## High Tide Of Empire:

**Empires at War** Francis Pike, 2011-02-28 Asia with four billion people almost two thirds of the world's population a huge landmass and the fastest growing economies has in the past decade transformed the geopolitical global balance Empires at War gives a dramatic narrative account of how this Modern Asia came into being Taking the bombing of Hiroshima on 6th August 1945 as its starting point Francis Pike chronicles the modern fortunes of fourteen Asian countries The iconic figures of post World War II Asia Mao Gandhi Nehru Ho Chi Minh Kim Il Sung General MacArthur and Lord Mountbatten figure prominently but so also do a great many lesser known but pivotal figures Francis Pike weaves the dramatic events and episodes of the region the great battles between American and Soviet backed forces in Korea and Vietnam but also episodes such as Indian Partition Japan's Lost Decade Indonesia's Year of Living Dangerously and Cambodia's Killing Fields into a coherent whole which forms the essential guide to the history of modern Asia After the Empires P. Preston, 2014-08-26

The shift to the modern world in East Asia was accomplished in part via the experience of colonial rule in the late nineteenth century Following imperial crisis in the 1930s and 1940s independent nation states formed from which the political structure of East Asia is based today **Sovereignty After Empire** Sally N Cummings, 2012-09-11 This is a unique systematic

comparison of empires and of their consequences for sovereignty in the Middle East and Central Asia It brings theory on empire and sovereignty to bear on empirical variation across the two regions *The First World War* William Kelleher Storey, 2010-09-16 A second edition of this book is now available In a compact but comprehensive and clear narrative this book explores the First World War from a genuinely global perspective Putting a human face on the war William Kelleher Storey brings to life individual decisions and experiences as well as environmental and technological factors such as food geography manpower and weapons Without neglecting traditional themes the author's deft interweaving of the role of environment and technology enriches our understanding of the social political and military history of the war not only in Europe but throughout the world **América** Robert Goodwin, 2019-03-05 An epic history of the Spanish empire in North America from 1493 to 1898 by Robert Goodwin author of Spain The Centre of the World At the conclusion of the American Revolution half the modern United States was part of the vast Spanish Empire The year after Columbus's great voyage of discovery in 1492 he claimed Puerto Rico and the Virgin Islands for Spain For the next three hundred years thousands of proud Spanish conquistadors and their largely forgotten Mexican allies went in search of glory and riches from Florida to California Many died few triumphed Some were cruel some were curious some were kind Missionaries and priests yearned to harvest Indian souls for God through baptism and Christian teaching Theirs was a frontier world which Spain struggled to control in the face of Indian resistance and competition from France Britain and finally the United States In the 1800s Spain lost it all Goodwin tells this history through the lives of the people who made it happen and the literature and art with which they celebrated their successes and mourned their failures He weaves an epic tapestry from these intimate biographies of

explorers and conquerors like Columbus and Coronado but also lesser known characters like the powerful G lvez family who gave invaluable and largely forgotten support to the American Patriots during the Revolutionary War the great Pueblo leader Popay and Esteban the first documented African American Like characters in a great play or a novel Goodwin s protagonists walk the stage of history with heroism and brio and much tragedy

**Britain's Liberal Empire 1897-1921** Max Beloff,1987-12-11 *British Empire* Amelia Khatri,AI,2025-03-20 *British Empire* explores how a small island nation built and then dismantled an empire spanning a quarter of the globe It examines the economic social and political forces behind British expansion as well as the cultural exchanges that shaped both colonizers and colonized The pursuit of resources and trade routes fueled this growth while diverse forms of colonial governance were implemented across the empire The book uniquely balances advancements like infrastructure development with the undeniable exploitation and oppression that characterized colonial practices The book progresses chronologically and thematically starting with early voyages and colonies in North America and the Caribbean then moves to expansion in India Africa and the Pacific It later investigates internal contradictions and growing calls for self determination concluding with the empire s enduring impact on global politics economics and culture Readers will gain insights into contemporary issues like globalization and post colonial conflicts understanding how the legacies of imperialism continue to resonate today

