Cohen, 19?? **Heaven's Gate** Benjamin E Zeller, Robert W Balch, 2014-10-31 The captivating story of the religious group focused on transcending humanity and the Earth and seeking salvation in the literal heavens on board a UFO 2015 Best Book Award from the Communal Studies Association In March 1997 thirty nine people in Rancho Santa Fe California ritually terminated their lives To outsiders it was a mass suicide To insiders it was a graduation This act was the culmination of over two decades of spiritual and social development for the members of Heaven's Gate In this fascinating overview Benjamin Zeller not only explores the question of why the members of Heaven's Gate committed ritual suicides but interrogates the origin and evolution of the religion its appeal and its practices By tracking the development of the history social structure and worldview of Heaven's Gate Zeller draws out the ways in which the movement was both a reflection and a microcosm of larger American culture The group emerged out of engagement with Evangelical Christianity the New Age movement science fiction and UFOs and conspiracy theories and it evolved in response to the religious quests of baby boomers new religions of the counterculture and the narcissistic pessimism of the 1990s Thus Heaven's Gate not only reflects the context of its environment but also reveals how those forces interacted in the form of a single religious body In the only book length study of Heaven's Gate Zeller traces the roots of the movement examines its beliefs and practices and tells the captivating story of its people The most thorough work on the cult

Chryssides, 2016-12-05 On March 26 1997 the bodies of 39 men and women were found in an opulent mansion outside San Diego all victims of a mass suicide Messages left by the Heaven's Gate group indicate that they believed they were stepping out of their physical containers in order to ascend to a UFO that was arriving in the wake of the Hale Bopp comet The Heaven's Gate suicides were part of a series of major incidents involving New Religions in the 1990s as the new millennium approached Despite the major attention that Heaven's Gate attracted at the time of the suicides there have been relatively few scholarly studies This anthology on Heaven's Gate includes a combination of articles previously published in academic journals some new writings from experts in the field and some original Heaven's Gate documents All the material is expertly brought together under the editorship of George D Chryssides **Knocking on Heaven's Door** David Crump, 2006-09-01 How are we to understand petitionary prayer This is a key question for any thoughtful believer who desires to take both the Bible and experience seriously Some believe God answers any prayer as long as the one praying has enough faith and or persistence Others conclude from experience that prayer is really for our benefit and has no impact on God's actions According to David Crump both views are extreme and potentially harmful While books that deal with prayer from a devotional or experiential perspective have their value Knocking on Heaven's Door takes a different approach Crump carefully studies every New Testament passage that has to do with petitionary prayer and draws conclusions that are both theological and pastoral to help us understand the great mystery of prayer Heaven's Fractal Net William J. Jackson, 2022-09-26 Heaven's Fractal Net explores the uniquely useful geometrical forms found in nature and in cultures of the world The visual shapes of fractals attract eyes with their fascinating beauty They appear in images and designs with reiterated patterns whose parts are self similar to the whole pattern just as a fern frond is structured with smaller and smaller self similar branches The fractal like imagery in religious architecture has been used to symbolize infinity consciousness vertigo and wonder In nature fractals serve as dynamic configurations for circulation including the branching

Ruffino, 2020-10-07 *Independent Videogames* investigates the social and cultural implications of contemporary forms of independent video game development Through a series of case studies and theoretical investigations it evaluates the significance of such a multi-faceted phenomenon within video game and digital cultures A diverse team of scholars highlight the specificities of independence within the industry and the culture of digital gaming through case studies and theoretical questions The chapters focus on labor gender distribution models and technologies of production to map the current state of research on independent game development The authors also identify how the boundaries of independence are becoming opaque in the contemporary game industry often at the cost of the claims of autonomy freedom and emancipation that underlie the indie scene The book ultimately imagines new and better narratives for a less exploitative and more inclusive videogame industry Systematically mapping the current directions of a phenomenon that is becoming increasingly difficult to define and limit this book will be a crucial resource for scholars and students of game studies media history media industries

Taxing Heaven's Storehouse Paul J. Smith, 2020-10-26 Tea growing was a prosperous industry in Sichuan when Wang Anshi's New Policies created a Tea Market Agency to buy up Sichuanese tea and trade it to Tibetan tribesmen for cavalry horses At first the highly autonomous agency not only acquired the needed horses but made a profit After the Junchen conquest of North China however market realities changed and the combined Tea and Horse Agency's once successful policies ruined tea farmers failed to meet quotas for horses and ran a deficit Paul J Smith details the workings of Sichuan tea farming and the tea trade examines the geopolitical factors that forced the Song to buy horses and graphically describes the difficulties of driving them more than a thousand miles through rugged mountains with only inexperienced conscripts as trail hands In this study of fiscal sociology Smith also explains how the Tea and Horse Agency transformed the Sichuan local elite which was notorious for its resistance to state power into imperial civil servants eager to tax their own region He draws on modern theories of corporate behavior to explain what made the inner workings of the Agency an extraordinary departure for the Chinese civil service and he demonstrates how the agency put into practice the most radical New Policies theories of state economic activism The Agency made entrepreneurs out of bureaucrats but ultimately became ruinously tyrannical as the system of state rewards and punishments drove its personnel to actions that crippled key sectors of the economy
