Sheila Fitzpatrick,Lynne Viola,2016-07-22 The Stalin era has been less accessible to researchers than either the preceding
decade or the postwar era The basic problem is that during the Stalin years censorship restricted the collection and
dissemination of information and introduced bias and distortion into the statistics that were published while in the post Stalin
years access to archives and libraries remained tightly controlled Thus it is not surprising that one of the main manifestations
of glasnost has been the effort to open up records of the 1930s In this volume Western and Soviet specialists detail the
untapped potential of sources on this period of Soviet social history and also the hidden traps that abound The full range of
sources is covered from memoirs to official documents from city directories to computerized data bases Leningrad and Its
