Everyone of us go through struggles every day of our lives but some of us have someone to help guide us in the right direction Unfortunately many of us Refuse to turn to anyone for help because of how bad we have made things for ourselves This book has been written to help those of us who have a hard time discussing our personal business with others but find comfort in reading the experiences of others GOD did not create us to lose to our enemy Satan nor does He intend for us to bow down to hurtful men and women This book teaches you to expect to win daily **Guerrilla Warfare** Walter Laqueur,2017-07-28 As the author makes clear every book has a history Guerrilla Warfare is no exception Together with its sequel Terrorism and two companion readers it was part of a wider study to give a critical interpretation of guerrilla and terrorism theory and practice throughout history It did not aim at providing a general theory of political violence nor did it give instructions on how to conduct guerrilla warfare and terrorist operations Its aim remains to bring about greater semantic and analytic clarity and to do so at psychological as well as political levels While the word guerrilla has been very popular much less attention has been given to guerrilla warfare than to terrorism even though the former has been politically more successful The reasons for the lack of detailed attention are obvious guerrilla operations take place far from big cities in the countryside in remote regions of a nation In such areas there are no film cameras or recorders In his probing new introduction Laqueur points out that a review of strategies and the fate of guerrilla movements during the last two decades show certain common features Both mainly concerned nationalists fighting for independence either against foreign occupants or against other ethnic groups within their own country But despite the many attempts only in two placesAfghanistan and Chechnya were the guerrillas successful According to Laqueur historical experience demonstrates that guerrilla movements have prevailed over incumbents only in specific conditions Due to a constellation of factors ranging from modern means of observation to increase in firepower The author suggests that we may witness a combination of political warfare propaganda guerrilla operations and terrorism In such cases this could be a potent strategy for unsponsored revolutionary change But either as social history or military strategy this work remains a crucial work of our times

Fascist Warfare, 1922-1945 Miguel Alonso,Alan Kramer,Javier Rodrigo,2019-11-26 This groundbreaking book explores the interpretative potential and analytical capacity of the concept fascist warfare Was there a specific type of war waged by fascist states The concept encompasses not only the practice of violence at the front but also war culture the relationship between war and the fascist project and the construction of the national community Starting with the legacy of the First World War and using a transnational approach this collection presents case studies of fascist regimes at war spanning Nazi Germany Fascist Italy Francoist Spain Croatia and Imperial Japan Themes include the idea of rapid warfare as a symbol of fascism total war the role of modern technology the transfer of war cultures between regimes anti partisan warfare as a key feature and the contingent nature and limits of fascist warfare **Spiritual War into a World of Spiritual Darkness** Merry Tillman,2009-11-17 This may be the one of most fascinating book youve ever read There are many things man and

woman does not understand When we read the Bible it foretells the events that have unfolded since the beginning of time The Bible speaks truthfully and it informs us on the past present and future Since the fall of man evil has had its dark forces lurking here and there and many people are deceived by it At this very moment the works of darkness are taking place therefore be on guard to protect yourself People practice witchcraft for self motivation power and control however most may not realize the devastation it causes the person they are trying to harm Questions go unanswered for countless ones who seek help for this type of darkness I am Merry Harris Tillman and I would like to inform the world of the dark forces at work What is the real truth behind witchcraft Is it good or is it bad I will shed light on what witchcraft is and the harm it causes There are many dangerous situations where life is at risk It comes in many forms such as calamities accidents and crimes It exists in locations possessed by evil spirits known as territorial spirits

Writing Wars David F. Eisler,2022-12-14 Choice Outstanding Academic Title 2024 Senators Bob and Elizabeth Dole Biennial Award for Distinguished Book in Veterans Studies winner Who writes novels about war For nearly a century after World War I the answer was simple soldiers who had been there The assumption that a person must have experienced war in the flesh in order to write about it in fiction was taken for granted by writers reviewers critics and even scholars Contemporary American fiction tells a different story Less than half of the authors of contemporary war novels are veterans And that's hardly the only change Today's war novelists focus on the psychological and moral challenges of soldiers coming home rather than the physical danger of combat overseas They also imagine the consequences of the wars from non American perspectives in a way that defies the genre's conventions To understand why these changes have occurred David Eisler argues that we must go back nearly fifty years to the political decision to abolish the draft The ramifications rippled into the field of cultural production transforming the foundational characteristics authorship content and form of the American war fiction genre **The War On Success** Tommy Newberry,2010-01-12 The Obama administration is not only attacking entrepreneurs and small business owners it's launched a fundamental assault on the very concept of success By denigrating all the qualities that make success possible self reliance ambition hard work the pursuit of excellence the administration is setting the stage for Big Government to step in and guarantee everyone's success through socialist style redistribution Brash direct and unafraid The War on Success tells you what's at stake nothing less than the survival of the American Dream **The Trouble with Trauma** Michael Scheeringa,2022-03-08 The Trouble with Trauma is the story of how the idea of psychological trauma appeals to the human mind Trauma impacts many people psychologically but the evidence on the long term physical effect is incomplete Theories that psychological trauma can permanently damage your brain cause physical disease and change your essential character have become staples of human thought worldwide Dr Scheeringa explains how those theories are widely believed whilst not being true and at the heart of the story is an explanation of how humans choose to ignore scientific evidence and practice self deception based on heuristics for survival Heuristics is a rapid and efficient method to make judgments about threatening situations which may be especially relevant during an epidemic and the spread of misinformation But The Trouble with Trauma is more than a critique of social policy This is a book for anyone who wants a better understanding on how groupthink and herd mentality works and improves our

ability to understand scientific fact Dr Scheeringa sheds light on why we choose to ignore scientific evidence while engaging the reader in a lively conversation on how we come to believe

