Comparing autocracies in the early Twenty-first Century Aurel Croissant, Steffen Kailitz, Patrick Koellner, Stefan Wurster, 2015-12-22 Despite the so called Third Wave of Democratization many autocracies have been resilient in the face of political change Moreover many of the transition processes that could be included in the Third Wave have reached a standstill or at the very least have taken a turn for the worse leading sometimes to new forms of non democratic regimes As a result of these developments the research on autocracies has experienced a revival in recent times This unique two volume work aims at taking stock of recent research and providing new conceptual theoretical and empirical insights into autocratic rule in the early twenty first century It is organized into two parts The contributions in this first volume analyse the trajectories manifestations and perspectives of non democratic rule in general and autocratic rule in particular It brings together some of the leading authoritarianism scholars in Europe and North America who address three broad questions How to conceptualize and measure forms of autocratic regimes What determines the persistence of autocratic rule What is the role of political institutions legitimation ideology and repression for the survival of different forms

of autocratic rule This book is an amalgam of articles from the journals Democratization Contemporary Politics and Politische Vierteljahresschrift *Politics, Paradigms, and Intelligence Failures* Ofira Seliktar, 2015-05-20 Washington's failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire's demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels Although it is focused on the Soviet case it offers lessons that are both timely and necessary
