Thomas,Joe Kincheloe,2006-01-01 In a world gone mad with standardized curricula and the degradation of the profession of teaching P L Thomas and Joe Kincheloe attempt to bring sanity back to the discussion of the teaching of some of the basic features of the educational process In Reading Writing and Thinking The Postformal Basics the authors take on the rational irrationality of current imperial pedagogical practices providing readers with provocative insights into the bizarre assumptions surrounding the contemporary teaching of reading writing and thinking The authors are obsessed with producing an accessible book for multiple audiences parents teachers scholars of education that moves beyond critique to a new domain of the social and educational imagination Readers of Thomas and Kincheloe s book embark on a mind trip beginning with what is and moving to the realm of what could be In this context they introduce readers to a critical theory of thinking postformalism that moves the social and educational conversation to a new terrain of individual and social consciousness Tired of the same educational policies and solutions in the teaching of reading writing and thinking the authors become socio psychic explorers who move readers past the boundaries of contemporary pedagogical perception
