Canada Among Nations, 2007 Jean Daudelin,Daniel Schwanen,2008 Canada s thirty four million people and trillion dollar GDP don t occupy much space on a planet of seven billion whose economy is now worth forty trillion dollars The country is not a lightweight yet but certainly its position as a power is shrinking What does that mean for the country s foreign policy and its various players What room is left and for whom In Canada Among Nations 2007 a team of specialists explores the space that Canada currently occupies in the global policy landscape and considers the bureaucratic players who manage this occupation Looking at trade the environment development defence intellectual property rights and the biggest file of all the United States they examine the various games involved from the relationship of the Prime Minister s Office with the foreign policy apparatus to the constraints imposed by Alberta s and Quebec s particular interests and takes on foreign policy Contributors draw a subtle portrait there are huge barriers clearly but most can be transcended and even leveraged Much policy space remains and with proper action much more can be carved out

Common Law and Modern Society Mary Arden,2015-12-17 Law is a lasting social institution but it must also be open to change How is law made and what prompts change How can society influence the law and how does the law respond to societal change The first volume of Shaping Tomorrow s Law examined human rights and European law In this second

volume Mary Arden turns her attention to domestic law providing a judge's viewpoint on the roles of society government and the judiciary in the transformation and reform of the law The first section of Common Law and Modern Society explains what we mean by judge made law and shows how the law responds to the needs of a changing society Adaptation may be in response to shifting values or in response to constitutional change This is demonstrated in chapters on assisted reproduction and assisted dying both modern concerns and a far older example that of the law on water which has been evolving over the centuries in response to society's changing demands The law also needs to reflect constitutional change as in the case of Welsh devolution The second section of the book looks at the necessary simplification of the law and systematic legal reform These tasks lie at the heart of the work of the Law Commission which celebrated its 50th anniversary in 2015 Drawing on her own experience as former Chairman of the Law Commission Mary Arden argues that statute law can be made simpler by codification and that the success of codification may vary depending on the field of law The final section looks ahead to tomorrow's judiciary The accountability of judges is a continuing area of discussion and this includes ensuring that the reasoning behind their decisions is understood by the relevant people Mary Arden goes on to argue that the vision for the judiciary today and tomorrow should be one of greater diversity in the widest sense This will help to ensure not only greater fairness and wider opportunity but also better decision making The book concludes with advice and encouragement for future legal professionals

The Intimacy of Power: An insight into private office, Whitehall's most sensitive network Alun Evans, 2024-05-28 Have you ever wondered what happens behind the scenes in the corridors of power during a major crisis or after a ministerial reshuffle How do new government ministers get to grips with their portfolios and priorities Who guides and supports them And why sometimes during events such as Partygate do things go wrong In this meticulously researched book former senior civil servant Alun Evans lifts the lid on a vital but little known cog in the machinery of government private office and the private secretaries who work within it Private secretaries exercise huge influence and yet most of us have never heard of them They are the ones who manage the flow of work who whisper quietly in ministers ears and who have been Prime Ministers closest most trusted and most discreet confidants At critical moments in our national history from the Falklands War to the Westland affair from Black Wednesday to the 2008 financial crash from New Labour to the coalition government they have been central but hidden players With exceptional access to former Prime Ministers and decision makers Evans explores what private office is and why it matters to British democracy He argues that following the egregious constitutional breaches of Boris Johnson's premiership private office must once again be taken seriously so it can return to being the independent junction box of government and a vital part of the British constitution

NICE Paul Atkinson, Sally Sheard, 2025-03-31 It may seem as if the National Institute of Health and Care Excellence NICE has always been part of the UK's health and social care landscape But this fascinating book charts the evolution of NICE from its origins 25 years ago as well as how this development illustrates many of the key themes effecting health care today In a period of rapid medical and

technological advance NICE has been both a gatekeeper to ensure that health care resources are spent where they are needed most and a promoter of patient access to the best new technologies Through a detailed history the authors show how NICE s remit grew from health care to public health to social care advancing the use of evidence based policy making and health economics as it did so Playing a key role in ethical debates which often made the news NICE also re aligned the relationship between patients politicians and the pharmaceutical industry Written by two of the leading scholars in the field this fascinating history also situates NICE in an international context where it is often seen as a model to follow It will be key reading for students and researchers in the fields of health and social care and health policy as well as professionals and interested general readers The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license [Audio Culture](#) Christoph Cox, Daniel Warner, 2004-09-01 Contributions Brian Eno John Cage Jacques Attali Umberto Eco Christian Marclay Simon Reynolds Pierre Schaeffer Marshall McLuhan Derek Bailey Pauline Oliveros Tony Conrad David Toop etc [Power Control Circuits Manual](#) R.
