From Enmity To Alliance Us Austral:

Australian and US Military Cooperation Christopher Hubbard, 2017-11-30 Australia and the United States have found themselves fighting common enemies on the battlefields of the world for over half a century Australian ground forces have repeatedly stood shoulder to shoulder with American troops in conflicts from Korea and Vietnam to Afghanistan and now in the 2003 Iraq war This study looks closely at the key factors which for over fifty years have shaped interpreted and applied the aims and aspirations of this mutual defence agreement to the real world of shifting threats changing strategic balances and the democratic uncertainties of domestic politics A departure from the current literature the ANZUS alliance now updated to take account of the new post 11 September 2001 realities is presented as an accessible and concise survey of this often neglected but increasingly important trans Pacific link between the American giant and its durable Australian ally Suitable as supplementary reading at the 3rd year undergraduate and postgraduate levels of courses studying international relations generally but also useful for those engaged with elements of global and regional security and strategic defence analysis **Australia goes to Washington** David Lowe, David Lee, Carl Bridge, 2016-12-08 Since 1940 when an Australian legation was established in Washington DC Australian governments have expected much from their representatives in the American capital This book brings together expert analyses of those who have served as heads of mission and of the challenges they have faced Ranging beyond conventional studies of the Australian United States relationship it provides insights into the dynamics between Australian and US policymakers and into the culture of one of Australia's oldest and most important overseas missions It provides an appreciation of the importance of the embassy and the head of mission in Washington in mediating the relationship between Australia and the United States and of their role in managing expectations in Canberra and Washington Australia Goes to Washington also sheds new light on personal trials and achievements at the coalface of Australian United States relations Zones of Amity, Zones of Enmity James Sperling, Yogendra Malik, David Louscher, 2021-11-15 This volume addresses the problem of military and economic cooperation in the Asia Pacific particularly the impact of the end of the Cold War on the evolution of its four regional subsystems Australasia Southern Asia Southeast Asia and Northeast Asia the level of institutionalization in its economic and military dimensions and the tendency towards regional amity or regional enmity It investigates the regional institutions of military and economic security organizing the interstate relations of the Asia Pacific assesses the military and economic ambitions of China Japan and the United States and suggests that the clash of civilizations thesis is of limited use in understanding the dynamics of interstate relations in this centrally important area of the world Contributors are Shigekio N Fukai Haruhiro Fukui Norman A Graham Steven A Hoffmann Jim Rolfe Sheldon Simon James Sperling and Robert M Uriu **The Genesis of a Policy** Honae Cuffe, 2021-11-16 The years 1921-57 marked a period of immense upheaval for Australia as the nation navigated economic crises the threat of aggressive Japanese expansion and shifting power distributions with the world transitioning from British leadership to that of

the US This book offers a reassessment of Australia's foreign policy origins and maturation during these tumultuous years Successive Australian governments carefully observed these global and regional forces The policy that developed in response was an integrated one that is one that sought to balance Australia's particular geopolitical circumstances with great power relationships and in assessing the value of these relationships ensure that the nation's trade security and diplomatic interests were served Amid the economic and strategic uncertainty of the interwar years the Australian government acknowledged the shifting power distributions in the global and Asia Pacific orders and that neither the policies of Britain nor the US completely served the national interest The nation accordingly sought to intervene within the policies of the great powers to ensure its particular interests were secured This geopolitically informed interventionist approach which had its genesis in the 1930s is traced throughout the 1940s and 1950s highlighting Australia's gradual and uneven transition from the British world order to that of the US and the frank assessments made about which relationship best served Australia's interests The Genesis of a Policy identifies a comprehensive and pragmatic approach albeit not always effectively executed in Australian foreign policy tradition that has not been previously examined

John Curtin Lloyd Ross, 2018-07-20 This is an important classic biography of an Australian Prime Minister whose life still exerts an abiding influence on Australian society and national consciousness a key figure in Australian history Curtin was a complex character Warm and sympathetic but cold and aloof a comrade but a loner a rebel and anti conscriptionist but Prime Minister Moody irritable uncertain changeable vacillating temperamental opportunist sentimental courageous all are true of Curtin Lloyd Ross sums up the character of the wartime Labor Prime Minister who fought Churchill to bring back Australian troops from Europe to defend our nation An intense and passionate orator Curtin inspired respect in cynical Australians by his unassuming dignity straightforwardness and refusal of any personal privilege

Australia's Alliance Options Coral Bell, 1991

The Future of the United States-Australia Alliance Scott McDonald, Andrew Tan, 2020-12-15 The United States Australia alliance has been an important component of the US led system of alliances that has underpinned regional security in the Indo Pacific since 1945 However recent geostrategic developments in particular the rise of the People's Republic of China have posed significant challenges to this US led regional order In turn the growing strategic competition between these two great

powers has generated challenges to the longstanding US Australia alliance Both the US and Australia are confronting a changing strategic environment and as a result the alliance needs to respond to the challenges that they face The US needs to understand the challenges and risks to this vital relationship which is growing in importance and take steps to manage it On its part Australia must clearly identify its core common interests with the US and start exploring what more it needs to do to attain its stated policy preferences This book consists of chapters exploring US and Australian perspectives of the Indo Pacific the evolution of Australia US strategic and defence cooperation and the future of the relationship Written by a joint US Australia team the volume is aimed at academics analysts students and the security and business communities

