Lady Of The Beasts By Morgan Robin:

Lady of the Beasts Robin Morgan, 2015-03-24 Robin Morgan's second collection of poems is a rich tapestry of female experience both literal and mythic Daughter wife mother lover artist and even priestess are all here in shorter lyrics that cluster around four subjects blood ties activism and art love between women and archetypes But Morgan surpasses the political grief and rage she delineated in *Monster* her acclaimed first book of poems especially in the four major metaphysical poems here *The City of God* balancing grace and despair *Easter Island* on the ironies of transcendence in embattled love *The Network of the Imaginary Mother* which became a virtual anthem of the women's movement and *Voices from Six Tapestries* inspired by the famous *Lady and the Unicorn* weavings that hang in the Musée de Cluny in Paris Themes of familial love and hurt mortality survival and transformation inform the poems collected here as the author weaves a wise and powerful self into being *Lady of the Beasts* is Robin Morgan at her most lyrical yet *Gyn/Ecology* Mary Daly, 2016-07-26 This revised edition includes a New Intergalactic Introduction by the Author Mary Daly's New Intergalactic Introduction explores her process as a Crafty Pirate on the Journey of Writing *Gyn Ecology* and reveals the autobiographical context of this Thunderbolt of Rage that she first hurled against the patriarchs in 1979 and no hurls again in the Re Surging Movement of Radical Feminism in the Be Dazzling Nineties *Woman and Nature* Susan Griffin, 2016-08-22 In this famously provocative cornerstone of feminist literature Susan Griffin explores the identification of women with the earth both as sustenance for humanity and as victim of male rage Starting from Plato's fateful division of the world into spirit and matter her analysis of how patriarchal Western philosophy and religion have used language and science to bolster their power over both women and nature is brilliant and persuasive coming alive in poetic prose Griffin draws on an astonishing range of sources from timbering manuals to medical texts to Scripture and classical literature in showing how destructive has been the impulse to disembody the human soul and how the long separated might once more be rejoined Poet Adrienne Rich calls *Woman and Nature* perhaps the most extraordinary nonfiction work to have merged from the matrix of contemporary female consciousness a fusion of patriarchal science ecology female history and feminism written by a poet who has created a new form for her vision The book has the impact of a great film or a fresco yet it is intimately personal touching to the quick of woman's experience *Women as Mythmakers* Estella Lauter, 1984-07-22 impressive work of scholarship Exceptional Human Experience *The Fat Jesus* Lisa Isherwood, 2008 We are living in a food and body image obsessed culture We are encouraged to over consume by the marketing and media that surround us and then berated by those same forces for doing so At the same time we are bombarded with images of unnaturally thin celebrities who go to enormous lengths to retain an unrealistic body image either by extremes of dieting or through plastic surgery or both The spiritual realm is not immune from these pressures as can be seen in the flourishing of biblically and faith based weight loss programs that encourage women to lose weight physically and gain spiritually Isherwood examines this environment in light of Christian tradition

which has often had a difficult relationship with sexuality and embodiment and which has promoted ideals of restraint and asceticism She argues that part of the reason for our current obsession and bizarre treatment of issues around weight size and looks is that secular society has unknowingly absorbed many of its negative attitudes towards the body from its Christian heritage Isherwood argues powerfully that there are resources within Christianity that can free us from this thinking and lead us towards a more holistic incarnational view of what it is to be human The Fat Jesus provides a fascinating study of the complex ways that food women and religion interconnect and proposes a theology of embrace and expansion emphasizing the fullness of our incarnation

Women of Spirit Rosemary Radford Ruether, Eleanor McLaughlin, 1998-04-29 A compilation of essays on the role of women in the institutional and ordained leadership of Western religion The authors discuss religious women as charismatic leaders holy women martyrs dissenters renewers and reformers as well as theological images of the feminine in God the Christ Church relationship and the self The studies are historical and descriptive both from the early church to the present day

Christian Theology in Practice Bonnie J. Miller-McLemore, 2012-02-02 For the past fifty years scholars in both pastoral and practical theology have attempted to recapture human religious experience and practice as essential sites for theological engagement redefining in the process what theology is how it is done and who does it In this book Bonnie J Miller McLemore shows how this trend in scholarship has led to an expanded subject matter alternative ways of knowing and richer terms for analysis in doing Christian theology

Tracing more than two decades of her own search for a more inclusive discipline one that truly grapples with theology in the midst of life Christian *Theology in Practice* shows not only where Miller McLemore herself has traveled in the field but also how pastoral and practical theology has developed during this time Looking forward Miller McLemore calls on the academy and Christian congregations to disrupt conventional theological boundaries and to acknowledge the multiplicity of shapes and places in which the wisdom of God appears

Post-Christian Feminisms Lisa Isherwood, 2016-04-08 This book explores the impact and contribution of post theories in the field of Christian feminist theology Post theory is an important and cutting edge discursive field which has revolutionized the production of knowledge in both feminism and theology This book fills a gap by providing a text that can make authoritative statements on the use and status of post theory in feminist theology and secondly it makes an on going contribution to the discourse of Christian feminist theology and its liberation agenda Distinguished and established scholars contribute conclusive essays on the most recent and exciting developments in post theory feminism and theology

Feminism and Its Fictions Lisa Maria Hogeland, 2016-11-11 During the 1970s thousands of American women met regularly in small groups to talk about the injustices they experienced in their private lives and how those personal injustices related to the broad based political oppression of women They called this cultural work consciousness raising Women s and feminist fiction of the 1970s was dominated by a new kind of novel whose content and form were shaped by the practice of consciousness raising Lisa Maria Hogeland contends that consciousness raising novels both reflected and furthered the Women s Liberation Movement s analyses of sexuality gender race and political responsibility and that through their narrative structure the novels actually engaged in consciousness raising with their readers Using a broad range of fiction including works by Erica Jong Marilyn French Marge Piercy Alix Kates Shulman Alison Lurie Joanna Russ and Joan Didion Hogeland explores the ways in which consciousness raising novels addressed some of the most important questions raised by second wave feminism
