High Tech Conception:

Pregnancy in a High-tech Age Robin Gregg, 1995-04 Too often in the debate over reproductive rights and technologies we lose sight of the fundamental emotional and psychological issues that define the experience of pregnancy Robin Gregg here draws on the words and stories of over thirty women to provide a first hand perspective on pregnancy in the modern age In an age where a new advance in reproductive technology occurs seemingly every month pregnancy has come to be defined by such medical procedures as prenatal screening amniocentesis fetal monitoring induced labor and cesarean sections Public policymakers ethicists religious figures and the medical establishment control the debate drowning out the voices of women who grapple in the most immediate sense with the issues Even feminist theorists often overlook the nuances and paradoxes of the reproductive revolution as experienced by individual particular women The reader follows these thirty women as they speak about whether to become pregnant and by what means how to choose a health provider what meaning they attribute to their pregnancies and how they navigate their way through the contradictory pressures they face during pregnancy The intimate nature of Gregg s research consisting as it does largely of women s pregnancy narratives lends her book a vibrancy often lacking in academic writing about reproduction

Woliver,2010-10-01 A searing study of how modern reproductive politics shapes women s bodily agency Pregnancy indisputably takes place within a woman s body But as reproductive power finds its way into the hands of medical professionals lobbyists and policymakers the geographies of pregnancy are shifting and the boundaries need to be redrawn argues Laura R Woliver The Political Geographies of Pregnancy is a vigorous analysis of the ways modern reproductive politics are shaped by long standing debates on abortion and adoption surrogacy arrangements new reproductive technologies medical surveillance and the mapping of the human genome Across a politically charged backdrop of reproductive issues Woliver exposes strategies that claim to uphold the best interests of children families and women but in reality complicate women s struggles to have control over their own bodies Utilizing feminist standpoint theory and promoting a feminist ethic of care Woliver looks at abortion politics modern adoption laws that cater to male headed families regulations that allow the state to monitor pregnant women but not always provide care for them and the power structures behind the seemingly benign world of egg selling and surrogate parenting She also considers the potentially staggering political implications of mapping the human genome and the exclusion of women s perspectives in discussions about legislation and advancements in reproductive technologies Nascent Entrepreneurship and Successful New Venture Creation Carrizo Moreira, António,Guilherme Leitão Dantas, José,Manuel Valente, Fernando,2017-08-10 Entrepreneurship is

Who's Fit to be a Parent? Mukti Jain, 2005-06-29. In recent years, the notion of parenting and parenthood have increasingly come under examination from the media and professionals, and in particular government and politicians. More and more parents are being held to account by society for their failure to deliver the sort of citizens it wants. But what are parents supposed to be doing? Are there some people that are inherently unfit to be parents, and does there exist a body of knowledge that defines fit parenting? *Who's Fit to be a Parent* covers this highly topical and important subject in a stimulating and accessible way that cuts across numerous professional disciplines and opens up the boundaries between professional and personal expertise on parenting. It is essential reading for any professional or student of social work and social policy, those working in the voluntary services concerned with the family, social policy makers, and for anyone interested in understanding what it means to be a parent today.

Conceptions Aditya Bharadwaj, 2016-08-01. Infertility and assisted reproductive technologies in India lie at the confluence of multiple cultural conceptions. These conceptions are key to understanding the burgeoning spread of assisted reproductive technologies and the social implications of infertility and childlessness in India. This longitudinal study is situated in a number of diverse locales which, when taken together, unravel the complex nature of infertility and assisted conception in contemporary India.

Mommies, Daddies, Donors, Surrogates Diane Ehrensaft, 2011-06-28. If you need help having a baby, reproductive technology can supply the answer. But it also raises a host of questions that won't arise until after the child is born. What will you say to "Where did I come from" when the answer includes a donor or surrogate? Will knowing the truth about how you conceived make your child love you less? Will having a baby with someone else strain your relationship with your spouse or partner? What will grandparents, family members, friends, and coworkers think? Dr. Diane Ehrensaft, a developmental and clinical psychologist who's worked with families formed using assisted reproductive technology for more than 20 years, helps you anticipate the big questions and find solutions that are right for you and your loved ones. Dr. Ehrensaft offers information, support, and straightforward advice for coping with private worries, confronting public prejudices, and raising happy, healthy children. Single or married, straight or gay, anyone looking forward to the joys and challenges of building a family with the help of a donor or surrogate will discover a wealth of thought-provoking ideas and fresh insights in this sensitive, practical, and positive book.

Infertility Around the Globe Marcia Claire Inhorn, Frank van Balen, 2002-05-30. These essays examine

the global impact of infertility as a major reproductive health issue one that has profoundly affected the lives of countless women and men The contributors address a range of topics including how the deeply gendered nature of infertility sets the blame on women s shoulders Fertility Foods Jeremy Groll,Lorie Groll,2007-11-01 Dr Jeremy Groll is an expert in reproductive endocrinology and fertility treatment Fertility Foods presents his groundbreaking noninvasive nutritionally based method which increases ovulation reduces miscarriage and significantly improves your chances of successfully getting and staying pregnant Dr Groll s specialized research has proven that there is a powerful link between a body s insulin resistance and fertility problems Resistance to insulin increases the body s insulin levels hindering normal ovulation either by limiting the maturation process of the released egg or by preventing ovulation altogether High insulin levels can also impede the fertilized egg s ability to attach to the uterus leading to implantation failure and miscarriage In fact women with insulin resistance problems are four to five times as likely as other women to suffer miscarriages meaning they have as high as a 50 percent chance of miscarriage Dr Groll has developed an insulin reducing diet based on balancing protein and complex carbohydrate intake to create insulin levels most conducive to ovulation He combines his nutritional plan which includes nutritional charts food suggestions and recipes with a specific exercise program that enhances insulin metabolism and an emotional support system that you can draw on during your quest to become parents This three pronged approach increases the rates of spontaneous ovulation and significantly improves the uterine environment decreasing the potential for miscarriage One in every ten couples in America is affected by infertility Yet only 5 to 10 percent of patients actually need high tech procedures such as in vitro fertilization Whether you are taking your first steps in combating infertility or searching for effective methods to support more advanced fertility treatments Fertility Foods is your helpful and rewarding guide

With Child in Mind Margarete Sandelowski,2016-11-11 Sandelowski retells the stories of couples who want to have children but cannot In their own words the couples candidly discuss what it means to be infertile and how infertility ultimately affects their views of themselves their values their children and their interactions with others Information from more than 500 intensive interviews with women and couples forms the core of With Child in Mind *The Collapse of Global Liberalism* Philip Pilkington,2025-06-03 In the 1990s a vision emerged of a frictionless world of globalization in which the West would become ever richer on the basis of a tech based service economy all underpinned by a rules based liberal international order It became the basis for the mainstream politics of centre left and right Philip Pilkington argues that this vision was always delusional and is now dying It is based on a doctrinaire and unrealistic form of liberalism and has given rise to hollowed out financialised economies and disintegrating societies that can barely even reproduce their population or meet their energy needs The US and UK find themselves ill equipped to compete with China and other non liberal states within an emerging post liberal order in which what really matters is industrial capacity realpolitik and military strength Only by abandoning our liberal delusions and advancing our own brand of hard headed post liberalism can the West survive No

clear sighted observer of contemporary geopolitics can afford to miss this bracing diagnosis of the West's malaise and bold agenda for renewal
