statute that gave them government stock bearing 6 percent interest in exchange for their money Their example set off a chain reaction down the coast More than a thousand subscribers in the port towns pledged money and began to build nine warships with little government oversight Among the subscription ships were the Philadelphia later lost on the rocks at Tripoli Essex the first American warship to round the Cape of Good Hope and Boston which captured the French corvette Le Berceau This book is the first to explore in depth the subject of subscribing for warships Frederick Leiner explains how the idea materialized who the people were who subscribed and built the ships how the ships were built and what contributions these ships made to the Quasi War against France Along the way he also offers significant insights into the politics of what is arguably the most critical period in American history *Popular Science* ,1967-10 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 *Collier's* Hansi,1917 Hearings United States.
