Benson P. Fraser,2020-07-21 As bearers of the divine image all of us are storytellers and artists However few people today believe in truth that is not empirically knowable or verifiable the sort of truth often trafficked through direct forms of communication Drawing on the works of Soren Kierkegaard Benson P Fraser challenges this penchant for direct forms of knowledge by introducing the indirect approach which he argues conveys more than mere knowledge but the capability to live out what one takes to be true Dr Fraser suggests that stories aimed at the heart are powerful instruments for personal and social change because they are not focused directly on the individual listener rather they give the individual room or distance to reconsider old meanings or ways of understanding Indirect communication fosters human transformation by awaking an individual to attend to images or words that carry deep symbolic force and that modify or replace one s present ways of knowing and ultimately make one capable of embodying what he or she believes Through an examination of the indirect approach in Kierkegaard Jesus C S Lewis and Flannery O Connor Fraser makes a strong case for the recovery of indirect strategies for communicating truth in our time The Mega-fun Multiplication Facts Activity Book Marcia

Racial Oppression in the Global Metropolis Paul L. Street,2007-07-19 Anti black racism is a stark presence in Chicago a fact illustrated by significant racial inequality in and around contemporary global city Drawing his work as a civil rights advocate and investigator in Chicago Street explains this neo liberal apartheid and its resulting disparity in terms of persistently and deeply racist societal and institutional practices and policies Racial Oppression in the Black Metropolis uses the highly relevant historical and sociological laboratory that is Chicago in order to explain the racist societal and institutional practices and policies which still typify the United States _ Street challenges dominant neoconservative explanations of the black urban crisis that emphasize personal irresponsibility and cultural failure Looking to the other side of the ideological isle he criticizes liberal and social democratic approaches that elevate class over race and challenges many observers sharp distinction between present and so called past racism In questioning the supposedly inevitable reign of urban neoliberalism Street also investigates the real racial politics of the United States and finds that parties and ideologies matter little on matters of race This innovative work in urban history and cultural criticism will inform contemporary social science and policy debates for years to come **The Philosophy of the Teachings of Islam** Hazrat Mirza Ghulam

Ahmad, 1996 Originally written for the Conference of Great Religions held at Lahore on December 26-29, 1896, the Philosophy of the Teachings of Islam has since served as an introduction to Islam for seekers after the truth and religious knowledge in different parts of the world. The present issue includes several lost pages not included in the essay that was read out at Lahore. It deals with the following five broad themes set by the moderators of the Conference: 1. The physical, moral, and spiritual states of man; 2. The state of man after death; 3. The object of man's life and the means to its attainment; 4. The operation of the practical ordinances of the Law in this life; and the next; 5. Sources of Divine knowledge. Publisher's description.
