Hierarchy In The Forest:

Hierarchy in the Forest Christopher Boehm, 2001-11-02 The political flexibility of our species is formidable we can be quite egalitarian we can be quite despotic This book traces the roots of these contradictory traits in chimpanzee bonobo gorilla and early human societies Boehm postulates that egalitarianism is in effect a hierarchy in which the weak combine forces to dominate the strong *Hierarchy in the Forest* Christopher Boehm, 1999 Printbegr nsniger Der kan printes 10 sider ad gangen og max 40 sider pr session **Handbook of Ecological and Ecosystem Engineering** Majeti Narasimha Vara Prasad, 2021-05-25 Learn from this integrated approach to the management and restoration of ecosystems edited by an international leader in the field The Handbook of Ecological and Ecosystem Engineering delivers a comprehensive overview of the latest research and practical developments in the rapidly evolving fields of ecological and ecosystem engineering Beginning with an introduction to the theory and practice of ecological engineering and ecosystem services the book addresses a wide variety of issues central to the restoration and remediation of ecological environments The book contains fulsome analyses of the restoration rehabilitation conservation sustainability reconstruction remediation and reclamation of ecosystems using ecological engineering techniques Case studies are used to highlight practical applications of the theory discussed within The material in the Handbook of Ecological and Ecosystem Engineering is particularly relevant at a time when the human population is dramatically rising and the exploitation of natural resources is putting increasing pressure on planetary ecosystems The book demonstrates how modern scientific ecology can contribute to the greening of the environment through the inclusion of concrete examples of successful applied management The book also includes A thorough discussion of ecological engineering and ecosystem services theory and practice An exploration of ecological and ecosystem engineering economic and environmental revitalization An examination of the role of soil meso and macrofauna indicators for restoration assessment success in a rehabilitated mine site A treatment of the mitigation of urban environmental issues by applying ecological and ecosystem engineering A discussion of soil fertility restoration theory and practice Perfect for academic researchers industry scientists and environmental engineers working in the fields of ecological engineering environmental science and biotechnology the Handbook of Ecological and Ecosystem Engineering also belongs on the bookshelves of environmental regulators and consultants policy makers and employees of non governmental organizations working on sustainable development **Constitution** Fábio Portela Lopes de Almeida, 2020-09-30 Der Band diskutiert die Rolle und Wichtigkeit von Verfassungen in modernen Gesellschaften Aus interdisziplinärer Perspektive wird aufgezeigt wie sich Verfassungen trotz großer Vielfalt innerhalb der Gesellschaft entwickeln konnten und wie sie dabei helfen ein gemeinsames Moralsystem zu schaffen Der Mensch ist die einzige Spezies die in großen Gemeinschaften leben kann obwohl ihre Mitglieder genetisch unabhängige Individuen sind Diese Vielfalt macht die Rolle von Verfassungen besonders komplex Die Arbeit beleuchtet wie der Konstitutionalismus zur Etablierung eines einheitlichen Moralsystems beiträgt **A**

New Social Question Casey Harison, 2015-11-25 A New Social Question Capitalism Socialism and Utopia brings together a selection of papers presented at the conference on Capitalism and Socialism Utopia Globalization and Revolution at New Harmony Indiana in 2014 New Harmony is best known as the site of industrialist Robert Owen's experiment in communal living in 1825 and it was Owen's legacy that drew scholars from across the Atlantic Owen's work and his experiment at New Harmony again have currency as the world looks back on the 2008 economic crisis and as socialism seemingly banished with the failure of experiments in Eastern Europe and the former Soviet Union at the end of the last century has returned to the political and economic lexicon As David Harvey Thomas Piketty and Joyce Appleby have lately reminded us capitalism particularly the forms it has assumed since 1945 is probably exceptional perhaps ephemeral but also dynamic and resilient If the Great Recession has derailed personal lives destabilized economies and unnerved politicians it has also reminded us that we have not reached the end of history Where there was once a Social Question there is now a New Social Question This edited multi disciplinary volume will appeal to readers in political science economics history sociology anthropology literature communications and cultural studies and to academic audiences in North America Britain and elsewhere

The Open Society and Its Complexities Gerald F. Gaus, 2021 The Open Society is a society of free individuals cooperating while pursuing diverse ways of living The Open Society and Its Complexities marshals formal models and empirical evidence to show that our open society is grounded on the moral foundations of human cooperation originating in our distant evolutionary past but has built upon these foundation a complex society that requires us to rethink both the nature of moral justification and the meaning of democratic self governance

Foundation Papers in Landscape Ecology John A. Wiens, 2007 The editors begin with articles that illuminate the discipline's diverse scientific foundations such as L

Compatible Forest Management Robert A. Monserud, Richard W. Haynes, Adelaide C. Johnson, 2013-04-17 Public debate has stimulated interest in finding greater compatibility among forest management regimes The debate has often portrayed management choices as tradeoffs between biophysical and socioeconomic components of ecosystems Here we focus on specific management strategies and emphasize broad goals such as biodiversity wood production and habitat conservation while maintaining other values from forestlands desired by the public We examine the following proposition Commodity production timber nontimber forest products and the other forest values biodiversity fish and wildlife habitat can be simultaneously produced from the same area in a socially acceptable manner Based on recent research in the Pacific Northwest we show there are alternatives for managing forest ecosystems that avoid the divisive arena of either or choices Much of the work discussed in this book addresses two aspects of the compatibility issue First how are various forest management practices related to an array of associated goods and services Second how do different approaches to forest management affect relatively large and complex ecosystems

Topic Modeling Yanghui Rao, Qing Li, 2025-08-22 As a well known text mining tool topic modeling can effectively discover the latent semantic structure of text data Extracting topics from documents is also one of the fundamental challenges in natural language processing Although topic models have seen significant achievements over the past three decades there remains a scarcity of methods that effectively model temporal aspect Moreover many contemporary topic models continue to grapple with the issue of noise contamination particularly in social media data This book presents several approaches designed to address these two limitations Initially traditional lifelong topic models aim to accumulate knowledge learned from experience for future task However the sequence of topics extracted by these methods may shift over time leading to semantic misalignment between the topic representations across document streams Such misalignment can degrade the performances of various downstream tasks including online document classification and dynamic information retrieval at the topic level Additionally the challenge of coherent topic modeling is particularly relevant due to the noise and large scale of social media datasets Messages on social media platforms often consists of only a few words resulting in a lack of significant context Models applied directly to this type of text frequently encounter the problem of feature sparsity which can yield unsatisfactory outcomes In the context of emotion detection public emotions are known to fluctuate across different topics and topics can evoke public emotion Thus there is a strong interconnection between topic discovery and emotion detection Jointly modeling topics and emotions is a suitable strategy for these tasks This book also examines the impact of topics on emotion detection and other related areas

Sustainable Forest Management Klaus von Gadow, Timo Pukkala, Margarida Tomé, 2012-12-06 During its 200 year history the concept of sustainable forest ecosystem management has been the object of scientific and political discussion with varying degrees of intensity promoted with vehement fervour during periods of social or economic crisis and less intensely during periods of stability This volume which forms part of the book series Managing Forest Ecosystems presents state of the art contributions presented by 9 leading authors from North America Europe Australia and Southern Africa If technical knowledge is a constraint to the implementation of sustainable management this book contains a wealth of information which may be useful to students and practitioners alike The specific target readership includes company management the legal and policy environment and forestry administrators This book s unique feature is its holistic approach which includes ecological socio political and timber supply issues
