esthetical and theoretical complexity of Morante's novel and argues that it engages with crucial philosophical and epistemological questions in an original and profound way Contributors explore the manifold tensions staged by the novel in connection with contemporary philosophical discourse from feminist queer to political theory to psycho analysis and authors such as Emilio Gadda Pier Paolo Pasolini and Pedro Almodovar The Power of Disturbance shows that by creating a hallucinatory representation of the relationship between mother and child Aracoeli questions the classical distinction between subject and object and proposes an altogether new and subversive kind of writing Manuele Gagnolati teaches Italian literature at Oxford University where he is a Fellow of Somerville College Sara Fortuna teaches philosophy of language at the Universita Guglielmo Marconi in Rome

ideas about the relation of the Bible to Western culture *Words with Power* boldly confronts a host of questions ranging from the relationship between literature and ideology to the real meaning of words like spirit and faith The first half of the double mirror structure looks at the language in which the Bible is written arguing that it is identical to that of myth and metaphor Frye suggests therefore that given this characteristic the Bible should be read imaginatively rather than historically or doctrinally However he is also careful to point out the ways in which the Bible is more than a conventional work of fiction The second half is an astonishing tour de force in which Frye demonstrates how both the Bible and literature revolve around four primary concerns of human life This edition goes beyond the original in its documentation of Frye's dazzlingly encyclopedic range of reference *Profound and searching Words with Power* is perhaps the most daring book of Frye's career and one of the most exciting
