Inside IMSA's Legendary GTP Race Cars J. A. Martin, Michael J. Fuller, Professional automobile racing has always been dominated by sanctioning bodies whose main goal was to ensure competition That has meant seeing that cars are well matched in body shape or chassis engine combinations or engine size But what about an all out competition in which one team's idea of the fastest race car could be pitted against another's regardless of mechanical parity This was what the International Motor Sports Association's IMSA Grand Touring Prototypes GTP race series was about The Series ran from 1981 to 1993 and it was one of the most exhilarating racing experiences of all time This book is the first to profile the amazing machines that resulted from the GTP's flat out competition among different and passionate ideas about what might be the fastest way around a track the V 12 with its better ground effect tunnels but higher center of gravity CG the flat six with its low CG but severely restricted ground effect tunnels and others that employed elaborate wings and air dams Here are the people behind this engineering free for all the culmination of almost a century of automobile racing experience And here are eighteen of the most competitive vehicles they designed Using photography diagrams drawings and first person

Simplicity Marketing Steven M. Cristol, Peter Sealey, 2001-03-11. For more than half a century, marketers have bombarded customers with more and more choices in products and services. What is the result? Unprecedented anxiety. Our mental circuit breakers are on overload. In fact, pioneering brand strategists Steven M. Cristol and Peter Sealey assert that we have reached our manageable threshold for making decisions and a watershed in product proliferation. In this pathbreaking book, the authors argue with compelling evidence that the next generation of marketing successes will belong to those brands that simplify customers' lives or businesses in ways that are inextricably tied to brand and product positioning. They contend that if a brand is not reducing customer stress, it is creating it, and it is vulnerable to losing market share to more customer-empathetic competitors. Writing especially for product or brand managers who are struggling to simplify their portfolios, Cristol and Sealey have created a breakthrough framework that is itself a lesson in simplicity. After presenting two essential guideposts for managers to assess where their brand sits on the stress spectrum, the authors turn to the heart of *Simplicity Marketing*: the 4 R's of simplification: Replace, Repackage, Reposition, and Replenish. Using scores of real-world company examples, Cristol and Sealey show how each of the 4 R's interacts with the others in powerful ways to relieve customer stress and how these strategies may be executed individually or in combination to build brand loyalty. Here, for the first time, are ten specific strategies to relieve customer stress through consolidating, aggregating, or integrating products and services; repositioning brands for more relevance to stress reduction; and decluttering customers' decision-making requirements. The final pages of this brilliant manifesto for a simplicity revolution provide a guide to managing simplicity strategies, leveraging information technology to simplify rather than complicate customers' lives, and integrating all the tools in the book into an executional blueprint.
