by state and federal administrative agencies such as the Environmental Protection Agency In addition the book includes exercises that give readers an opportunity to go into the law library and test developing skills on genuine legal questions After reading this book researchers will not only have the skills that will ensure the legal relevance of their initial research question but also the ability to conduct their own evaluation of the legal materials *Legal History in the Curriculum* Caroline Derry,Carol Howells,2025-06-30 As legal education faces fresh challenges and opportunities and a growing literature calls for subversive new approaches this book engages with vital questions about the place of history in the law school How and why should we

teach legal history What is its place in the curriculum What can different jurisdictions learn from each other This collection offers an overview and examples of cutting edge practice in teaching legal history across the law curriculum challenging expectations of its place and potential The book s three sections explore practices and possibilities in the core curriculum in dedicated legal history courses and in law schools across the world They highlight how legal history offers diverse and inclusive content global perspectives and transnational understandings to students By exploring contributors own purposes and practices they provide insight and fresh ideas on how and why readers can incorporate legal histories into their own teaching The volume will be an invaluable resource for all those involved in the teaching of law and the law school curriculum
