philosophy with emphasis on Heraclitus Hegel and Nietzsche interpreted as the destiny of Being and the poetics of Being explicated as the fundamental experience of mortality Neither an introduction nor a survey this book is a close reading of a wide range of Heidegger's books lectures and articles including extensive material not yet translated into English informed by the author's conversations with Heidegger in 1974-76 Each of the four subthemes is treated critically The aim of the book is to push its interrogations of Heidegger's thought as far as possible in order to help the reader toward an independent assessment of his work and to encourage novel radically conceived approaches to traditional philosophical problems
