The Monomyth in American Science Fiction Films Donald E. Palumbo, 2014-11-19 One of the great intellectual achievements of the 20th century Joseph Campbell's The Hero with a Thousand Faces is an elaborate articulation of the monomyth the narrative pattern underlying countless stories from the most ancient myths and legends to the films and television series of today The monomyth's fundamental storyline in Campbell's words sees the hero venture forth from the world of the common day into a region of supernatural wonder fabulous forces are there encountered and a decisive victory is won the hero comes back from this mysterious adventure with the power to bestow boons to his fellow man Campbell asserted that the hero is each of us thus the monomyth's endurance as a compelling plot structure This study examines the monomyth in the context of Campbell's The Hero and discusses the use of this versatile narrative in 26 films and two television shows produced between 1960 and 2009 including the initial Star

Wars trilogy 1977 1983 The Time Machine 1960 Logan's Run 1976 Escape from New York 1981 Tron 1982 The Terminator 1984 The Matrix 1999 the first 11 Star Trek films 1979 2009 and the Sci Fi Channel's miniseries Frank Herbert's Dune 2000 and Frank Herbert's Children of Dune 2003 **Myth** Robert Ellwood, 2008-01-01 An accessible introduction to the complex topic of Myth Ellwood examines theories meanings and interpretations all of which are structured around a typical programme of study *The Myth of the American Superhero* John Shelton Lawrence, Robert Jewett, 2002 As the nation seems to yearn for redemption from the evils that threaten its tranquility the authors maintain that Joseph Campbell's monomythic hero is alive and well but significantly displaced in American popular culture **The Myth Awakens** Ken Derry, John C. Lyden, 2018-09-13 The trailers for Star Wars The Force Awakens made a strong impression on fans Many were excited by what they saw as a return to the spirit of George Lucas's 1977 creation Others including several white supremacy groups were upset and offended by key differences most notably the shift away from a blond blue eyed male protagonist When the film was finally released reactions similarly seemed to hinge on whether or not The Force Awakens renewed the mythic aspects of the original trilogy in ways that fans approved of The Myth Awakens examines the religious implications of this phenomenon considering the ways in which myth can function to reinforce traditional social and political values In their analyses the authors of this book reflect on fan responses in relation to various elements of and changes to the Star Wars canon including toys video games and novels as well as several of the films They do so using a variety of critical tools drawing from studies of gender race psychology politics authority music ritual and memory **The Jedi in the Lotus** Steven Rosen, 2010 The Jedi in the Lotus is the first ever examination of the Star Wars universe from a Hindu perspective illuminating many hitherto undiscovered aspects of the background and meaning of the widely acclaimed film series We are shown how its creators were influenced by the famed mythologist Joseph Campbell whose reading of the ancient Indian Epics the Ramayana and Mahabharata can be seen throughout the Star Wars films This book also demonstrates how the metaphysical understanding of the Jedi Knights and the divinity conceived of as the Force have resonances with teachings passed down by Hindu gurus and mystics for centuries and how fantastic worlds and technology similar to that of the Star Wars universe were described in myths that are millennia old and may even have had some basis in reality Finally The Jedi in the Lotus shows us how the Hindu traditions at the basis of Star Wars offer an alternative vision to the purely materialistic soulless world of modernity Steven J Rosen Satyaraja Dasa is an initiated disciple of His Divine Grace A C Bhaktivedanta Swami Prabhupada He is also founding editor of the Journal of Vaishnava Studies and associate editor of Back to Godhead He has published twenty one books in numerous languages including the recent Essential Hinduism Rowman The Yoga of Kirtan Conversations on the Sacred Art of Chanting FOLK Books 2008 and Krishna's Other Song A New Look at the Uddhava Gita Praeger Greenwood 2010 In conclusion I can only say that The Jedi in the Lotus is a breakthrough book when it comes to understanding the mythic depth of the Star Wars epics Steven J Rosen uses his masterful grasp of the Eastern traditions to

Explores how we naturally project consciousness onto machines and how this is reflected in human culture science artificial

intelligence and literature Demonstrates a direct connection between consciousness and the history of machines in American history Looks at the contributions and influence of Grace Hopper Richard Feynman Philip K Dick Nikola Tesla Thomas Edison Elon Musk David Bohm Norbert Wiener and Steve Jobs as well as the Nag Hammadi Gnostic gospels Humans invented and constructed machines to aid them as far back as the Stone Age As the machines became more complex they became extensions of the body and mind and we naturally began projecting consciousness onto them As Luke Lafitte shows in detail although machines complicate the already complicated issue of identity because they are ours and of us they are part of our spiritual development In this sweeping exploration of the history of the machine as a tool as a transpersonal object to assist human activity and as a transitional artifact between spirits and the humans who interact with them Lafitte examines the role that machines play in the struggle between spiritual man and mechanical man throughout history He interprets the messages archetypes and language of the unconscious in the first popular stories related to mechanical men and he demonstrates a direct connection between consciousness and the history of machines in American history specifically between the inventors of these machines and the awakening of our imaginations and our powers of manifestation He examines the influence of Philip K Dick Nikola Tesla Thomas Edison Grace Hopper Richard Feynman Elon Musk David Bohm and others and shows how the Nag Hammadi gospels explain how we can take back our myth and spirit from the machine Although the term mechanical man is a catch all phrase Lafitte shows that the term is also a meeting ground where extra dimensional communications between different forms of matter occur Every machine android robot and cyborg arose from consciousness and these mechanical men whether real or fictive offer us an opportunity to free ourselves from enslavement to materialism and awaken our imaginations to create our own realities
