Home Schooling Decisions:

The Homeschool Decision Tiffany Colter, 2024-10-17 The Homeschool Decision A Step By Step Guide for Parents is the book I wish I had when I first started my homeschooling journey As a parent who has homeschooled multiple children I know just how daunting the decision to homeschool can be You want what s best for your kids but the reality is that homeschooling involves an enormous commitment That s why I wrote this book to give you an honest and supportive guide to help you decide if homeschooling is the right choice for your family When I began my own homeschooling journey I faced many of the same questions and uncertainties you might be experiencing now Can I really do this What if I fail What will this mean for my family In this book I share the lessons I ve learned both the successes and the missteps so you can approach homeschooling with a clear understanding of what it entails In these pages I break down every aspect of homeschooling from creating a curriculum that works for your child s unique needs to balancing the different roles of parent and teacher I discuss the challenges you ll likely face like managing time planning lessons and dealing with setbacks because I ve faced them too Through my own experiences and those of other homeschooling families I show that while homeschooling isn t easy it s incredibly rewarding For those already homeschooling and looking for new strategies I share the approaches and methods that worked for our family as well as the lessons I learned when things didn t go as planned You ll find advice on everything from organizing your day to creating engaging projects that integrate various subjects all with the goal of making learning an exciting and enriching part of life Whether you re in the early stages of considering homeschooling or have already made the decision this book offers candid advice practical strategies and a road map to help you navigate the ups and downs of teaching at home I want to reassure you that if you choose this path you re not alone Together we ll explore how to create a nurturing and effective learning environment manage your time and most importantly make a confident decision that s right for your family For additional resources go to DecisionTreeLearning.com

Rise Above School Jeffrey J. Till, 2015-10-21 Choosing how you will educate your children is probably the biggest decision you will ever make for their happiness their knowledge and their approach to life Rise Above School is a tool to help you make this critical decision It takes a candid and thorough look at what school is and does and explains the opportunities available through home education i e homeschooling Jeffrey Till explains his views on schooling and education through the lens of years of study on the topic and from his own experiences home educating his own three children The table of contents CONTENTS Introduction1 Why you should rescue your children from school3 Making the decision is really really hard6 The Complete Case for Home Education11 What do you want to be when you grow up 48 Having empathy for your children is critical62 My personal path to home education66 Talking about home education72 How to get started76 Conclusion82 Appendix Media resources and acknowledgements 84 The Introduction Introduction This book isn t about the act of home education but rather making the decision to take your children out of school and begin home education In my experience learning about homeschooling was fairly straightforward

and knowing the downside of public schooling was fairly intuitive but taking my kids out of school was still a very challenging decision that took me about year to make The biggest obstacles turned out to be that I was schooled myself and had a very hard time imagining not using public schools since they are everybody s default state of nature I also couldn t adequately develop empathy for my own children when it came to what they were enduring in public school and nor thought about what school would ultimately do to them This book is to help inform the decision process to leave school and free your children to learn at home What you do once you get those kids out of school is a topic for another book and luckily there are plenty I chose the title Rise Above School because that s what children do when they opt out The school and culture like to use the term dropping out to suggest that leaving school is a failure of the student somehow We must abandon this victim language once and for all School is not a nice place to succeed in it is something that should be rejected tossed to history s landfill and left to die Ideally we use the term home education instead of homeschooling because the later implies replicating school at home which isn t desirable Only school can be school Instead we want to foster intrinsic inspired learning at home This said homeschooling is common vernacular and I use it interchangeably in this book to mean home education The initial basis of this book was several articles and podcasts I created at my blog site found at <http://www.fivehundredyears.org> As the articles came common themes emerged and it seemed natural to put them together under one cover As background I ve self studied education public schooling and home education for two to three years now I unschool my three young children I m an entrepreneur and a husband I m an advocate for home education and ending public school And I m a radical for peace and prosperity If you are new to home education ideas or new to even thinking about public school itself I commend you for trying to learn more regardless of what you decide Despite education being the most important decision families ever make for their children most people don t think about it for even five minutes The choice you are making involves committing your children to 13 years of school representing about 15 000 hours of work all of which can set the direction of your children s entire lives Put the time in to research analyze and process this 15 000 hour whopper of a decision Please
