Honest Opportunism:

Management, Innovation and Entrepreneurship in Challenging Global Times Gabriela I. Prostean, Juan J. Lavios, Laura Brancu, Faruk Şahin, 2024-04-23 *Management Innovation and Entrepreneurship in Challenging Global Times* begins to address the need for a response to unprecedented global situations that require large scale cooperation as well as individual organizational and institutional changes Embodying the proceedings of the 16th International Symposium in Management held in Timisoara Romania in October 2021 this book gathers interdisciplinary and multidisciplinary studies which highlight less high profile research concepts in management and industrial engineering The contributions discuss details of state of the art business process management techniques that integrate innovative methods with technologies that promote organizational agility The methodologies used are sparking breakthroughs in entrepreneurship financial management supply chain management and sustainability management Other contributions deal with the important process of digitization which underlies the Industry 4.0 idea and raises issues across the fields discussed in this volume Related areas such as management information systems and business philosophies that adapt and use contemporary approaches to maximize organizational knowledge feature among the contributions Similarly reflecting the role of small and medium sized enterprises in catalyzing economic growth part of the book focuses on a set of tools and techniques designed for their benefit This book assembles contributions from international sources that will help researchers and students interested in industrial and business management to tackle problems that persist from the economic crisis of the late 2000s right up to those that arise as a result of the COVID 19 pandemic of the early 2020s

Communities in Control Great Britain. Department for Communities and Local Government, 2008 This Command White Paper entitled *Communities in control* Cm 7427 ISBN 9780101742726 sets out an agenda to enhance the power of communities and help people to meet their own priorities A number of proposals are put forward seeking to devolve more power to citizens and away from both central and local government The Paper is divided into 8 chapters Chapter 1 The case for the people and the communities having more power Chapter 2 Active citizens and the value of volunteering Chapter 3 Access to information Chapter 4 Having an influence Chapter 5 Challenge holding people accountable who exercise power Chapter 6 Redress Chapter 7 Standing for office Chapter 8 Ownership and control These chapters set out from the perspective of individual citizens seven key issues for developing empowerment in the local community The proposed policies in this White Paper largely apply to England but UK proposals will be implemented in consultation with the devolved administrations

Twentieth Century, 1907 *The Nineteenth century and after* London

Political Recruitment Pippa Norris, Joni Lovenduski, 1995 Asking why some politicians succeed in moving into the highest offices of state while others fail this text examines the relative lack of women black and working class Members of Parliament and whether this evident social bias matters for political representation

Being Political Jack

Corbett, 2015-01-31 Politicians everywhere tend to attract cynicism and inspire disillusionment They are supposed to

epitomize the promise of democratic government and yet invariably find themselves cast as the enemy of every virtue that system seeks to uphold In the Pacific politician has become a byword for corruption graft and misconduct This was not always the case the independence generation is still remembered as strong leaders but today's leaders are commonly associated with malaise and despair Once heroes of self-determination politicians are now the targets of donor attempts to institute good governance while Fiji's 2006 coup was partly justified on the grounds that they needed cleaning up But who are these much maligned figures How did they come to arrive in politics What is it like to be a politician Why do they enter stay and leave Drawing on more than 110 interviews and other published sources including autobiographies and biographies *Being Political* provides a collective portrait of the region's political elite This is an insider account of political life in the Pacific as seen through the eyes of those who have done the job We learn that politics is a messy unpredictable and at times dirty business that nonetheless inspires service and sacrifice We come to understand how being a politician has changed since independence and consider what this means for how we think about issues of corruption and misconduct We find that politics is deeply embedded in the lives of individuals families and communities an account that belies the common characterization of democracy in the Pacific as a facade or foreign flower Ultimately this is a sympathetic counter-narrative to the populist critique We come to know politicians as people with hopes and fears pains and pleasures vices and virtues A reminder that politicians are human neither saints nor sinners is timely given the wave of cynicism and disaffection As such this book is a must-read for all those who believe in the promise of representative government

The Nineteenth Century, 1919

Politics UK Bill Jones, Philip Norton, 2014-06-20 The revised and updated eighth edition of the bestselling textbook *Politics UK* is an indispensable introduction to British politics It provides a thorough and accessible overview of the institutions and processes of British government a good grounding in British political history and an incisive introduction to the issues facing Britain today With contributed chapters from respected scholars in the field and contemporary articles on real-world politics from well-known political commentators this textbook is an essential guide for students of British politics The eighth edition welcomes brand new material from eight new contributors to complement the rigorously updated and highly valued chapters retained from the previous edition The eighth edition includes Britain in context boxes offering contrasting international perspectives of themes in British politics A comprehensive who's who of politics in the form of Profile boxes featuring key political figures And another thing pieces short articles written by distinguished commentators including Jonathan Powell Michael Moran and Mark Garnett Fully updated chapters plus new material providing excellent coverage of contemporary political events including The Leveson Inquiry the aftermath of the 2011 riots and the House of Lords reform A vibrant and accessible new design to excite and engage students as they work through a variety of political topics A new epilogue to the book offering a critical perspective of the trials and tribulations of the Coalition Government including an overview of the major differences that divide the coalition partners

The Social Construction of Corruption in

Europe Dirk Tänzler, Konstadinos Maras, 2016-02-24 The volume demonstrates the suitability of the theory of social constructivism in portraying and analyzing the diversity of the phenomenon of corruption The approach of social constructivism taken in this volume is able to reconstruct the construction of corruption both from a societal perspective by assessing it as generally accepted or tolerated behaviour in more or less standardized rule governed social situations and from the perspective of actors who perceive corrupt behaviour as problem solving in everyday life The volume proves the usefulness of a social construction perspective for empirical research It contains case studies of social definitions of corruption in eleven European countries that contribute in different ways to establishing a grounded theory of the phenomenon of corruption **The Uneasy Relationships Between Parliamentary Members and Leaders** Reuven Y.

