High Tech High Touch Technology And Our Search For Meaning:

HIGH TECH - HIGH TOUCH , **High Tech, High Touch** John Naisbitt, Nana Naisbitt, Douglas Philips, 1999 *High Tech/High Touch* John Naisbitt, 2000-10-01 Now in paperback from the author of the 1 NYT bestseller *Megatrends* an important examination of the convergence of technology and culture and the implications for our society as we approach a new millennium

High Tech/high Touch John Naisbitt, Nana Naisbitt, Douglas Philips, 1999 From John Naisbitt the preeminent social forecaster of our time and the author of the 1 New York Times bestseller *Megatrends* a remarkable examination of the role technology plays in our accelerated search for meaning With American culture now being increasingly broadcast through technology from TV and movies to music to the Internet and electronic games we are living in what John Naisbitt calls the Technologically Intoxicated Zone This zone is a confusing and distracted state where we both fear and worship technology where we see technologies as toys and quick fixes and where we become obsessed with what is real and what is fake from the violent games children play to genetically engineered animals to whether one can claim to have scaled Everest if supplemental oxygen was used It is technology s saturation of American society with its fabulous innovations and its devastating consequences that John Naisbitt and his coauthors Nana Naisbitt and Douglas Philips explore in this important and timely book By conciously examining our relationship with technology as consumers of products media and emerging genetic technologies we can learn to become aware of the impact technology will have on our daily lives our children our religiosity our arts and our humanness *High Tech High Touch* is a cautionary tale that shows us how to make the most of technology s benefits while minimizing its detrimental effects on our culture In a compelling tour of our technological immersion as we work and play and search for a spiritual path Naisbitt tackles complex questions Does technology free us from constraints of the physical world or does it tie us down to our machines Does it save us time in our day to day lives or does it merely create a void we feel compelled to fill with even more tasks and responsibilities What about advances in biotechnology Recent developments in genetic engineering now raise the possibility of a future that will someday be free of the birth defects disabilities and diseases that mark our lives today But in an age where such things are possible what is natural and what is artificial And when people can be created in the laboratory as easily as in the womb what then does it truly mean to be human Moving from the information and machine technologies of computers the Internet and telecommunications to the genetic technologies that are transforming biological science and art *High Tech High Touch* reveals the emerging power we have over our destinies and the need for a moral compass to guide us An ideal book to usher in a century in which these issues will become even more timely *High Tech High Touch* deftly explores the world we are creating and the world that is to come

The Nature Principle Richard Louv, 2012-04-24 For many of us thinking about the future conjures up images of Cormac McCarthy s *The Road* a post apocalyptic dystopia stripped of nature Richard Louv author of the landmark bestseller *Last Child in the Woods* urges us to change our vision of the future suggesting that if we

reconceive environmentalism and sustainability they will evolve into a larger movement that will touch every part of society This New Nature Movement taps into the restorative powers of the natural world to boost mental acuity and creativity promote health and wellness build smarter and more sustainable businesses communities and economies and ultimately strengthen human bonds Supported by groundbreaking research anecdotal evidence and compelling personal stories Louv offers renewed optimism while challenging us to rethink the way we live
