## **Lacan And The New Wave In American Psychoanalysis The Subject And The Self:**

Lacan and the New Wave Judith Feher-Gurewich, 1998-09-17 What makes it so difficult for Lacanian and American psychoanalysts to understand each other This question runs through *Lacan and the New Wave in American Psychoanalysis* a book that explores the divergent dialogues with Freudian theory that are taking place on both sides of the Atlantic In a lively exchange some of the most prominent psychoanalysts in France and America today come together to offer contrasting views on borderline conditions gender difference and the role of sexuality and aggression in the development of psychopathology Comparing Lacan's theory of the Subject with recent American views on the psychoanalytic concept of the Self this book makes Lacan's work accessible and clinically relevant to American audiences *Lacan & New Wave in American Psychoanalysis: subject & Self* Judith Feher-Gurewich, 1999

*Lacan and the New Wave* Judith Feher-Gurewich, 2020-10-20 What makes it so difficult for Lacanian and American psychoanalysts to understand each other This question runs through *Lacan and the New Wave in American Psychoanalysis* a book that explores the divergent dialogues with Freudian theory that are taking place on both sides of the Atlantic In a lively exchange some of the most prominent psychoanalysts in France and America today come together to offer contrasting views on borderline conditions gender difference and the role of sexuality and aggression in the development of psychopathology Comparing Lacan's theory of the Subject with recent American views on the psychoanalytic concept of the Self this book makes Lacan's work accessible and clinically relevant to American audiences

**Lacanian Psychoanalysis** Ian Parker, 2010-07-16 Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts It draws on Lacan's approach to shed light on issues relevant to current therapeutic practice

**Between Winnicott and Lacan** Lewis A. Kirshner, 2011-03-25 D W Winnicott and Jacques Lacan two of the most innovative and important psychoanalytic theorists since Freud are also seemingly the most incompatible And yet in different ways both men emphasized the psychic process of becoming a subject or of developing a separate self and both believed in the possibility of a creative reworking or new beginning for the person seeking psychoanalytic help The possibility of working between their contrasting perspectives on a central issue for psychoanalysis the nature of the human subject and how it can be approached in analytic work is explored in this book Their differences are critically evaluated with an eye toward constructing a more effective psychoanalytic practice that takes both relational and structural linguistic aspects of subjectivity into account The contributors address the Winnicott Lacan relationship itself and the evolution of their ideas and provide detailed examples of how they have been utilized in psychoanalytic work with patients Contributors Jeanne Wolff Bernstein James Gorney Andre Green Mardi Ireland Lewis Kirshner Deborah Luepnitz Mari Ruti Alain Vanier Francois Villa

**Lacan and Klein, Creation and Discovery** Adam Rosen-Carole, 2012-07-10 On the one hand *Creation and Discovery* Lacan and Klein An Essay of Reintroduction seeks to disclose the often suppressed or unacknowledged proximity even intimacy between Lacan and Klein and thereby to facilitate

a re introduction between Lacan and Klein such that their works can read anew both independently and together On the other hand by reconstructing the highly divergent metapsychological theories and clinical orientations of Jacques Lacan and Melanie Klein from their discussions of the same case material the text seeks to demonstrate the irreducible plurality of psychoanalysis and the ethico political significance of this plurality Siding with neither Lacan nor Klein s perspective Adam Rosen Carole argues that within and between these exaggerated positions a dialectic of creation and discovery emerges that affords the reader unique insights into the nature and status of psychoanalytic knowing and its particular objects Special attention is paid to the indelible exaggerations and distortions the guiding sensitivities and urgencies and the concomitant structures of blindness and insight organizing various psychoanalytic perspectives Written for clinicians as well as for students and scholars interested in psychoanalysis and philosophy this book serves not only as a comprehensive introduction to Lacan but also a reassessment of psychoanalytic method

