Lejeune 1867 1942 A Marines Life:

LeJeune Blythe Bartlett,2012-04-15 This well documented and hard hitting biography of the thirteenth commandant of the U S Marine Corps succeeds in converting John A Lejeune from a near mythical figure in corps history to a flesh and blood officer who helped build the service from a small appendage of the U S Navy to an important arm of naval warfare Commandant from 1920 to 1929 when he retired from military service to become president of Virginia Military Institute Major General Lejeune is regarded by many as the man most responsible for the establishment of the modern Marine Corps In capturing the life and times of this visionary leader who directed the corps toward major amphibious operations Merrill Bartlett provides vivid insight into the political and military giants of the era and shows Lejeune to be an adroit player of Washington politics and a shrewd manipulator who marshalled the energies and loyalties of his senior officers to accomplish his vision

Preparing for Victory David J Ulbrich, 2011-04-15 *Preparing for Victory* explains how and why Commandant Thomas Holcomb successfully supervised the dramatic expansion of the Marine Corps from 18 000 officers and men in 1936 to 385 000 in 1943 Not only did Holcomb leave the Corps much larger but he also helped establish it as the United States premier amphibious assault force and a major contributor to victory over Japan Despite Holcomb s successes he has been ignored or given short shrift in most histories of the Marine Corps No book length study of his commandancy exists until now Drawing on a wide range of printed and archival sources my book contends that Holcomb expertly guided the Corps preparations for war during the last years of the Great Depression and then provided his Leathernecks with astute direction during the first harrowing twenty five months of World War II When measured with principles of organization theory and leadership studies Holcomb s abilities and achievements match those of such outstanding American military managers as Dwight D Eisenhower Chester W Nimitz and George C Marshall Like these unassuming yet efficient officers Holcomb shied away from the limelight and therefore never garnered the attention that Chesty Puller or Howlin Mad Smith have This book fills a void and tells the story of one of the key leaders in World War II More than any other marine Holcomb molded his Corps into the modern force in readiness that would eventually help fight the Cold War and the Global War on Terror

mission of amphibious assault Before that transformation the corps was a constabulary infantry force used mainly to protect American business interests in the Caribbean a mission that did not place it as a significant contributor to the United States defense establishment The son of a plantation owner from Pointe Coupee Parish Lejeune enrolled at Louisiana State University in 1881 aged fourteen Three years later he entered the U S Naval Academy afterward serving for two years at sea as a midshipman In 1890 he transferred to the Marines where he ascended quickly in rank During the Spanish American War Lejeune commanded and landed Marines at San Juan Puerto Rico to rescue American sympathizers who had been attacked by Spanish troops A few years later he arrived with a battalion of Marines at the Isthmus of Panama part of Colombia at the time securing it for Panama and making possible the construction of the Panama Canal by the United States He went on to lead Marine expeditions to Cuba and Veracruz Mexico During World War I Lejeune was promoted to major general and given command of an entire U S Army division After the war Lejeune became commandant of the Marine Corps a role he used to develop its new mission of amphibious assault transforming the corps from an ancillary component of the U S military into a vibrant and essential branch He also created the Marine Corps Reserve oversaw the corps s initial use of aviation and founded the Marine Corps Schools the intellectual planning center of the corps that currently exists as the Marine Corps University As Simon masterfully illustrates the mission and value of the corps today spring largely from the efforts and vision of Lejeune Thomas Holcomb and the Advent of the Marine Corps Defense Battalion, 1936-1941 David J. Leadership Embodied, 2nd Edition Joseph J Thomas, 2013-10-15 Leadership is a most demanding undertaking How do some people make it seem so simple so natural and instinctive In the age old debate as to whether leaders are born or made Thomas contends that the answer is both Great leaders throughout history were born with certain capabilities Preparation honed those capabilities Then that ability and preparation were combined with a will to lead When circumstances demanded the great leaders of history pulled these attributes together to create results that drove the course of history While leaders are present in every aspect of human undertaking we chose to illustrate each of the components of leadership through the most dramatic and demanding of all human undertakings war and the preparations for war Wartime leaders are leaders writ with a darker pen Wartime challenges are because of the life and death nature of the affair more monumental and exacting In the selection of individuals to illustrate each point we chose wartime leaders as well as those who guided their subordinates and organizations in preparation for combat Further we chose American leaders with a distinct and obvious bias towards the navy and Marine Corps Multiple reasons led us to our approach for Leadership Embodied First a biography is perhaps the most effective method for imparting leadership lessons Simple listings of prescriptive traits or descriptive qualities are patronizing and frequently boring Second our biographical examples are familiar to most or at least they should be Finally all of these historical selections have dramatically shaped today s institutions practices and customs within the naval services These are not marginal figures with marginal influence The individuals included and their respective

leadership attributes should be required reading for any student of leadership Each has a particular lesson for midshipmen on their journey to becoming a navy or Marine Corps officer This book does not promise to be a panacea There is no short cut Leadership does not follow a prescribed path We study examples to inspire us to become better to be strong when it is easy to give in and to know others have gone before us and faced insurmountable odds Leadership as an ill defined social science crosses boundaries with several disciplines including sociology psychology philosophy and history We have selected a method that combines the psychological profile of effective leaders and the historical context of the impact their leadership brought to organizations and events Our hope for this book is that these case studies illustrate the basic elements in themselves the very essence of leadership It is through inherent talent arduous preparation and practical experience that we become capable leaders The reader brings the first to the table then we offer a small token in the second pursuit and circumstances enable the third