Hazan, Lawrence D. Longley, 2014-04-04 The bases of uneasy member leadership relations their manifestation and sometimes resolution and the consequences of member leadership tension to effective parliamentary performance and policy making are considered in studies ranging from Germany to the US and New Zealand and globally **The Capacity to Govern** Yehezkel Dror, 2012-12-06 The inadequacies of contemporary forms of governance are increasingly recognized the brain drain from politics distrust of governments the danger of mass media and money dominated elections and the failure of governments to find good policy options on major issues Industry civil society and non governmental organizations however important cannot compensate for government's incapacity to shape the future which only it is democratically entitled to do Radical improvements in governance are urgently needed but salient proposals are scarce This book diagnoses contemporary governments as obsolete and proposes changes in values structures staffing public understanding and political culture to equip governance for the radically novel challenges of the 21st century This is the first Report dealing with governance commissioned and approved by the Club of Rome testifying to the significance of this book Bolshevism John Spargo, 1919

Conscience and Parliament Philip Cowley, 2012-10-12 Considering how the British policy process deals with conscience issues this book covers eight topics discussed by Parliament in the last quarter of a century abortion censorship divorce Sunday trading homosexuality war crimes disability rights and animal welfare **Parliamentary Socialisation** M. Rush, P. Giddings, 2011-07-26 This first book length study of the socialisation of MPs uses questionnaire data gathered over two Parliaments 1992-97 and 1997-2001 to find out how MPs learn about and what their attitudes are towards their role as a Member of Parliament It analyzes their participation in debates the use of Parliamentary Questions and committee work

Britain in the Nineties Hugh Berrington, 2014-06-11 This volume looks at the changes in British politics and government since the accession of Mrs Thatcher in 1979 and in particular at the 1990s Its aim is to explore some of these changes and to emphasize the recurring paradoxes in political developments **Exotic England** Yasmin Alibhai-Brown, 2015-03-05 England may be a small country on a small island but its inhabitants have always had a boundless curiosity about the world beyond their shoreline From the nation's modern origins in the Renaissance travellers have eagerly roamed the globe and been

enticed by the diversity and richness of other civilizations And while this appetite for adventure has often been tainted by aggression or exploitation the English have also carried within them a capacity to soak up new experiences and ideas and to weave them into every aspect of life back home from language and literature to customs and culture Here we trace this golden thread of otherness through five centuries of English history to reveal how it has shaped the buildings flavoured the food powered the economy and created a truly diverse society Today when England is no longer synonymous with Britain and the English ask themselves who they are Yasmin Alibhai Brown paints a sumptuous and illuminating portrait of who they have been and brings a fresh invigorating perspective on what Englishness really means *The Politics of Accountability in the Modern State* Matthew Flinders,2017-10-05 This title was first published in 2001 In this compelling work Matthew Flinders examines how far alternative forms of accountability have evolved and the extent to which they remedy the current shortcomings of the parliamentary system Adopting a pluralistic perspective this exploration of the accountability of the core executive is clearly grounded in research methodology thus ensuring the book makes a valid incisive contribution to the literature Features include A detailed study of the location of power and mechanisms of accountability in modern government which challenges the largely prosaic existing literature Useful summaries of the key tensions and trends within constitutional infrastructure A new and refreshing approach to the study of central government Insightful critiques of major governmental policies This intriguing volume will be of interest to undergraduates post graduates and lecturers for courses on legislative studies central government reform public administration British politics and research methods *Political Communications* Simon Atkinson,John Bartle,Roger Mortimore,2013-10-23 This work examines political communications in British general elections Like its predecessors it has a dual purpose first to make available the reflections of those who participated in it and second to provide analysis of the media the parties and public opinion polls in the campaign *The Conservatives since 1945* Tim Bale,2012-09-21 What do we really mean when we say a political party has changed And exactly what is it that drives that change Political scientists working in the comparative tradition have come up with a general explanation that revolves around the role of election defeats and loss of office and around changes of leader and factions But how well does that explanation cope when subjected to a historically grounded and therefore robust examination This book tries to answer that question by subjecting the common wisdom to a real world over time test using one of the world s oldest and most successful political parties as an in depth case study What do the periods spent in both opposition and government by the British Conservatives since 1945 tell us about what drives parties to change their sales force the way they organize and the policies they come up with Using internal papers memos and minutes of meetings from party archives along with historical and contemporary accounts memoirs and interviews this book maps the extent of change and then explores what may have driven it The conventional wisdom it turns out is not necessarily wrong but incomplete requiring both qualification and supplementation This approachably written book suggests when how and why Along the way it provides a fresh and

comprehensive account of the Conservative Party that should appeal equally to those interested in political history and those interested in political science **The Core Executive in Britain** Martin J. Smith, 1999-01-20 The study of central government has been dominated by the recurring questions of Prime Ministerial versus Cabinet government and civil service versus ministerial power Using the idea of power dependence this book challenges these simplicities to provide a definitive assessment of and introduction to power and policy at the core of British political life It undermines traditional approaches by demonstrating that power in the core executive is complex and flows between actors and institutions The Prime Minister can only exercise power with the support of the Cabinet and ministers and officials are often partners rather than competitors **Death of Politics** ,
