Newman, 2018-07-26 This new Brief Sixth Edition of David Newman's text is the streamlined version of *Sociology: Exploring the Architecture of Everyday Life* with the same goal to be a textbook that in the author's words reads like a real book. Newman shows to see the unfamiliar in the familiar to step back and see organization and predictability in their take for granted personal experiences. Newman uses the metaphors of architecture and construction to help students understand that society is not something that exists out there independently of themselves; it is a human creation that is planned, maintained or altered by individuals.
