Legend-Tripping Online Michael Kinsella, 2011-05-17 On the Internet seekers investigate anonymous manifestos that

focus on the findings of brilliant scientists said to have discovered pathways into alternate realities Gathering on web forums researchers not only share their observations but also report having anomalous experiences which they believe come from their online involvement with these veiled documents Seeming logic combines with wild twists of lost Moorish science and pseudo string theory Enthusiasts insist any obstacle to revelation is a sure sign of great and wide reaching efforts by consensus powers wishing to suppress all the liberating truths in the Incunabula Papers included here in complete form In Legend Tripping Online Michael Kinsella explores these and other extraordinary pursuits This is the first book dedicated to legend tripping ritual quests in which people strive to explore and find manifest the very events described by supernatural legends Through collective performances legend trippers harness the interpretive frameworks these stories provide and often claim incredible out of this world experiences that in turn perpetuate supernatural legends Legends and legend tripping are assuming tremendous prominence in a world confronting new speeds of diversification connection and increasing cognitive load As guardians of tradition as well as agents of change legends and the ordeals they inspire contextualize ancient and emergent ideas behaviors and technologies that challenge familiar realities This book analyzes supernatural legends and the ways in which the sharing spirit of the internet collectivizes codifies and makes folklore of fantastic speculation      **The Supreme Reality** Samuel Robert Calthrop,1913      **Legend and Belief** Linda

**The Zuni and the American Imagination** Eliza McFeely, 2015-06-23 A bold new study of the Zuni of the first anthropologists who studied them and of the effect of Zuni on America's sense of itself The Zuni society existed for centuries before there was a United States and it still exists in its desert pueblo in what is now New Mexico In the late nineteenth century anthropologists among the first in this new discipline came to Zuni to study it and they believed to salvage what they could of its tangible culture before it was destroyed which they were sure would happen Matilda Stevenson Frank Hamilton Cushing and Stewart Culin were the three most important of these early students of Zuni and although modern anthropologists often disparage and ignore their work sometimes for good sometimes for poor reasons these pioneers gave us an idea of the power and significance of Zuni life that has endured into our time They did not expect the Zuni themselves to endure but they have and the complex relation between the Zuni as they were and are and the Zuni as imagined by these three Easterners is at the heart of Eliza McFeely's important new book Stevenson Cushing and Culin are themselves remarkable subjects not just as anthropology's earliest pioneers but as striking personalities in their own right and McFeely gives ample consideration in her colorful and absorbing study to each of them For different reasons all three found professional and psychological satisfaction in leaving the East for the West in submerging themselves in an alien and little

known world and in bringing back to the nation s new museums and exhibit halls literally thousands of Zuni artifacts Their doctrines about social development their notions of salvage anthropology their cultural biases and predispositions are now regarded with considerable skepticism but nonetheless their work imprinted Zuni on the American imagination in ways we have yet to measure It is the great merit of McFeely s fascinating work that she puts their intellectual and personal adventures into a just and measured perspective she enlightens us about America about Zuni and about how we understand each other
