High Commissioner:

The United Nations High Commissioner for Human Rights Bertie G. Ramcharan, 2021-10-01 Ever since its creation the United Nations has sought to protect as well as to promote human rights Those who campaigned for decades for the establishment of the post of High Commissioner for Human Rights did so in the hope that the High Commissioner would spearhead the efforts of the United Nations and the international community to protect those at risk or whose rights are being violated How has the High Commissioner contributed to international protection since the establishment of the office in 1993 This book the first ever written on the office since its establishment presents the protection role of the High Commissioner It argues that limited protection functions are carried out by the Security Council the Secretary General the Commission on Human Rights and its special procedures and the High Commissioner However international protection is still in its infancy and much more remains to be done to bring about a protection system that effectively anticipates and prevents gross violations contributes to mitigation and cure and facilitates remedies and compensation This is a valuable pioneering work in the area of the international protection of human rights *A United Nations High Commissioner for Human Rights* Roger Stenson Clark, 2013-12-01 prospects of the High Commissioner proposal with careful scholarship and shrewd judgment Mr Clark wrote the first draft of this book under my supervision for the degree of Doctor of the Science of Law at Columbia Law School before returning to take up his career as a law teacher in his native New Zealand I am delighted that his work in this improved and updated version is now being published It fills a real need since it is the first book on this important subject On this occasion it might be appropriate to add a few comments on the history of the High Commissioner proposal As Mr Clark indicates I had something to do with its revival in the United States Government during the closing months of the Kennedy Administration A few details as to how this revival took place may perhaps be useful to students of international relations and international organization Annual Report of the United States High Commissioner to the Philippine Islands United States. High Commissioner to the Philippine Islands, 1947 **Diplomacy with a Difference: the Commonwealth Office of High Commissioner, 1880-2006** Lorna Lloyd, 2007-05-30 This book illuminates two familiar phenomena diplomacy and the Commonwealth from a new and unfamiliar angle the atypical way in which the Commonwealth's members came to and continue to engage in official relations with each other This innovative and wide ranging study is based on archival material from four states interviews and correspondence with diplomats and a wide range of secondary sources It shows how members of an empire found it necessary to engage in diplomacy and in so doing created a singular and often remarkably intimate diplomatic system The result is a fascinating multidisciplinary exploration of the evolving Commonwealth and the way in which its 53 members and Ireland conduct diplomacy with one another and in so doing have contributed a distinctive terminology to the diplomatic lexicon **A UN High Commissioner in Defence of Human Rights** Bertie G. Ramcharan, 2005-02-01 In contemporary international relations the United Nations High

A Year Book of the Commonwealth, 1971 *Reports and Documents* United States. Congress, **Refugee Displacement, Disability and Human Rights** Philippa Duell-Piening, 2025-02-25 This book presents a timely and innovative exploration of one of the first human rights articles about data production and processing the Convention on the Rights of Persons with Disabilities article 31 Statistics and data collection The study provides detailed explorations of the legal and practical demands of article 31 how these have been interpreted and the practice of human rights research with marginalised communities It describes the history of the article s drafting in detail uncovering the tensions at its heart today This analysis provides the foundations for an alternative doctrinal reading of the obligations in article 31 and an exploration of a potential group right The book s detailed analysis is assisted by a new conceptual framework that illustrates the relationship between visibility and power The work demonstrates that data is not inert but powerful and may be used in ways that are helpful and harmful to rights holders Through closely examining disability human rights data practices in refugee contexts it concludes that human rights protections are being ignored in the urgency to create more data to identify and address inequality The author identifies immediate actions that may be taken to remediate current practices The book will be an invaluable resource for academics researchers and policy makers working in disability studies human rights law refugee and migration studies technology and society

Returns of Internally Displaced Persons during Armed Conflict David James Cantor, 2018-04-24 By 2017 it was estimated that over 40 million people were displaced within their own countries by conflict and violence across at least 56 countries worldwide Solutions to the epidemic of forced internal displacement are frequently premised on the return of internally displaced persons IDPs Indeed as a characteristic need of IDPs such returns benefit from a special protection framework developed by IDP protection instruments such as the Guiding Principles However the legal status of those instruments remains ambiguous generating attendant questions about the congruity of the IDP return framework with existing international law Moreover limited knowledge exists on its practical implementation As a result both international agencies and individual scholars have

repeatedly issued urgent calls for comprehensive and grounded theoretical investigation into this topic This book answers those long standing calls for research by presenting a detailed study of the return of conflict affected IDPs under international law

The United Nations Commission on Human Rights John P. Pace, 2020-07-10 In this book John P Pace provides the most complete account to date of the United Nations human rights programme both in substance and in chronological breadth Pace worked at the heart of this programme for over thirty years including as the Secretary of the Commission on Human Rights and Coordinator of the World Conference on Human Rights which took place in Vienna in 1993 He traces the issues taken up by the Commission after its launch in 1946 and the methods undertaken to enhance absorption and domestication of international human rights standards He lays out the special procedures carried out by the UN and the emergence of international human rights law The book then turns to the establishment of the Office of the High Commissioner for Human Rights and the mainstreaming of human rights across the United Nations system eventually leading to the establishment of the Human Rights Council to replace the Commission in 2006 Many of the problems we face today including conflict poverty and environmental issues have their roots in human rights problems This book identifies what has been done at the international level in the past and points towards what still needs to be done for the future
