How to make Money with Money Joe Soldi, I wrote How to make Money with Money for all beginning aspiring self-directed investors and traders who are just getting their head around doing the day trading and swing trading business. Everyone has their own ideas of what they think day trading and swing trading are and what it can do for them. How to make Money with Money is for people who want to start their own business and become investors and traders in today's financial markets but have zero experience and are looking for the best quality information to get them started. Many of the things I tell brand new investors and traders in all my books may sound like I am a broken record and some things you read may sound repetitive. I do that for a specific reason because much of what trading is about is doing those same actions over and over again repetitively to make money the same way every day. It is the only way professional traders do it and how they develop their edge to win in the live markets against the best market participants in the world. The learning curve in this business and it is a business can be long, brutal, and very very expensive if you learn the wrong way. How to make Money with Money aims to tell you how to study it the right way the first time and greatly reduce that long learning curve by showing you what the market is really made of and who are actually in control of it and when they are in control of it. When you have this information and can see it on a live price chart in real time and pull the trigger without hesitation, you can make a lot of damn money. Brand new traders all make the same mistakes over and over because they don't know any better now you do. They do what everyone else is doing and study what everyone else is studying, thus they have the same results and failures as everyone else. Don't be that trader. If you can just take the time to read this information in this book, let it sink in, and then continue on your educational journey, you will have done yourself a huge favor and also begun to give yourself the needed edge to succeed in this business. When you are done reading How to make Money with Money, you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in this book will put you on the fast track to becoming a successful self-directed investor and trader with very little money invested other than the cost of How to make Money with Money.
