Homoeopathy For Physicians:

Pathways of Homoeopathic Medicine Bettina Blessing, 2011-04-22 Bettina Blessing's study follows the progress of homoeopathic therapies up to World War II. It focuses mainly on the development of double and complex remedies which were highly controversial even at the times of Hahnemann who also experimented with double remedies. Various orientations of homoeopathy, spagyric naturopathy and conventional medicine advocated homoeopathic remedies and supported medical concepts that were based on holistic views. One of the proponents of alternative healing methods was the renowned Berlin surgeon August Bier, 1861-1949. For him, homoeopathy was one of several possible medical approaches and in accordance with Heraclitus he argued that a harmonious view of medicine was not possible as long as one of them was excluded.

Homoeopathy in Emergencies of Medicine J. B. D. Castro, 1998-12-31 Homeopathy in Emergencies of Medicine **Medical Counselor and Michigan Journal of Homeopathy**, 1906 *The Homoeopathic Domestic Medicine* Joseph Laurie, 1888 **Homeopathy Medicine for (Better Health)** Ram Babu Sao, 2025-06-28 The book Homeopathy Medicine for Better Health is a very fascinating and yet an exasperating book. Please note that if there is any serious injury or trauma to the eyes then professional help should be sought. These remedies are for simple non complicated eye problems. If the problem persists please visit your eye doctor or obtain emergency care. Its simplicity, its vastness and its apparent similarity of symptoms in different drugs throw a tremendous challenge to the People. The author says that there is no royal road to a perfect understanding of Homeopathic treatment. One can realize its vast extent of diseases and guiding symptoms. In its present compact form it contains the maximum number of reliable Homeopathic facts in the minimum space. This book provides insight into the principles in homoeopathic practice supported by clinical references all throughout. An account of remarkable relief's from ill health and miraculous cures affected further justifies its superiority over other fields of medicine and the need for propagation of the nature's way of healing. In this scientific era of health consciousness the time has come that for the treatment of any disease which does not respond to any particular line of treatment one must take a homeopathic opinion immediately. Often patients lose their early time going to one specialist to another helplessly without permanent relief and approach homeopathy only when other medicines fail.