Lacan in America Jean-Michel Rabate, 2020-09-08 This interdisciplinary compilation of essays is a welcome tonic for the jet lag or cultural gap between Lacanian discourse s warm reception in Latin countries and the resistance Lacanian clinical applications have met with in the Anglophone world Lacan in America illuminates important and dynamic debates within a cultural context that Lacan himself has modified Rather than a made simple approach this dynamic collection invokes some of the hesitations contradictions and evolutions that appear to be the most exciting part of his legacy in polylogical discussions by Lacanians who are not averse to a critical reexamination of major concepts or textual and political issues Topics include a regressive sexual science and a postmodern condition technological mediation through seduction and resistance the partisan issues beneath some of the resistances met by Lacanian discourse and Lacan s revelations as responses to Freudian riddles Demonstrating the vitality of Lacanian thought and its impact on disciplines from mathematics to gay lesbian studies Lacan in America works to edify the fruit of Lacan s endless revision an infinitely propagated transfiguration of his search for the meanings of truth Lucid and nonpartisan this collection successfully takes the ideas and issues at the heart of Lacan s work and legacy and reinspects them through the lens offered by their transportation across the Atlantic illustrating what has happened to them in their translation and mistranslation into and through American intellectual and cultural life Daniel Gunn Department of Comparative Literature and English The American University of Paris

**Lacan** Alain Vanier, 2020-09-08 This concise study offers a clear and informed reassessment of Lacan s ideas and how they revolutionized psychoanalysis Specialists and newcomers alike will appreciate this examination of a complex figure who was by turns a master a charlatan and a surrealist artist

**Generation** Jean White, 2013-12-16 Generation is both an introduction to and a comparative study of contemporary psychoanalytic clinical theory It provides the reader with a comprehensive overview of how new ways of thinking about the psychoanalytic process have evolved and are still in development today Jean White presents a detailed study of contemporary Independent Lacanian and post Kleinian theory set within the wider context of the international expansion of psychoanalysis

Contemporary clinical practice is discussed in relation to concepts of psychopathology transference and countertransference and innovations in technique Each school s explicit and implicit models of psychic growth and their view of the aims of the psychoanalytic process are explored Written in clear accessible language and interwoven throughout with clinical vignettes Generation provides an invaluable initiation into the work of notoriously difficult authors such as Lacan and Bion This stimulating presentation of contemporary psychoanalytic theory will be of great interest to psychoanalytic psychotherapists psychodynamic counsellors and psychoanalysts of all theoretical orientations Plurality and Perspective in Psychoanalysis Adam Rosen-Carole,2013-02-28 The book provides a defense of the rational authority of psychoanalytic knowledge that does justice to the plurality of psychoanalytic perspectives and resolves central impasses in the psychoanalytic literature and in the literature concerning psychoanalysis and science It al Being as Relation in Luce Irigaray Emma R. Jones,2023-01-23 Many scholars have struggled with Irigaray s focus on sexuate difference in particular with her claim that it is ontological wondering if this implies a problematically na ve or essentialist account of sexuate difference As a result the ethical vision which Irigaray elaborates has not been taken up in a robust way in the fields of philosophy feminism or psychoanalysis By tracing the notion of relation throughout Irigaray s work this book identifies a rigorous philosophical continuity between the three self identified phases in Irigaray s thought despite some critics concerns that there is a discontinuity between these phases and clarifies the relational ontology that underlies Irigaray s conceptualization of sexuate difference one that always already implies an ethical project The text demonstrates that an understanding of Irigaray s Heideggerian inheritance especially prominent in her later texts is essential to grasping the sense of the idea that sexuate difference is ontological it concerns Being rather than beings This book further develops potential applications of this ontological notion of a relational limit for the fields of philosophy feminism and psychotherapy *Hysteria From Freud to Lacan* Juan-David Nasio,2020-10-13 In the English speaking psychoanalytic world few diagnostic categories are as controversial as hysteria This concept widely held to reflect outmoded cultural prejudices against women has virtually disappeared from our theoretical literature diagnostic manuals and training programs However far from being gender bound hysteria from Jacques Lacan represents a psychic strategy that bears on one of the most fundamental preoccupations of existence What does it mean to be a woman What does it mean to be a man **Introduction to the Reading of Lacan** Joel Dor,2013-03-26 About this Book A major and long overdue addition to the America English psychoanalytic literature All major concepts among them the mirror stage the Name of the Father metaphor and metonymy the phallus the foreclosure of the subject are developed in depth Nicholas Kouretzas Harvard Medical School Lacan in Italy Luca Di Gregorio,2025-06-25 This book provides the first analysis of the reception and development of Lacanian psychoanalysis in Italy offering a comprehensive account of the relevance and contributions of Italian Lacanians It examines Italian Lacanianism through its distinctive engagement with clinical practice sociopolitical analysis and aesthetics highlighting the work of influential figures such as Sergio Benvenuto and Massimo

