*The Life and Times of Walter Reuther* James TenEyck, 2016-06-03 The Life and Times of Walter Reuther An Unfinished Liberal Legacy recounts the events and social movements that have shaped modern America and examines Reuther's involvement in them For over thirty years Walter Reuther and his United Automobile Workers union were in the vanguard of voices advancing liberal economic and social policies that raised the standard of living for many Americans extended the protection of the law and provided a measure of security for the aged infirm disabled and unemployed In the narrative Reuther serves as the lens through which a period of labor advances civil rights struggle and hot and cold wars are viewed from a liberal perspective The book follows Walter and Victor Reuther on their European adventure to their ancestral homeland during the rise of Hitler and into the Gorky autoworks factory in Soviet Russia The pair returned home to the labor battles in Flint and Dearborn that established a UAW presence in the factories and brought Walter Reuther to the bargaining table to negotiate the agreements that served as the treaty between labor and management for over two decades Reuther's story includes assassination attempts confrontations with Senator Goldwater and Nikita Khrushchev and a presence on the world stage and on the steps of the Lincoln Memorial when Martin Luther King recounted his dream In the later chapters the book looks beyond the life of the man and the events of his time and seeks to advance a liberal legacy that recently has been relentlessly attacked and too timidly defended

*Shaping the Culture of Schooling* Cheryl Taylor Desmond, 1996-07-03 Focusing on the cultural history of the origins of outcome based education OBE this book investigates the social and economic culture of Johnson City New York schools OBE has often been proclaimed the salvation for ailing American schools and has spread to thousands of school districts throughout the United States The reform has also been the lightning rod for fierce challenges from community members who oppose OBE's dismantling of the bell shaped curve and its promotion of secular humanism The author uncovers the messy business of school change and its deep roots in the values of the local community and economy Grounding the story historically and theoretically Desmond analyzes the reshaping of the Johnson City schools from a production mill for blue collar workers to a development center of technologically minded middle class well educated citizens She argues that the heart of successful synergistic school reform lies in the consensus that children have unlimited learning capacity and a long term moral leadership that is committed to caring reciprocal relationships of power

The Psalms, 1885 Surfaces and Essences Douglas R Hofstadter, Emmanuel Sander, 2013-04-23 Analogy is the core of all thinking This is the simple but unorthodox premise that Pulitzer Prize winning author Douglas Hofstadter and French psychologist Emmanuel Sander defend in their new work Hofstadter has been grappling with the mysteries of human thought for over thirty years Now with his trademark wit and special talent for making complex ideas vivid he has partnered with Sander to put forth a highly novel perspective on cognition We are constantly faced with a swirling and intermingling multitude of ill defined situations Our brain's job is to try to make sense of this unpredictable swarming chaos of stimuli How does it do so The ceaseless hail of input triggers analogies galore helping us to pinpoint the essence of what is going on Often this means the spontaneous evocation of words sometimes idioms sometimes the triggering of nameless long buried memories Why did two year old Camille proudly exclaim I undressed the banana Why do people who hear a story often blurt out Exactly the same thing happened to me when it was a completely different event How do we recognize an aggressive driver from a split second glance in our rearview mirror What in a friend's remark triggers the offhand reply That's just sour grapes What did Albert Einstein see that made him suspect that light consists of particles when a century of research had driven the final nail in the coffin of that long dead idea The answer to all these questions of course is analogy making the meat and potatoes the heart and soul the fuel and fire the gist and the crux the lifeblood and the wellsprings of thought Analogy making far from happening at rare intervals occurs at all moments defining thinking from top to toe from the tiniest and most fleeting thoughts to the most creative scientific insights Like G

Escher Bach before it Surfaces and Essences will profoundly enrich our understanding of our own minds By plunging the reader into an extraordinary variety of colorful situations involving language thought and memory by revealing bit by bit the constantly churning cognitive mechanisms normally completely hidden from view and by discovering in them one central invariant core the incessant unconscious quest for strong analogical links to past experiences this book puts forth a radical and deeply surprising new vision of the act of thinking      **Political Faultlines in the Middle East** Kingshuk

Chatterjee,2023-06-14 The region of the Middle East is beset with a structural crisis of which particular crises confronting the component countries happen to be merely subsets The real questions revolve round the issue of how long can the present dispensations of power and social structures in the region forged in the twentieth century first half or second can last in the twenty first when they no longer reflect the realities on the ground This volume aims to look at some of the issues to see how the faultlines in the region appear in 2020 to both those in the region and those outside it The volume limits itself to only Levant and the Gulf and looks at the tensions within and policies both foreign and domestic of some of the key regional players which have regional repercussions It also looks at the policies of some of the global players operating in the region that have bearing on the regional faultlines Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan
