Tanuki was a judge who was born in Basra and lived in Baghdad during the tenth century CE. During his life he wrote three books which compiled poetry, stories, anecdotes, and hadith. In this introduction to al-Tanuki's works and thought, Nouha Khalifa identifies the central theme of hardship and deliverance within wider narratives about love, generosity, and the journey. Al-Tanuki was principally concerned with how humankind can alleviate hardship and suffering in life and achieve deliverance. His unshakable conviction in the necessity of deliverance was rooted in his Mu'tazilite doctrine, an early school of Sunni Islamic theology which sought to ground Islamic tenets in reason and which drew upon different aspects of early Islamic philosophy, Greek philosophy, and Hellenistic philosophy. This is a fascinating commentary on medieval Middle Eastern culture, history, philosophy, and religious thought.

An Immigrant's Journey into the Cosmos Dr. N. Y. Misconi, 2015-05-19

Astronaut Dr. Buzz Aldrin commended the author, citing his proposal to transform the Space Shuttle fleet before retiring it into a space tourism fleet, which would generate profits for NASA. Dr. Donald Brownlee, Director of NASA's STARDUST Mission that flew to comet Wild 2, said this about the author: "One of Dr. Misconi's most significant publications was his 1979 Nature paper on streaming of interstellar grains into the solar system. The paper predicted that interstellar dust should stream into the solar system from the direction of the then-detectable interstellar gas, and it also described the interaction of the extrasolar particles with the solar wind and the IP Interplanetary magnetic field. The paper was timely and highly prophetic, as the stream of interstellar dust was detected just a few years later by instruments on the Ulysses and Galileo spacecraft." Dr. Seung Soo Hong, former chair of the Astronomy Department at Seoul National University in Seoul, South Korea, said this about the author: "I still remember in one of those brain-storming sessions he suggested to fire a big gun from a satellite to a nearby asteroid and to observe the scattered light of the Sun and man-made source by the dust excavated from the asteroid surface. The Space Astronomy Laboratory team couldn't materialize the idea then. But to think back, this was a brilliant idea with which one can characterize the nature of ligorith particles for a reasonable price."

Episodes in my life's journey Layla Abdulrahman Al-Hassan,2024-07-07 Autobiography of Dr Layla Abdulrahman Al Hassan narrating her journey in life from Iraq to Saudi Arabia along with her husband and partner in life Dr Mustafa Ali Al Deghaither The autobiography shares her story of growth in life experiences that spanned the world and Dr Layla s contributions to women education in Saudi Arabia **British Imperialism and 'The Tribal Question '** Robert S. G. Fletcher,2015-02-05 British Imperialism and The Tribal Question reconstructs the history of Britain s presence in the deserts of the interwar Middle East making the case for its significance to scholars of imperialism and of the region s past It tells the story of what happened when the British Empire and Bedouin communities met on the desert frontiers between the Mediterranean Sea and the Persian Gulf It traces the workings of the resulting practices of desert administration from their origins in the wake of one World War to their eclipse after the next as British officials Bedouin shaykhs and nationalist politicians jostled to influence desert affairs Drawn to the commanding heights of political society in the region s towns and cities historians have tended to afford frontier margins merely marginal treatment Instead this volume combines the study of imperialism nomads and the desert itself to reveal the centrality of desert administration to the working of Britain s empire repositioning neglected frontier areas as nerve centres of imperial activity British Imperialism and The Tribal Question leads the shift in historians attentions from the familiar urban seats of power to the desert hinterlands that have long been obscured أبو العلاء المعري Abū al-‘Alā’ al-Ma‘arrī,1898
