Hylen,2015-09-11 Scholars and mainline pastors tell a familiar narrative about the roles of women in the early church that women held leadership roles and exercised some authority in the church but with the establishment of formal institutional roles they were excluded from active leadership Evidence of women s leadership is either described as exceptional or relegated to so called heretical groups who differed with proto orthodox groups precisely over the issue of women s participation For example scholars often contrast the Acts of Paul and Thecla ATh with 1Timothy They understand the two works to represent discrete communities with opposite responses to the question of women s leadership In A Modest Apostle Susan Hylen uses Thecla as a microcosm from which to challenge this larger narrative In contrast to previous interpreters Hylen reads 1Timothy and the ATh as texts that emerge out of and share a common cultural framework In the

Roman period women were widely expected to exhibit gendered virtues like modesty industry and loyalty to family However women pursued these virtues in remarkably different ways including active leadership in their communities Reading against a cultural background in which multiple and conflicting norms already existed for women s behavior Hylen shows that texts like the ATh and 1Timothy begin to look different Like the culture 1Timothy affirms women s leadership as deacons and widows while upholding standards of modesty in dress and speech In the ATh Thecla s virtue is first established by her modest behavior which allows her to emerge as a virtuous leader The text presents Thecla as one who fulfills culturally established norms even as she pursues a bold new way of life Hylen s approach points to a new way of understanding women in the early church one that insists upon the acknowledgment of women s leadership as a historical reality without neglecting the effects of the culture s gender biases