Independent Ally Shannon Tow, 2017-03-20 Will regional powers in the Asia Pacific have to choose between China and the United States In *Independent Ally* Shannon Tow challenges this prevailing view She explores how one key regional power Australia has repeatedly developed a strong relationship with a rising power while simultaneously preserving its alliance with a dominant global power Far from being a dependent ally that simply follows the policies of its great and powerful friends Australia has consistently developed and pursued an independent foreign policy toward those great powers that have played an important role in shaping its destiny It has proactively negotiated the terms of its relationships with those powers in ways that have been mutually complementary and that have supported its strategic interests in regional order The extent to which Australia can do so in future relates directly to the findings and lessons this study provides Drawing on newly released archival material and interviews with prominent former policymakers this book examines how six different Australian Prime Ministers successfully navigated these great power relationships over the last century *The Evolution of Australian Foreign Policy* Alan Watt, 1967 **Australia and the United States** Norman Harper, 1971 **Different Histories,**

Shared Futures Mobo Gao, Justin O'Connor, Baohui Xie, Jack Butcher, 2023-02-13 This book delves into the Australia China relationship which is currently at its worst since 1972 when the two countries first established a diplomatic relationship Australia is seen by the US as its front line ally in its fight in containing China Derived from an international symposium organized by the editorial team and held in Adelaide South Australia in September 2021 these essays are an attempt to offer some understanding and explanations for the deterioration of Sino Australian ties It is also an attempt to explore the ways by which the two countries can reach some common ground for the future Despite our very different pasts can we seek out a shared future together a future that avoids a war hot or cold between a rising power of China and the incumbent US hegemon *Official Year Book of the Commonwealth of Australia No. 53, 1967* , *To the Islands* Paul

Battersby, 2007-08-21 *To the Islands* offers a unique perspective on the evolution of economic social and political interconnections between Australia and its island region spanning two centuries from the early years of British colonization to the present day The book advances the argument that globalizing processes are drawing Australia incrementally closer to modern day South East Asia and the wider Asia Pacific While globalization is a term commonly associated with the twentieth

century world this study traces the history of Australia's regionalisation back to the nineteenth century to the lived experiences of Australian travelers tourists prospectors mining entrepreneurs in the Netherlands Indies Malaya and Siam or Thailand as it is known today To the Islands challenges the orthodox view that Australia's relations with its regional neighbors were insignificant before the outbreak of war in the Pacific in 1941 By the early 1900s Java was a popular tourist destination for Australians while Malaya and Siam were emerging as major Australian foreign investment destinations In placing economic and social interactions ahead of political and security concerns in the analysis of Australia's regional relations the book highlights the role of non state actors and people to people connections in shaping the contours of Australian diplomatic engagement with South East Asia and the South West Pacific To the Islands is an essential book for advanced students and researchers of the history and politics of the Asia Pacific and Australia *Australia as US Client State* E. Paul, 2014-08-19 This book explores Australia's role as a US client state and the subsequent consequences for Australian democracy Examining whether neoliberal and neoconservative interests have hijacked democracy in Australia Paul questions whether further democratisation will advance US economic and military interests **Australia's Foreign Policy** Thomas Bruce Millar, 1968 *From Enmity to Alliance* Raymond A. Esthus, 1965 **Mud Map to AUKUS** Philip Du Rhone, 2021-11-29 How does the 2021 Indo Pacific security arrangement Australia has entered into with the United Kingdom and the United States fit into Australia's historical approach to its defence and foreign affairs policies What experiences in the past have shaped Australia's attitude to defence Have these policies been influenced or even dictated by the public's opinions and beliefs or have they been formulated mainly by politicians diplomats specialists and commentators and imposed on the populace albeit gently or perhaps stealthily This book looks closely at the election campaigns of 1943 1946 and 1949 when the threat of attack and even invasion had been very real and imminent and the security of the country was uppermost in many people's minds at how the political leaders and commentators presented their opinions and ideas on future national defence and foreign policy to a public that may or may not have been interested and at how they argued it out amongst themselves testing the waters feeling their way into a new world order And so how much of Australia's defence and foreign affairs stance is based on its history its geographical position and the political nature of its neighbours leading to the conclusion that it will be that way forever and thereby clearly definable **Cold War Redux Amidst Great Power Rivalry** Victor Teo, 2024-12-17 This book provides an introspective assessment of the conditions that have led to the bifurcated world we live in today Utilizing a traditional Waltzian three images analysis the book examines the conditions that prompted the Quad countries US Japan India and Australia to securitize their relations with their important trading partner China over the past decade 2012 2022 Against a backdrop of rapidly growing disparities and increasingly untenable political economic conditions at home the last decade witnessed the emergence of a populist styled right wing conservative movement on a global scale China's rapid economic ascent coupled with its asymmetrical influence with its trading partners intensified

anxieties as China closed the gap in capabilities with the United States further exacerbating international insecurities. Paradoxically, this situation has arisen due to China's remarkable success in becoming a de facto rather than de jure member of the San Francisco system in the second half of the Cold War through a very successful adaptation of capitalist reforms. The adjustments brought about by the Quad countries are in reality realpolitik manoeuvres dressed in Cold War rhetoric in a collective effort to isolate China and diminish its influence within the San Francisco system and the wider region. Unless the Quad countries can recalibrate their relations and adapt to a significantly more influential China, the region's insecurities are likely to intensify as the conditions fueling nationalisms persist and globalization becomes increasingly bifurcated, leading to a possible collapse of the San Francisco system itself. This book takes a no holds barred approach in challenging conventional wisdoms and policy centric narratives and puts forth a forwarding looking argument that community building, development and peace should remain the dominant goals for all regional countries going forward. Australia & America, 1788-1972 L. G. Churchward, 1979
