Lenin Vladimir Il'ich Lenin,1927 **Selected Works in Three Volumes** Vladimir Il'ich Lenin,1970 **Collected Works of V. I. Lenin: Materialism and empirio-criticism [2d ed** Vladimir Il'ich Lenin,1927 **The Russian Revolution** Russell Trenton,2015-07-15 This gripping historical narrative relates the circumstances that led to the end of the Romanov Dynasty and the Russian aristocracy the heartrending struggles of the peasants the violence and bloodshed of the revolution and the rise of the new social order and its far reaching consequences that continue to be felt in Russia today In addition to the causes of the Russian revolution and the events that led to civil war the narrative delves into the mindset of the Bolshevik leadership and recounts the profound transformation and industrialization of the economy in the Soviet era **Marxism in Asia** Colin Mackerras,Nick Knight,2015-04-17 Marxism is a theory which originated in the context of nineteenth century industrialised Europe Despite its European origins Marxism has actually found greatest significance as a doctrine for change in the context of the underdeveloped peasant societies of Asia This paradox has only been resolved through adaptation of Marxism to suit the specific features of particular Asian societies There has consequently been a differentiation of Marxism along national lines In this book first published in 1985 the theoretical and practical implications for this national differentiation of a universal European theory are explored followed by a more detailed analysis of the manner in which Marxism has developed during different historical periods in particular Asian contexts **Revolution** David Close,Carl Bridge,2019-11-19 First published in 1985 Revolution has been often defined often abused as a descriptive term for elements of the political process This book analyses the concept of revolution and discusses ways in which this concept has changed from Aristotle to the late twentieth century The historical circumstances which have shaped the idea and caused it to change are outlined Special attention is given to the Marxist tradition and to modernisation theory The case studies comprise the Soviet Union since the Bolshevik Revolution Nazi Germany 1933 45 China from about 1920 the struggle for political independence and economic development in Guinea Bissau since the 1950s and the significance of the 1968 explosion in France This book is intended for undergraduate students of history and politics The emphasis is placed on the interpretation of political events and ideas The book also seeks to introduce the vital contribution that can be made to the study of revolution by other disciplines like sociology and philosophy **V.I. Requiem for Marx Yuri N. Maltsev,1993

Karl Kautsky and the Socialist Revolution 1880-1938 Massimo Salvadori,2016-02-23 This first modern study provides an original and balanced perspective of a theorist whom Lenin referred to as both master of Marxism and renegade Examining Kautsky s political thought over a period stretching from the Paris Commune to the Second World War the author argues for the consistency with which Kautsky developed his positions on socialism democracy political parties and the role of the proletariat While Salvadori s analysis is grounded in the debates within the Communist International and the German labour movement Kautsky emerges as a distinctly modern thinker who produced a Marxist theory of the state and originated critique of the USSR as a state capitalist system At this level it provides a serious and measured exposition of the terms on which arguments for socialist strategy currently move

[The Palgrave Handbook of Leninist Political Philosophy](#) Tom Rockmore,Norman Levine,2018-12-19 This intellectually discomfiting disturbingly provocative yet still thoroughly scholarly Handbook reproduces the intellectual ferment that accompanied the Russian Revolution including the wholly polarising effect at that time of Vladimir Ilyich Lenin The Palgrave Handbook of Leninist Political Philosophy does not settle for one safe interpretation of the thought of this world historic figure but rather revels in a clash of viewpoints Most interestingly it presents a contrast between the Western editors who emphasise pure democracy and Marxian humanism with many of the contributing scholars who take a more sanguine view of the Leninist political project Perhaps reflecting the current Western political crisis some of the volume s other European and North American scholars more closely align with their colleagues from the Global South Key Features Places particular emphasis on the key elements of Lenin s thought the dictatorship of the proletariat which is trenchantly defended the nature of the dialectic and the New Economic Policy Additional comprehensive coverage includes the theory of the party Bolshevism imperialism and the class struggle in the countryside Examines the relation of Lenin s thought to the ideas of his most influential contemporaries including Luxemburg Stalin and Trotsky as well as the most eminent thinker to interpret Lenin since his death Gy rgy Luk cs This Handbook is essential reading for scholars researchers and advanced students in political philosophy political theory the history of political ideas economics international relations and world history It is also ideal for the general reader who wishes to understand some of the most powerful ideas that have shaped the modern world and that may yet shake the world again

Lenin's Final Fight Vladimir Il'ich Lenin,1995 The record of Lenin s last and most concentrated political battle against a growing privileged layer as he sought to set the Communist Party on course to strengthen the alliance of workers and peasants and the voluntary union of soviet Republics

Marx After Marxism Tom Rockmore,2008-04-30 Marx After Marxism encourages readers to understand Karl Marx in new ways unencumbered by political Marxist interpretations that

have long dominated the discussions of both Marxists and non Marxists This volume gives a broad and accessible account of Marx's philosophy and emphasizes his relationship to Hegel *The Fascist Persuasion in Radical Politics* A. James Gregor, 2015-03-08 How valid are the assertions of contemporary radicals who insist that they are Marxists A James Gregor measures the distance that separates today's radicals from the belief system of Marx and Engels He finds that the characteristic qualities of modern mass mobilizing movements bear more impressive similarities to the paradigmatic Fascism of Benito Mussolini than to classical Marxism Thus he offers a new conceptual framework for the analysis of contemporary totalitarian movements and established regimes Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
