## **Home Transfusion Therapy:**

*Home Transfusion Therapy* Edward Leonard Snyder, Jay E. Menitove, 1986      **Home Infusion Therapy** Kathleen M. King, 2010-11 Infusion therapy drug treatment administered intravenously was once provided strictly in hospitals. However, clinical developments and emphasis on cost containment have prompted a shift to other settings including the home. Home infusion requires coordination among providers of drugs, equipment, and skilled nursing care. It describes 1) coverage of home infusion therapy components under Medicare fee for service (FFS), 2) coverage and payment for home infusion therapy by other health insurers, both commercial plans and Medicare Advantage plans which provide a private alternative to Medicare FFS, and 3) the utilization and quality management practices that health insurers use with home infusion therapy benefits.
