Language Contact, Colonial Administration, and the Construction of Identity in Ancient Israel Samuel L. Boyd,2021-02-15 In *Language Contact Colonial Administration and the Construction of Identity in Ancient Israel* Boyd addresses a long standing critical issue in biblical scholarship how does the production of the Bible relate to its larger historical linguistic and cultural settings in the ancient Near East Using theoretical advances in the study of language contact he examines in detail the sociolinguistic landscape during the Assyrian Babylonian and Achaemenid periods Boyd then places the language and literature of Ezekiel and Isaiah in this sociolinguistic landscape *Language Contact Colonial Administration and the Construction of Identity in Ancient Israel* offers the first book length incorporation of language contact theory with data from the Bible As a result it allows for a reexamination of the nature of contact between biblical authors and a series of Mesopotamian empires beginning with Assyria The Harvard Semitic Monographs series publishes volumes from the Harvard Museum of the Ancient Near East Other series offered by Brill that publish volumes from the Museum include Harvard Semitic Studies and Studies in the Archaeology and History of the Levant <https://hmane.harvard.edu/publications>

Literary Construction of Identity in the Ancient World Hanna Liss,Manfred Oeming,2010-06-30 Encountering an ancient text not only as a historical source but also as a literary artifact entails an important paradigm shift which in recent years has taken place in classical and Oriental philology Biblical scholars

Egyptologists and classical philologists have been pioneers in supplementing traditional historical critical exegesis with more literary approaches. This has led to a wealth of new insights. While the methodological consequences of this shift have been discussed within each discipline until recently there has not been an attempt to discuss its validity and methodology on an interdisciplinary level. In 2006 the Faculty of Bible and Biblical Interpretation at the Hochschule für Jüdische Studien Heidelberg and the Faculty of Theology at the University of Heidelberg invited scholars from the U.S., Canada, the Netherlands, Israel and Germany to examine these issues. Under the title *Literary Fiction and the Construction of Identity in Ancient Literatures: Options and Limits of Modern Literary Approaches in the Exegesis of Ancient Texts*, experts in Egyptology, classical philology, ancient Near Eastern studies, biblical studies, Jewish studies, literary studies and comparative religion came together to present current research and debate open questions. At this conference each representative from a total of 23 different disciplines dealt with literary theory in regard to his or her area of research. The present volume organizes 17 of the resulting essays along 5 thematic lines that show how similar issues are dealt with in different disciplines: 1. Thinking of Ancient Texts as Literature, 2. The Identity of Authors and Readers, 3. Fiction and Fact, 4. Rereading Biblical Poetry and 5. Modeling the Future by Reconstructing the Past.

Sustainable Construction Sandy Halliday, 2008-01-14. It has taken a very long time for sustainable development to be recognised as a justified restraint on inappropriate development and a primary driver of improving quality of life for all. For designers, clients and project managers this means we have to create healthy buildings and places which support communities, enhance biodiversity and contribute to reversing unsustainable trends in pollution and resource consumption. It is a very positive agenda. This groundbreaking book will help all building design management and cost professionals to understand sustainable design and provide the technical skills needed to implement the most up to date concepts. Based on a hugely successful series of workshops for professionals in construction, the book covers the history of ideas, materials, measurement, both cost and benchmarking, performance, environmental services and the building design and delivery process through to post occupancy evaluation. It covers individual buildings and the urban scale. *Sustainable Construction* is a master class in how to achieve practical, affordable, replicable sustainable design. It has something new and often surprising in it for everybody in the construction industry. For the Architect and Engineer it gives chapter and verse to the basic design issues at all scales and through the whole of the plan of work. For Quantity Surveyors and cost professionals it challenges current conventions with researched case study evidence. For clients and project managers it outlines the drivers and the justification for a sustainable approach and outlines the legislative framework and it gives guidance on procurement and project and site management issues. For contractors and developers it contains a wealth of case study material rooted in practical experience and economic reality. For teachers and students it will bust myths, liberate thinking and inform design.

Construction of Gender and Identity in Genesis Karalina Matskevich, 2019-01-24. Karalina Matskevich examines the structures that map out the construction of gendered and national identities in Genesis 2-3.

and 12 36 Matskevich shows how the dominant Subject the androcentric ha adam and the ethnocentric Israel is perceived in relation to and over against the Other represented respectively as female and foreign Using the tools of narratology semiotics and psychoanalysis Matskevich highlights the contradiction inherent in the project of dominance through which the Subject seeks to suppress the transforming power of difference it relies on for its signification Thus in Genesis 2 3 ha adam can only emerge as a complex Subject in possession of knowledge with the help of woman the transforming Other to whom the narrator and Yahweh attributes both the agency and the blame Similarly the narratives of Genesis 12 36 show a conflicted attitude to places of alterity Egypt the fertile and seductive space that threatens annihilation and Haran the mother s land a complex metaphor for the feminine The construction of identity in these narratives largely relies on the symbolic fecundity of the Other

Under Construction Bobbe Harris, 2008-06 Hell Hath No Fury Like A Woman Scorned Diamond Jones finally thinks she has met her knight in shining armor and her Mr Right She is convinced when she and the handsome Andre Ploushette become an item that all the lying and games men play are a thing of the past However as their relationship progresses Diamond learns that her Mr Right not only has some hidden dark secrets but a life that will make her truly see that there is a thin line between love and hate

