**Legitimate Differences** Georgia Warnke, 2023-12-22 *Legitimate Differences* challenges the usual portrayal of current debates over thorny social issues including abortion pornography affirmative action and surrogate mothering as moral debates How can it be said that our debates oppose principles of life to those of liberty principles of liberty to those of equality principles of equality to those of fairness and principles of fairness to those of integrity when we as Americans share all these principles Debates over such issues are not Georgia Warnke argues moral debates over which principles we should adopt Rather they are interpretive debates over the meanings of principles we already possess Warnke traces the structure of these debates with reference to the work of Jane Austen Hans Georg Gadamer Jürgen Habermas and Bernard Williams In separate chapters on surrogate mothering affirmative action abortion and pornography she articulates new understandings of the meanings of some of our principles and shows the equal legitimacy of some different interpretations of the meanings of others Finally she suggests that the orientation of American public policy ought to be directed less at finding single canonical interpretations of our principles than at accommodating different legitimate understandings of them The perspective offered by *Legitimate Differences* should have a significantly beneficial effect on public discussions *Legitimate Differences* challenges the usual portrayal of current debates over thorny social issues including abortion pornography affirmative action and surrogate mothering as moral debates How can it be said that our debates oppose prin

**The Democratic Theory of Hans-Georg Gadamer** Darren Walhof, 2016-11-29 This book examines the distinctive contribution that the writings of Hans Georg Gadamer make to democratic theory Walhof argues that Gadamer's hermeneutical philosophy enlarges our perspective by shifting our view away from individual citizens to what exists between citizens thereby allowing us to envision political realities that are otherwise hard to see These realities include the disclosure of truth in democratic politics achieving common ground in democratic dialogue even amidst significant disagreement and diversity the public and political nature of the religious traditions that make claims on and shape citizens and the solidarities that connect us to each other and enable

democratic action The author argues that bringing these dimensions to awareness enriches our theories of democracy and is particularly crucial in an era of hyper partisanship accelerating inequality and social conflicts involving racial sexual and religious identities

**Visible Identities** Linda Martín Alcoff, 2005-12-22 In the heated debates over identity politics few theorists have looked carefully at the conceptualizations of identity assumed by all sides *Visible Identities* fills this gap Drawing on both philosophical sources as well as theories and empirical studies in the social sciences Mart n Alcoff makes a strong case that identities are not like special interests nor are they doomed to oppositional politics nor do they inevitably lead to conformism essentialism or reductive approaches to judging others Identities are historical formations and their political implications are open to interpretation But identities such as race and gender also have a powerful visual and material aspect that eliminativists and social constructionists often underestimate *Visible Identities* offers a careful analysis of the political and philosophical worries about identity and argues that these worries are neither supported by the empirical data nor grounded in realistic understandings of what identities are Mart n Alcoff develops a more realistic characterization of identity in general through combining phenomenological approaches to embodiment with hermeneutic concepts of the interpretive horizon Besides addressing the general contours of social identity Mart n Alcoff develops an account of the material infrastructure of gendered identity compares and contrasts gender identities with racialized ones and explores the experiential aspects of racial subjectivity for both whites and non whites In several chapters she looks specifically at Latino identity as well including its relationship to concepts of race the specific forms of anti Latino racism and the politics of mestizo or hybrid identity

**Justice as Attunement** Richard Dawson, 2013-08-09 The meaning of an expression resides not in the expression itself but in the experience of a person s engagement with it Meaning will be different not only to different people but also to the same person at different times This book offers a way of attending to these different meanings This way or method is a version of a trans cultural activity that Richard Dawson calls attunement The activity of attunement involves a movement of self adjustment to a language which a person transforms in her or his use of it Consciously performing the activity can enable understanding of the processes by which we constitute ourselves and others when we use a language This directly connects to the topic justice which is concerned with constituting appropriate selves and relations *Justice as Attunement* engages with

a wide range of texts legal literary economic philosophical among others and illuminates many useful and fascinating connections between them There is a sense in which this book transcends disciplinary boundaries for in addition to students and scholars of law literature economics and philosophy it is written to a general reader who is interested in reflecting on and doing justice to their experiences in life

