John MULLINS, 2015-11-09 Based on seven years of original research this book contains one of the most detailed and comprehensive assessments of home grown Islamist terrorism HGIT in the US and UK to date Beginning with an examination of the development of militant networks during the 1980s and 1990s it traces the origins of HGIT and highlights the significance of these early experiences in different countries for shaping the future trajectory of the threat The book also examines the range of motivations for violent jihad in the West suggesting a composite theoretical model that specifies three necessary conditions for involvement and challenges popular explanations for differential rates of terrorism which emphasize socioeconomic factors The book analyzes the background and operational activities of nearly 800 American and British jihadis who mobilized between 1980 and September 11th 2013 including factors such as mental health education processes of radicalization leadership use of the Internet sources of funding and links to foreign terrorist organizations This analysis is then complemented with an examination of how these individuals have been dealt with by the respective security services From the first proponents of global jihad to the recent wave of volunteers inspired by events in the Middle East this book provides an extensive yet lucid analysis of one of the greatest security concerns facing America and Great Britain today Home Grown Jihad challenges existing studies on a number of key issues and expands our understanding of HGIT It will be invaluable to academics practitioners and policymakers alike Home Grown Initiatives and Nation Building in Africa

Agricultural Series ,1934 **Homegrown** Piotr M. Szpunar, 2018-04-10 An insightful study of how identity is mobilized in and for war in the face of homegrown terrorism You are either with us or against us is the refrain that captures the spirit of the global war on terror Images of the them implied in this war cry distinct foreign others inundate Americans on hit television shows Hollywood blockbusters and nightly news However in this book Piotr Szpunar tells the story of a fuzzier image the homegrown terrorist a foe that blends into the crowd who Americans are told looks talks and acts like us Homegrown delves into the dynamics of domestic counterterrorism revealing the complications that arise when the terrorist threat involves Americans both residents and citizens who have taken up arms against their own country Szpunar examines the ways in which identities are blurred in the war on terror amid debates concerning who is the real terrorist He considers cases ranging from the white supremacist Sikh Temple shooter to the Newburgh Four ex convicts caught up in an

FBI informant led plot to bomb synagogues to ecoterrorists to the Tsarnaev brothers responsible for the Boston Marathon bombing Drawing on popular media coverage court documents as well as terrorist produced media Szpunar poses new questions about the strategic deployment of identity in times of conflict The book argues that homegrown terrorism challenges our long held understandings of how identity and difference play out in war beyond us versus them and more importantly that the way in which it is conceptualized and combatted has real consequences for social cultural and political notions of citizenship and belonging The first critical examination of homegrown terrorism this book will make you question how we make sense of the actions of ourselves and others in global war and the figures that fall in between **Homegrown Magic** Jamie Pacton, Rebecca Podos, 2025-03-11 A delightful queer romantic fantasy full of friends to lovers chemistry found family rival family drama and cozy garden magic from two acclaimed YA authors making their debut in the adult space Yael Clauneck is the only scion of an obscenely wealthy banking family with its fingers in every pie in the realm They re on the precipice of a predetermined life when they flee their own graduation party galloping away in search of well they re not sure but maybe the chance to feel like life can still be a grand adventure Margot Greenwillow talented plant witch tea lover and greenhouse owner has never felt further from adventure in her life She s been desperately trying to keep what remains of her family s magic remedies business afloat So when her childhood friend and former crush Yael rides back into her life she s shocked But perhaps this could be a good thing After all Margot could use an assistant in the greenhouses Yael has no experience or honestly practical skills but they re delighted to accept They can lay low for a while flirting with Margot while they figure out what to do next Meanwhile Margot has plans of her own but plans are notoriously unreliable things unlikely to survive a swiftly blooming mutual attraction not to mention the machinations of parents determined to get their heir back no matter the cost Homegrown Bill Pezza, 2013-01-28 Johnny Marzo a former Special Forces Captain in Afghanistan and Iraq is retired from the military and is now working for the FBI fighting what the Department of Homeland Security once called Americas most serious domestic threat Living in Bucks County Pennsylvania with his journalist wife Carrie and their young daughter Gracie Marzo works out of the Philadelphia office of the FBI with lifetime friend and brilliant millionaire Brian Brain Kelly Together they uncover a chilling plot that threatens to rip America apart Loving husband doting father and fiercely loyal friend Marzo struggles to balance his personal relationships as he tracks a ruthless killer across the Eastern half of the United States Statutory Instruments Great Britain, 1958 **Publications** United States. households and household behavioural choices since food is the major share of household expenditure for poor households. The characteristics considered comprise household size, location, income and gender of the head of household, while the behavioural choices considered comprise the decision to consume home grown food and the decision to adopt domestic technology to aid food preparation and consumption. The book proposes two theoretical models to rationalize the role of the consumption of home grown food and the adoption of domestic technology in enhancing economies of scale in food consumption. Econometric models are also used to empirically test the validity of the two theoretical models, while adjusted poverty estimations are derived numerically using the estimated equivalence scales. Although data used in applying these techniques are based on four Household Income and Expenditure Surveys conducted by the Department of Census and Statistics, DCS in Sri Lanka, the methodology can be used for similar analysis in relation to any other country.
