How To Sail Around The World:

How to Sail Around the World Part-Time Linus Wilson, 2016-02-10 Do you dream of sailing around the world in a sailboat Do you have a business or career you don't want to sacrifice for that dream Do you have kids in school You don't need to quit your job sell your house and take the kids out of school to complete a circumnavigation of the globe in a sailboat You don't have to wait until you are retired to sail for the South Pacific This book tells you how you can do it without uprooting your life by taking as little as two months per year off to sail the trade winds Circumnavigating the globe in a sailboat is on par with scaling Mount Everest in terms of its rarity Many potential circumnavigators are hobbled by misconceptions about the journey that mountaineers lack when climbing to the top of the world It is said I want to circumnavigate to see the world Nevertheless successful trade wind circumnavigators don't see the world Instead they travel on a narrow ribbon around it stopping mostly at a narrow range of countries that are downwind Lack of focus causes many more failed circumnavigations than storms at sea The conventional wisdom is that you need to quit your job sell your house and live on the boat year round The reality is that even retirees circumnavigating full time keep their boat in port half of the year because of the demands of cyclone season There is no good way to elude the November to April cyclone season that dominates 60 percent of the trade wind circumnavigation route The mad rush from the eastern Caribbean to the safe ports in New Zealand and Australia in a single calendar year is misguided It sets cruisers up for hard upwind ocean passages in future years and saps the resolve of their crews A better solution is to haul out their boats in the South Pacific and fly back to their homes in the developed world during the cyclone season It makes more sense to keep one's job and home and take annual two to six month leaves of absences to move the boat forward during the cruising season This allows the sailors to earn more outside the cruising season Further they can maintain the careers and businesses which they have built over many years Further cruisers still have a job or business to come back to if they decide that the cruise is not for them Pursuing a part time circumnavigation is likely to be far less costly to cruisers long term earnings than totally severing ties to one's job or business Going back to their homes on land is much more comfortable than living aboard while waiting for cyclone season to pass The most modest land based accommodations are typically more comfortable than the most luxurious sailboat in port Finally part time circumnavigations avoid many problems with educating school age children and obtaining necessary parts Learn about the trade wind route around the world with stops in Panama the Galapagos the Marquesas Tahiti Fiji Vanuatu New Caledonia Australia Mauritius Chagos Madagascar South Africa St Helena Brazil and the eastern Caribbean Learn why the Pirate attacks in the Gulf of Aden have NOT made circumnavigating the globe harder This is the second book by the bestselling author of *Slow Boat to the Bahamas* Linus Wilson Dr Wilson got his doctorate in financial economics at Oxford University He sails an Island Packet 31 with his wife daughter and four pound poodle He has been published in *Cruising Outpost* and *Good Old Boat* magazines To learn more about the author's adventures boat repair tips free chapters and books

explain The decisions you make now will determine if you'll come back from your cruise feeling more empowered or more enslaved by today's consumer society

A Woman's Guide to the Sailing Lifestyle Thomas Desrosiers, 2015-09-18 A chance sailing trip with a friend from work led me to wonder if I could learn to sail After all I'm a woman and the sailing world seems to favor men I am not athletic I didn't grow up in a family where we learned about boating I would be starting late since I was in my thirties and I suffer from seasickness What I discovered over the next twenty five years is that I could indeed learn to be a competent sailor But I didn't expect to be an expert overnight Instead as a novice I layered on new knowledge slowly over time through experiential learning This book describes the process whereby this happened Using examples from trips along the coast of Maine New Hampshire and Massachusetts it reviews the essential knowledge needed to be a sailor as well as explanations about the parts of a sailboat major boat systems and tasks associated with maintaining a sailboat It also discusses some Zen like attitudes that lead to successful and fun sailing such as focusing the no blame rule and stripping down to the essentials Unlike some other sailing guides this book points out that sailing can be a lifestyle that includes many dimensions It's not just about getting a boat to sail Traveling by boat is a unique experience and visiting small coastal New England communities is an adventure Learning about history art ecology star constellations technology and birds are only a few of the kinds of activities that can be built into a rich and rewarding sailing experience This book will be helpful for people who would like to learn to sail but who are intimidated by the process particularly women fledgling sailors just starting out and families with children

Sailing to Jessica Kelly Watts, 2012-11-16 At 35 years old Kelly and Paul Watts sold their home and quit their jobs to sail around the world without any sailing experience Two days after purchasing their forty two foot sloop they got caught in a forty knot gale off the coast of Cape Fear NC Their sails ripped the engine overheated the GPS broke they suffered hypothermia and severe seasickness And yet they persevered on their journey discovering the playful sea lions of the Galapagos the seductive dance of the Polynesian girls and the primitive beat of Tuvaluan music all while learning how to sail and repair their boat They narrowly avoided a shark attack in Suvarrow fled from suspected pirates off the coast of Ecuador and hit a submerged container the fear of all sailors near Midway Island What started as a search to find meaning to life without children only strengthened their desire to have a family After fertility attempts failed in America and New Zealand they unexpectedly adopted a two month old baby in Kiribati And so began the adventure of raising a baby on a boat in the middle of the Pacific battling Dengue Fever and an epidemic of e coli almost losing their lives in a 60 knot westerly gale and navigating through the maze of international adoption paperwork Told from Kelly's conversational point of view *Sailing to Jessica* will inspire anyone who is searching for meaning in their life to get up and find it