Shrage, 2009-08-18 Is sex identity a feature of one's mind or body and is it a relational or intrinsic property Who is in the best position to know a person's sex do we each have a true sex and is a person's sex an alterable characteristic When a person's sex assignment changes has the old self disappeared and a new one emerged or has only the public presentation of one's self changed You've Changed examines the philosophical questions raised by the phenomenon of sex reassignment and brings together the essays of scholars known for their work in gender sexuality queer and disability studies feminist epistemology and science studies and philosophical accounts of personal identity An interdisciplinary contribution to the emerging field of transgender studies it will be of interest to students and scholars in a number of disciplines

Justice in Young Adult Speculative Fiction Marek C. Oziwicz, 2015-04-17 This book is the first to offer a justice focused cognitive reading of modern YA speculative fiction in its narrative and filmic forms It links the expansion of YA speculative fiction in the 20th century with the emergence of human and civil rights movements with the communitarian revolution in conceptualizations of justice and with spectacular advances in cognitive sciences as applied to the examination of narrative fiction Oziwicz argues that complex ideas such as justice are processed by the human mind as cognitive scripts that scripts when narrated take the form of multiply indexable stories and that YA speculative fiction is currently the largest conceptual testing ground in the forging of justice consciousness for the 21st century world Drawing on recent research in the cognitive and evolutionary sciences Oziwicz explains how poetic retributive restorative environmental social and global types of justice have been represented in narrative fiction from 19th century folk and fairy tales through 21st century fantasy dystopia and science fiction Suggesting that the appeal of these and

other nonmimetic genres is largely predicated on the dream of justice Oziwicz theorizes new justice scripts as conceptual tools essential to help humanity survive the qualitative leap toward an environmentally conscious culturally diversified global world This book is an important contribution to studies of children s and YA speculative fiction adding a new perspective to discussions about the educational as well as social potential of nonmimetic genres It demonstrates that the justice imperative is very much alive in YA speculative fiction creating new visions of justice relevant to contemporary challenges

**Corresponding Sense** Brook W.R. Pearson,2021-10-01 Corresponding Sense represents a turning point in the application of hermeneutics to New Testament texts Following the example of Hans Georg Gadamer s philosophical hermeneutics Pearson treats several different problems in New Testament interpretation centred around the figure of Paul In so doing he demonstrates how a dialogical approach to the interpretation of ancient texts functions pragmatically to allow for a deeper understanding not only of individual texts but also of their siting with the larger dialectical web of the texts and contexts of the ancient world This approach developed here in connection with the New Testament also has relevance to other literature In Corresponding Sense Pearson outlines what he calls a dialectical topography the tracing of connections and disjunctions between texts and their subject matter both within and outside of the New Testament He uses both theoretical and practical discussion to demonstrate this approach showing how it functions as a new way of approaching a Paul who is a member of a much larger community than simply the Judaism of his fathers a Paul who participates in cultural narratives which extend throughout not only earliest Christianity but also into the wider thought world of the Roman Empire

**Gadamer's Repercussions** Bruce Krajewski,2004 Gadamer s Repercussions is a terrific collection of essays While Gadamer is not the most precise of philosophers he turns out in this book at least to be among the most generative The essays prove that Gadamer s idealizing of dialogue can actually be put in practice by careful attention to the frameworks he addresses I was most impressed by the essays that situate his ethics his aesthetics his relation to romanticism his understanding of the relation of law and morality his engagements with Fascism and several aspects of his vexed relationship with postmodern thinking especially on the possibility of dialogue Charles Altieri author of The Particulars of Rapture Gadamer is well known for his insistence that every reading is a new reading and every act of understanding a pathway to new understanding Krajewski s carefully assembled volume applies these maxims to the understanding of Gadamer himself By focusing on his intellectual and political background as well as his long range influence and repercussions the book opens new vistas for assessing one of the philosophical giants of the twentieth century Fred Dallmayr author of Dialogue Among Civilizations

Abortion and Social Responsibility Laurie Shrage,2003-01-16 Shrage argues that Roe v Wade s regulatory scheme of a six month time span for abortion on demand polarized the public and obscured alternatives with potentially broader support She explores the origins of that scheme then defends an alternate one with a time span shorter than 6 months for non therapeutic abortions that could win broad support needed to make legal abortion services available to all