The Liberty Wars: The Trump Time Bomb Joe

Dixon,2018-02-07 Trump is in the White House Forget the Culture Wars the Liberty Wars are about to erupt on the grand apocalyptic scale Do you know the difference between positive and negative liberty You had better find out fast They define the world we live in and the immense conflicts to come Politics has failed The advent of Donald Trump a Plutocrat with zero political experience as the President of the USA shows that democracy is now coming to its end If the President can be a non politician a demagogue of the old school why do we need any politicians at all What have the politicians ever done for us The Reckoning is here As John F Kennedy said The hottest places in Hell are reserved for those who in time of moral crisis preserve their neutrality

Same Ole Or Something New Carolyn LaDelle Bennett,2010-05-12

Same Ole builds a bridge of global voices to Something New Starting out in a darkened chasm of Washington war chronicles deficit leadership and warped values the book crosses bridges crafted by artists introspective songs of protest then turns a full beam on five continents unconventional thought and activism contributive to uprooting power entrenchment uprooting the regressive is At the heart of Same Ole or Something New is the belief that we can and must do better the way it is wrong and it does not have to be this way A world multifaceted in cultures traditions and histories issues and insight experiences and contributions requires unconventional thought multi diverse input consent and competence in a process of re recreation The regressive is must be undone Same Ole s second half brings light to global voices and ideas outside the mainstream which are eminently capable of uprooting power entrenchment They personify Something New

Faith, War, and Violence Gabriel R.

Ricci,2017-09-08 Faith War and Violence analyzes the age old links between religion and violence perpetrated in the name of God and the role religion performs in politically infusing the state with romantic spiritualism The volume examines instances of this phenomenon from ancient Rome to the modern day it finds that religion inspired violence is not restricted to Abrahamic faiths or to one geographic region The fact that symbolically charged religious violence has destructive consequences is not lost on contributors to Faith War and Violence Among the subjects tackled are the ideological and religious foundations that inspired the founders of Al Qaeda and its role in the Arab Spring the long history of religious conflict in Ireland known as the Troubles Sikh extremism and the evolution of the Christian approach to war As the contributors demonstrate in Western societies the unity of religious fervor and warmongering stretches from Constantine s incorporation of Christian symbols into Roman army flags to slogans like Gott mit uns God is with us which appeared on the belt buckles of German soldiers in World War I In recent years George W Bush declared the war on terror a crusade and his speechwriter David Frum coined the religiously inspired term Axis of Evil to describe Iraq and other countries opposing the United States

War and Morality Michael Cavanagh,2014-01-10

In democratic societies it is said that wars and military interventions are fought in the name of the citizens of the nation engaged in the conflict Yet ordinary citizens the major

stakeholders in war are seldom provided with as much information for making and acting on their moral decisions about war as they are about many other national issues that affect them To fill the void this volume addresses the nature of conscience various moral norms a moral decision making process and the theoretical and practical issues involved in attempting to avoid war or at least to make it as moral as possible considering its nature By discussing how the morality of war differs from its political military economic and legal dimensions this unique work attempts to enable citizens to make informed decisions about declaring waging and ending war and to act on those decisions Instructors considering this book for use in a course may request an examination copy here

Livin' Just to Find Emotion David Hamilton Golland, 2024-02-06 Golland leaves no stone unturned in this fine grained chronicle of the rock group Journey Golland's passion and precision make this a pleasure Publishers Weekly Starred Review Golland provides an overdue critical take on the group's overall sound He also discusses issues of musical influence versus appropriation It is rare and valuable to find such insight in books like this Library Journal Starred Review A welcome study of one of rock's most enduring musical fusions Salon Relive Journey's greatest songs and moments with this fiftieth anniversary tribute Since exploding on the scene in the late 1970s Journey has inspired generations of fans with hit after hit But hidden under this rock n roll glory is a complex story of ambition larger than life personalities and clashes David Hamilton Golland unearths the band's true and complete biography based on over a decade of interviews and thousands of sources When Steve Perry joined jazz blues progressive rock band Journey in 1977 they saw a rise to the top and their 1981 album *Escape* hit 1 But Perry's quest for control led to Journey's demise They lost their record contract and much of their audience After the unlikely comeback of *Don't Stop Believin* in movies television and sports stadiums a new generation discovered Journey A professional historian Golland dispels rehashed myths and also shows how race in popular music contributed to their breakout success As the economy collapsed and as people abandoned the spirit of Woodstock in the late 70s Journey used the rhythm of soul and Motown to inspire hope in primarily white teenagers lives Decades later the band and their signature song remain classics and now with singer Arnel Pineda they are again a fixture in major stadiums worldwide
