Highland Bagpipe:

The Highland Bagpipe Dr Joshua Dickson, 2013-02-28 The Highland bagpipe widely considered Scotland's national instrument is one of the most recognized icons of traditional music in the world. It is also among the least understood. But Scottish bagpipe music and tradition, particularly but not exclusively the Highland bagpipe, has enjoyed an unprecedented surge in public visibility and scholarly attention since the 1990s. A greater interest in the *emic* led to a diverse picture of the meaning and musical iconicism of the bagpipe in communities in Scotland and throughout the Scottish diaspora. This interest has led to the consideration of both the globalization of Highland piping and piping as rooted in local culture. It has given rise to a reappraisal of sources which have hitherto formed the backbone of long-standing historical and performative assumptions. And revivalist research which reassesses Highland piping's cultural position relative to other Scottish piping traditions such as that of the Lowlands and Borders today effectively challenges the notion of the Highland bagpipe as Scotland's national instrument. **The Highland Bagpipe** provides an unprecedented insight into the current state of Scottish piping studies. The contributors from Scotland, England, Canada, and the United States discuss the bagpipe in oral and written history, anthropology, ethnography, musicology, material culture, and modal aesthetics. The book will appeal to ethnomusicologists, anthropologists, as well as those interested in international bagpipe studies and traditions.

The Highland Bagpipe: Its History, Literature, and Music With Some Account of The Traditions, Superstitions, And Anecdotes Relating to The Instrument And Its Tunes W. L. Manson, 2025-07-02 **The Highland Bagpipe: Its History, Literature, and Music** by W. L. Manson is a richly detailed and passionately written exploration of one of the world's most iconic musical instruments, the Scottish Highland bagpipe. This book provides a comprehensive and deeply cultural history of the bagpipe, tracing its evolution not only as a musical instrument but also as a symbol of Scottish identity, tradition, and spirit. Manson begins with the early roles of harpers, bards, and pipers, leading into a historical narrative that covers centuries of folklore, warfare, and ritual. Chapters discuss the construction of the instrument, the unique tonal language of the pipes, and the piper's role in Scottish society, both in war and peace. The work explores the literature and oral traditions surrounding the bagpipe, from battlefield heroics to supernatural legends, including stories of pipers in enchanted caves, pipers and fairies, and demonic music. Manson's coverage of regimental pipers, hereditary piping families, and world-famous pibrochs adds richness and historical depth, while his blend of humour, anecdotes, and folklore make this a compelling read for historians, musicians, folklorists, and cultural enthusiasts. This book stands as one of the most authoritative and colorful accounts of the Highland bagpipe ever written.

The Highland Bagpipe Joshua Dickson, 2009 The Highland bagpipe, widely considered Scotland's national instrument, is one of the most recognized icons of traditional music in the world. It is also among the least understood. However, since the bagpipe's unprecedented surge in public visibility and scholarly attention since the 1990s, a greater interest in the *emic* has led the

consideration of both the globalization of Highland piping and piping as rooted in local culture The contributors of this collection discuss the bagpipe in oral and written history anthropology ethnography musicology material culture and modal aesthetics The book will appeal to ethnomusicologists anthropologists as well as those interested in international bagpipe studies and traditions

The Highland Bagpipe Tutor Book The National Piping Centre, 2018 FOREWORD By Seumas MacNeill and Thomas Pearston The aim of those responsible for the publication of this book has been to present a number of simplified explanations in carefully chosen steps so that anyone may easily become a competent performer on Scotland's national instrument Piping learned properly is relatively quite easy The correct way to do finger movements is the simplest for obviously only that way can the fast reels and jigs be physically possible Only those who are taught badly or not taught at all find difficulty in learning the pipes And yet with all of its simplicity the bagpipe is capable of the highest musical expression being the vehicle of a classical music Ceol Mor which is the equal of anything in the world of music The physical effort involved has also been greatly exaggerated Many young boys and girls play without difficulty the Great Highland Pipe and although the effort to learn may be considerable the instrument should always be comfortable to play The movements and tunes in this book have been described in great detail partly because of the importance of building a firm foundation and also that it will be possible for anyone to follow easily each step even if someone is unable to obtain any other help Teachers of piping will find that they can save themselves a lot of what is sometimes tedious explanation especially in the teaching of staff notation while those in charge of juvenile bands can change what is usually a rushed job into one of competent easy achievement This tutor book is the result of the experiences of the Senior Instructors of the College of Piping combining many years of personal teaching experiences and ideas Some teachers may find that they might not agree with absolutely every detail in the work but they may rest assured that most alternatives have been carefully considered

Further note By Colin R MacLellan After its first publication in 1953 the College of Piping's Tutor 1 has easily become the most successful instructional book for the Highland Bagpipe with sales now approaching the half million mark Since the Green Tutor first appeared there have been advancements in teaching techniques and digital technology as well as the creation of other piping institutions and educational establishments Seumas MacNeill in the 1970s along with John MacFadyen and John MacLellan created the Institute of Piping which was instrumentally responsible for the

establishment of a system of piping examinations leading to the first appointments of full time salaried teachers of piping in Scotland's educational system. In turn the Institute developed into what is now the Piping and Drumming Qualifications Board PDQB an organisation which comprises the five main educational establishments in Scotland and whose educational qualifications are now fully accredited by the Scottish Qualifications Authority. In 2017 the Green Tutor was edited keeping faithfully to its original flow and integrity in order to bring it into line with these PDQB SQA guidelines. Students will now have fully explained lessons which will track the PDQB SQA standards and examinations. It is of great advantage to pipers both in Scotland and other countries to gain the academic currency which comes along with these qualifications. Detailed information and syllabi are contained in an appendix at the end of the book. The tutor also incorporates passages of video examples and instruction for all 27 lessons. These are available for use free of charge on The National Piping Centre website www.thepipingcentre.co.uk/learn/tutorbooks
