cover Ser 3 v 4 Education and Career in Vedic Astrology Ram Babu Sao, 2025-08-10 Vedic Astrology Jyotish is a powerful tool for gaining profound knowledge about every aspect of life. Each person is born with a unique set of psychological tendencies and life potentials. This book *Education and Career in Vedic Astrology* enables the astrologer to know what the Education and Career has in store for the native. The horoscope shows us what we are presently working with based on our past actions and thoughts. Besides providing deep insight into the past and present, the horoscope can also show future trends of events. Vedic astrology readings of your horoscope can not do much about it but at least make you aware of the fruitfulness of your potential in the specific direction of education and career. And with proper mentoring and understanding you can safeguard yourself from sacrificing your life just for the sake of money. Before addressing the suitability of a specific arena for the job, business or any other professional activity, the prime requirement is to consider the overall potency of a horoscope for professional matters. Selection of education and career between job and business is a very crucial and important decision of life. Following the planetary strength of your horoscope, Vedic astrology readings are reasonably useful to help you in selecting the best option between job and business. In brief, the following aspects of a horoscope are to be analyzed to find out the best suitable option between Job and Business: readings of ascendant, tenth, third, fifth, and sixth Bhava and the nature of all these planets involved. This knowledge can help the individual make use of latent potentials and approach life's challenges with greater care and purpose. By understanding the karmic patterns reflected in the horoscope, it is possible to work with these tendencies and potentials to promote greater peace, prosperity, and happiness in life. The light that is shed on a dire personal situation by Vedic Astrology is priceless. The ancient Vedic system provides a predictive system that can accurately predict the Profession and Career. The timing is calculated with a detailed system of planetary time cycles called Dasha. Vedic astrology provides a greater scope, depth, and accuracy for predicting the Profession and Career, i.e. i) General type of predictions, ii) Specific type of predictions, and iii) Stick type of predictions of Profession and Career. Given an accurate birth time, the Dasha system can precisely show when a period of Profession and Career will begin and end and provide actual dates. Of two people with wonderful careers, great relationship potential, and wealth indicated in their charts, one may find his niche early in life while the other must experience difficult times to finally achieve prosperity later in life. The Vedic system can indicate the timing of Career as well as its extent. It uses the Moon's position as the starting point against the background of a Nakshatra in calculations of the planetary periods within the 120-year potential lifespan. The principles governing Vedic astrology have remained unaltered for thousands of years. Vedic astrology acknowledges only nine planets such as Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, and the two nodes of the Moon called Rahu and Ketu. *Repatriation to France and Germany* Matthias Walther, 2014-05-19 A significant amount of German and French career agents are involved with international careers. Applying Bourdieu's Theory of Practice, Matthias Walther compares the repatriation of German and French career agents into the external labor markets of their parent country career fields. A qualitative content analysis of 40

semi structured interviews shows that the German and French career agents career capital and habitus develops during expatriation which has an important impact on the re integration into the parent country career field The Author shows that in an international career mobility context the rules of the game change compared to the rules in a pure national career context which challenges the pertinence of national career models in understanding repatriation in a Franco German context
