Housing Africa's Urban Poor Philip Amis, Peter Lloyd, 2018-09-03 Originally published in 1990 this book reveals the extent to which petty landlordism is developing not just in the African urban settlements that have sprung up but in government sponsored low cost housing estates The first part of the book traces African governments changing responses to urban growth since the 1960s The second presents case studies of housing markets and landlord tenant relations north and south of the Sahara The third examines World Bank involvement and the book ends by considering policy implications      Toward a New Strategy for Development Albert O. Hirschman, Dudley Seers, Paul Streeten, 2014-05-19 Toward a New Strategy for Development A Rothko Chapel Colloquium is a collection of papers commissioned by the Rothko Chapel and presented at a colloquium held in Houston Texas on February 3 5 1977 The colloquium provided a forum for discussing the need for a new strategy for development with emphasis on needs and programs from the perspectives of the developed countries at the center of the world's economic system and of the developing countries at its periphery and from the standpoint of different disciplines Comprised of 10 chapters this book begins with an introduction to Marxism and its congruence with other neoclassical doctrines such as the Chicago School followed by a discussion on development economics as well as the conditions that gave rise to the rapidly growing interest in development The next chapter traces the origins and history of one major body of Latin American ideas on development since the early 1950s the United Nations Economic Commission for Latin America Subsequent chapters explore internal issues of development within countries with emphasis on urban and

Keivani,David Murphy,2009-01-20 Urban development cooperation needs innovative solutions Despite many efforts international assistance has failed to address the challenges faced by cities in developing countries This book seeks to raise awareness about the value of corporate social responsibility as a tool in urban development assistance Imperialism Bill Warren,2020-05-05 Ever since the First World War socialists have considered imperialism a calamity responsible for militarism economic stagnation and assaults on democracy in metropolitan countries an impediment to economic and cultural development in the Third World So widespread has this view become that it is shared in its essentials not only by Marxists but also by an entire school of liberal development economists Bill Warren breaks with this traditional outlook arguing that the theory of imperialism one of Marxism s most

influential concepts is not only contradicted by the facts but has diluted and distorted Marxism itself In particular Warren disputes the claim that monopoly capitalism represents the ultimate stage of senile capitalism and sets out to refute the notion that imperialism is a regressive force impeding or distorting economic development in the Third World The book argues on the contrary that direct colonialism powerfully impelled social change in Asia and Africa laying the foundation for a vibrant indigenous capitalism Finally it takes issue with the conventional view that postwar economic performance in the Third World has been disastrous presenting a powerful empirical case that the gap between rich and poor countries is actually narrowing Closely argued clearly written original and iconoclastic **Imperialism Pioneer of Capitalism** is a compelling challenge to one of the chief tenets of contemporary socialist politics      **Cities around the World** Jing Luo,2019-07-10 This two volume set offers a comprehensive overview of major challenges faced by cities worldwide in the 21st century and how cities in different geographic economic and political conditions are finding solutions to them This two volume encyclopedia examines ten critical issues that face cities across the globe today environmental and societal struggles that affect the daily lives of city dwellers Readers will gain a better understanding of our global neighbors and will be able to use this book in order to compare and contrast different approaches to critical issues in our world Volume One examines employment and jobs energy and sustainability green spaces housing and infrastructure and migration and demographic changes Volume Two discusses pollution schools traffic and transportation violence corruption and organized crime and waste management Each issue begins with an introduction providing an overview of the issue from a global perspective Following the introduction are ten alphabetically arranged world city profiles of cities that are struggling with the issue and cities that have found innovative solutions to deal with the crisis The profiles explain how the problem came to be consequences inhabitants face such as compromised health limited access to education and high taxes with low wages and failed and successful initiatives taken by city management      **Preliminary Program** American Political Science Association,1979 Issues for the 36th 37th annual meetings 1940 41 include the Annual meeting of the American Society for Public Administration 2d 3d 1940 41