women      **The False Dialectic Between Christians and Atheists** Tom Donovan, 2016 Could it be that atheism and belief in God are both forms of avoidance behavior It's easier to focus on belief than it is to take up a new practice of living Perhaps both are ideological distractions that mystify the nature of reality and what knowledge is What if we admit that we are neither believers nor atheists Does that mean we're nothing Philosophy aims to help us understand the world without appealing to something beyond It's considered to be rooted in the search for eternal truths and when the truth is unclear philosophy is expected to embrace modesty and have a willingness to say I don't know Rejecting the false dialectic of God atheism will help us recognize that the world is our construction and our responsibility so long as we are here Drawing on Georg Lukács and Max Horkheimer the author argues that belief in God and atheism are both ideological distractions They are both forms of immaturity that can only be transcended through action The real good news is that we can do away with belief in the supernatural but it will take more than non-belief it will take philosophical action He takes us on a journey through our philosophical practices to purge ourselves of mystified notions The journey is long but at least the path is strewn with the charm of Socrates Descartes Marx and Sartre In short Prof Donovan says Nothing exists but this world our world Nothing is beyond God and atheism Why not become nothing Make yourself and those who matter proud      Dialectic of Enlightenment as Sport Tom Donovan, 2015-10-01 In their Dialectic of Enlightenment Horkheimer and Adorno set out to explain why humanity instead of entering a truly human state is sinking into a new kind of barbarism Philosophy teacher Tom Donovan PhD UCRiverside offers a fresh reading of that classic text showing that it is first and foremost a critique of the metaphysical urge Describing our world of stupid consumption mindless entertainment and perverted games and relationships he notes these sorts of games have no end game as fantasy spectators never really win and yet they don't see it because they are too busy watching the other lose This is the secret of class society As long as there is someone below you then lack of reconciliation doesn't hurt so badly Citing the Super Bowl Clippers owner Donald Sterling basketball players like LeBron James plus the Kardashians mega churches and comedians like Jon Stewart Donovan gives us a new understanding of our age and how the broken threads that are today's Capitalism religion and sports contribute to unraveling the fabric of Modernity Against readings that claim that Dialectic of Enlightenment is a simple critique of instrumental reason that ultimately undermines rationality itself Dr Donovan argues that the real critique is aimed at the metaphysical urge itself As such rationality itself is not the target of attack nor is the notion of enlightenment Taking Adorno's and Horkheimer's example of the Marquis de Sade the author observes Sade can only find pleasure in domination The fear of the outside has morphed into fear of a reconciled world fear of a world where everyone treats each other as ends in themselves A society like this can tolerate porn but not socialism a society like this won't miss the ice caps but wouldn't miss the Super Bowl a society like this lets civilization sink into barbarism so long as they can watch The Bachelor Stylistically this book attempts to rationally mimic the fragmentary nature of Dialectic of Enlightenment so that through form and content the argument of the

book will emerge dialectically Readers will see that Dialectic of Enlightenment actually offers a positive conception of enlightenment and a philosophical instance of the use of dialectics The book is for readers interested in critiques of capitalism and religion and sports in America as well as Marxism and Critical Theory It will intrigue academics interested in the Frankfurt School and the idea of the Metaphysical Urge      **Women Studies Abstracts** ,2004      **Is There a Single Right Interpretation?** Michael Krausz,2007-08-09 Is there a single right interpretation for such cultural phenomena as works of literature visual artworks works of music the self and legal and sacred texts In these essays almost all written especially for this volume twenty leading philosophers pursue different answers to this question by examining the nature of interpretation and its objects and ideals The fundamental conflict between positions that universally require the ideal of a single admissible interpretation singularism and those that allow a multiplicity of some admissible interpretations multiplism leads to a host of engrossing questions explored in these essays Does multiplism invite interpretive anarchy Can opposing interpretations be jointly defended Should competition between contending interpretations be understood in terms of bivalent truth or multivalent reasonableness appropriateness aptness or the like Is interpretation itself an essentially contested concept Does interpretive activity seek truth or aim at something else as well Should one focus on interpretive acts rather than interpretations Should admissible interpretations be fixed by locating intentions of a historical or hypothetical creator or neither What bearing does the fact of the historical situatedness of cultural entities have on their identities The contributors are Annette Barnes No 1 Carroll Stephen Davies Susan Feagin Alan Goldman Charles Guignon Chhanda Gupta Garry Hagberg Michael Krausz Peter Lamarque Jerrold Levinson Joseph Margolis Rex Martin Jitendra Mohanty David Novitz Philip Percival Torsten Pettersson Robert Stecker Laurent Stern and Paul Thom      **Feminist Interpretations of Hans-Georg Gadamer** Lorraine Code,2010-11-01 Fifteen essays examine the work of German philosopher Hans Georg Gadamer to provide feminist interpretations of his views on science language history literature and other topics