The Construction of Exodus Identity in Ancient Israel Linda M. Stargel, 2018-05-22 Collective identity creates a sense of us ness in people It may be fleeting and situational or long lasting and deeply ingrained Competition shared belief tragedy or a myriad of other factors may contribute to the formation of such group identity Even people detached from one another by space anonymity or time may find themselves in a context in which individual self concept is replaced by a collective one How is collective identity particularly the long lasting kind created and maintained Many literary and biblical studies have demonstrated that shared stories often lie at the heart of it This book examines the most repeated story of the Hebrew Bible the exodus story to see how it may have functioned to construct and reinforce an enduring collective identity in ancient Israel A tool based on the principles of the social identity approach is created and used to expose identity construction at a rhetorical level The author shows that exodus stories are characterized by recognizable language and narrative structures that invite ongoing collective identification

Paul's Letters and the Construction of the European Self Fatima Tofighi, 2017-01-26 Even when he was a prototype of European identity Paul transgressed the limits of Europe It is not clear whether he was conformist or rebellious orthodox or liberal sexist or egalitarian Instead of pushing the Apostle into the arbitrary categories of modern European identity Fatima Tofighi takes into account the challenge that Paul brings to normative conceptions of political theology Rom 13 religion Gal 2 12 14 and women s veiling 1 Cor 11 5 16 Alternative interpretations of these passages with the help of postmodern theory both solve the major problems of biblical exegesis and offer a critique of the allegedly well defined European categories

The Literary Construction of the Other in the Acts of the Apostles Mitzi J Smith, 2012-06-28 Mitzi Smith engages the reader in explaining how as in the real world the characterization of the Others is used negatively in the biblical texts Smith shows how

the concept of difference is constructed in order to distinguish ourselves from proximate others indeed the other who is most similar to us is most threatening and most problematic The process of Othering or Otherness is a synthetic and political social construct that allows us to create and maintain boundaries between them and us Thus this work demonstrates how proximate characters are constructed as the Other in the Acts of the Apostles Charismatics Jews and women are proximate others who are constructed as the external and internal Others Ezra, Nehemiah, and the Construction of Early Jewish Identity Bob Becking, 2011 The post exilic of Persian period showed a transition in the religion in ancient Israel from Yahwism s to Judaism s The events of exile and return made it impossible to completely fall back on the traditional religious identity The essays in this volume try to reconstruct the path taken in that transition The characters of Ezra and Nehemiah are generally seen as playing a formative role in this process By reading texts from the biblical books supposedly written by Ezra and Nehemiah in a religio historical context new light falls on the process of change **The Making of the Tabernacle and the Construction of Priestly Hegemony** Nathan MacDonald, 2023-08-23 How did the Jerusalem high priests go from being cultic servants in the sixth century BCE to assuming political supremacy at some point during the third or second century The Making of the Tabernacle and the Construction of Priestly Hegemony examines how the conditions were created for the priesthood s rise to power by examining the most important ideological texts for the high priests the description of the wilderness tabernacle and the instructions for the ordination ritual found in the Biblical books of Exodus and Leviticus Although neglected by many modern readers who often find them technical and repetitive the tabernacle accounts excited considerable interest amongst early scribes and readers as is evidenced by the survival of them in no fewer than four versions Untangling this intricate compositional history helps shed light on how these chapters in the Pentateuch shaped and were shaped by the perception of the priesthood s powers and competencies during the Persian and early Hellenistic periods The hierarchy that is developed is more nuanced and multifaceted than previously appreciated with Israelite artisans community leaders Levites and women incorporated into a complex vision of society The ordination ritual was also transformed by scribal elites during the Persian period appearing in no fewer than five variant forms as the role of the high priesthood and its relationship to other groups was negotiated Using a broad plural methodological approach that incorporates insights from sociology ritual studies textual and literary criticism early interpretation manuscript studies and philology Nathan MacDonald s study shines new light on the historical development theology and ideology of priestly texts in the Pentateuch **Prayers and the Construction of Israelite Identity** Susanne Gillmayr-Bucher, Maria Häusl, 2019-08-09 Substantial insights into various identity discourses reflected in the biblical prayers This collection of essays from an international group of scholars focuses on how biblical prayers of the Persian and early Hellenistic periods shaped identity evoked a sense of belonging to specific groups and added emotional significance to this affiliation Contributors draw examples from different biblical texts including Genesis Samuel Kings Chronicles Ezra and Nehemiah Psalms Jonah and

Daniel Features Thorough study of prayers that play a key role for a biblical book's reconstruction of the people's history and identity An examination of ways biblical figures are remodeled by their prayers by introducing other sometimes even contradictory discourses on identity An exploration of different ways in which psalms from postexilic times shaped reflected and modified identity discourses The Construction of Time in Antiquity Jonathan Ben-Dov,Lutz Doering,2017-10-12 Time has always held a fascination for human beings who have attempted to relate to it and to make sense of it constructing and deconstructing it through its various prisms since time cannot be experienced in an unmediated way This book answers the needs of a growing community of scholars and readers who are interested in this interaction It offers a series of innovative studies by both senior and younger experts on various aspects of the construction of time in antiquity Some articles in this book contain visual material published for the first time while other studies update the field with new theories or apply new approaches to relevant sources Within the study of antiquity the book covers the disciplines of Classics and Ancient History Assyriology Egyptology Ancient Judaism and Early Christianity with thematic contributions on rituals festivals astronomy calendars medicine art and narrative **Rudimentary and Practical Instructions on the Science of Railway Construction** Rowland MacDonald Stephenson,1874 **The Passive Solar Design and Construction Handbook** Steven Winter Associates, Inc.,1998 Passive solar design refers to design strategies that minimize or eliminate the need to heat or cool a building mechanically This sourcebook of details drawings and case studies of passive solar buildings throughout the U S provides is a complete guide to passive solar design and construction *HOME BUILDERS:An all-round book on the momentous subject of marriage!* , **Catalog of Copyright Entries, Third Series** ,1961 **Catalog of Copyright Entries** Library of Congress.