Recalcati Lacan in Italy proposes a nuanced understanding of how Italian Lacanians reinterpret Lacan's legacy advancing an affirmative approach to the notion of the real often conceptualised in negative terms as traumatic impossible unrepresentable and unsymbolisable by emphasising its generative life affirming potential The book also fosters dialogue with Lacanian receptions across different countries and languages [Lacan's Seminar On Anxiety](#) Roberto Harari,2013-03-26 Designed for novices as well as students of psychology and literary criticism these systematic lectures do much to clarify Lacan's groundbreaking work on the birth of the subject and its links with Freud's theory of drives Moreover they answer some of the criticisms that have been leveled at Lacan by forms of psychoanalysis unable or unwilling to incorporate his ideas

**Clinical Lacan** Joel Dor,1998-09-17 This companion text to Introduction to the Reading of Lacan focuses on the concept of the psychic structures of desire Using case examples Dor explains the crucial difference between symptoms which can be phenomenologically grasped and the actual psychic structure of the subject which can be revealed only through the discourse of the patient in the psychoanalytic situation This work brings life and practicality to a psychoanalytic movement that has been misperceived and divorced from the daily vicissitudes of analytic work **Against Adaptation** Philippe Van Haute,2012-12-04 Van Haute's exegesis of Lacan's essay is as lucid as it is cogent an admirable and very illuminating achievement William Richardson

**History of Intellectual Culture 1/2022** Charlotte A. Lerg,Johan Östling,Jana Weiß,2022-10-24 With concepts of participation discussed in multiple disciplines from media studies to anthropology from political sciences to sociology the first issue of the new yearbook History of Intellectual Culture HIC dedicates a thematic section to the way knowledge can and arguably must be conceptualized as participatory Introducing and exploring participatory knowledge the volume aims to draw attention to the potential of looking at knowledge formation and circulation through a new lens and to open a dialogue about how and what concepts and theories of participation can contribute to the history of knowledge By asking who gets to participate in defining what counts as knowledge and in deciding whose knowledge is circulated modes of participation enter into the examination of knowledge on various levels and within multiple cultural contexts The articles in this volume attest to the great variety of approaches contexts and interpretations of participatory knowledge from the sociological projects of the Frankfurt School to the Uppsala based Institute for Race Biology from the Argentinian National Folklore Survey to current hashtag activism and Covid 19 archive projects HIC sees knowledge as rooted in social and political structures determined by modes of transfer and produced in collaborative processes The notion of participatory knowledge highlights in a compelling way how knowledge is rooted in cultural practices and social configurations [Psychoanalytic Energy Psychotherapy](#) Phil Mollon,2018-03-26 People like to talk We know that talking to an attentive and thoughtful listener can be helpful in clarifying conscious and unconscious feelings thoughts and motivations But is talk enough The complex physiology of anxiety and traumatic stress reactions is often stubbornly persistent despite therapeutic exploration in both conscious and unconscious areas of the mind In the case of

severe trauma talking can stir up the emotions and associated bodily disturbance without providing any resolution sometimes leaving clients feeling worse The developing field of energy psychology offers an entirely new perspective and gamut of techniques for locating where these traumatic patterns are encoded They are not in the mind but in the energy system at the interface of psyche and soma By addressing these realms concurrently a powerful therapeutic synergy emerges that allows rapid and deep shifts in the patterns of distress that drive the psychosomatic system

**Lacanian Psychotherapy With Children** Catherine Mathelin, 2020-09-08 In a groundbreaking integration of the work of Lacan Winnicott and Tustin Catherine Mathelin reveals how a child's symptoms can be a striking reflection of its parents unresolved conflicts She shows how her patients art much of it reproduced here can communicate both initial anguish and progress in treatment and draws on her experience of working on a neonatal unit to argue compellingly that a child's mental health can be endangered even before birth This is a book hard to put down filled with the most fascinating brief case vignettes of parents and children who live in worlds disconnected from each other hoping for experts to heal their suffering Anni Bergman coauthor of The Psychological Birth of the Human Infant