Policing America's Empire Alfred W. McCoy,2009-10-15 At the dawn of the twentieth century the U S Army swiftly occupied Manila and then plunged into a decade long pacification campaign with striking parallels to today s war in Iraq Armed with cutting edge technology from America s first information revolution the U S colonial regime created the most modern police and intelligence units anywhere under the American flag In *Policing America s Empire* Alfred W McCoy shows how this imperial panopticon slowly crushed the Filipino revolutionary movement with a lethal mix of firepower surveillance and incriminating information Even after Washington freed its colony and won global power in 1945 it would intervene in the Philippines periodically for the next half century using the country as a laboratory for counterinsurgency and rearming local security forces for repression In trying to create a democracy in the Philippines the United States unleashed profoundly undemocratic forces that persist to the present day But security techniques bred in the tropical hothouse of colonial rule were not contained McCoy shows at this remote periphery of American power Migrating homeward through both personnel and policies these innovations helped shape a new federal security apparatus during World War I Once established under the pressures of wartime mobilization this distinctively American system of public private surveillance persisted in various forms for the next fifty years as an omnipresent sub rosa matrix that honeycombed U S society with active informers secretive civilian organizations and government counterintelligence agencies In each succeeding global crisis this covert nexus expanded its domestic operations producing new contraventions of civil liberties from the harassment of labor activists and ethnic communities during World War I to the mass incarceration of Japanese Americans during World War II all the way to the secret blacklisting of suspected

communists during the Cold War      **Flaws and Ceilings** Christopher Coyne, Christopher Snowden, Richard Wellings, Rachel Coyne, Philip Booth, Ryan Bourne, Stephen Davies, Robert C. B. Miller, Colin Robinson, Steven Schwartz, W. Stanley Siebert, 2015-03-27 Price controls across many sectors are currently being hotly debated New controls in the housing market more onerous minimum wages minimum prices for alcohol and freezes on energy prices are very high up the agenda of most politicians at the moment Even without any further controls wages university fees railway fares and many financial products already have their prices at least partly determined by politicians rather than by supply and demand in the market Indeed barely a sector of the UK economy is unaffected in one way or another by government controls on prices This book demonstrates why economists do not like price controls and shows why they are widely regarded as being amongst the most damaging political interventions in markets The authors analyse in a very readable fashion the damage they cause Crucially the authors also explain why despite universal criticism from economists price controls are so popular amongst politicians

*An Attempt to remove prejudices concerning the Jewish Nation. By way of dialogue* Thomas Witherby, 1803      **Spain, 1469-1714** Henry Kamen, 2014-03-26 For nearly two centuries Spain was the world's most influential nation dominant in Europe and with authority over immense territories in America and the Pacific Because none of this was achieved by its own economic or military resources Henry Kamen sets out to explain how it achieved the unexpected status of world power and examines political events and foreign policy through the reigns of each of the nation's rulers from Ferdinand and Isabella at the end of the fifteenth century to Philip V in the 1700s He explores the distinctive features that made up the Spanish experience from the gold and silver of the New World to the role of the Inquisition and the fate of the Muslim and Jewish minorities In an entirely re-written text he also pays careful attention to recent work on art and culture social development and the role of women as well as considering the obsession of Spaniards with imperial failure and their use of the concept of decline to insist on a mythical past of greatness The essential fragility of Spain's resources he explains was the principal reason why it never succeeded in achieving success as an imperial power This completely updated fourth edition of Henry Kamen's authoritative accessible survey of Spanish politics and civilisation in the Golden Age of its world experience substantially expands the coverage of themes and takes account of the latest published research      *The Death of the West* Patrick J. Buchanan, 2002-01-18 Drawing on U N population projections recent U S census figures and expert policy studies prominent conservative Pat Buchanan takes a cold hard look at the future decay of Europe and America and the decline of Western culture      **The Japanese Colonial Empire, 1895-1945** Ramon H. Myers, Mark R. Peattie, 2020-06-16 These essays by thirteen specialists from Japan and the United States provide a comprehensive view of the Japanese empire from its establishment in 1895 to its liquidation in 1945 They offer a variety of perspectives on subjects previously neglected by historians the origin and evolution of the formal empire which comprised Taiwan Korea Karafuto the Kwantung Leased Territory and the South Seas Mandated Islands the institutions and policies by which it was governed and the economic

dynamics that impelled it Seeking neither to justify the empire nor to condemn it the contributors place it in the framework of Japanese history and in the context of colonialism as a global phenomenon Contributors are Ching chih Chen Edward I te Chen Bruce Cumings Peter Duus Lewis H Gann Samuel Pao San Ho Marius B Jansen Mizoguchi Toshiyuki Ramon H Myers Mark R Peattie Michael E Robinson E Patricia Tsurumi Yamada Sabur Yamamoto Y zo

**Russia's War Against Ukraine**

Mark Edele,2023-08-15 In February 2022 Russia launched a full scale invasion of Ukraine a fellow East Slav state with much shared history Mark Edele a world authority on the history of the Soviet Union explains why and how this conflict came about He considers competing historical claims and arguments with authority and lucidity His primary focus however is on the different paths taken by these two former members of the Soviet Union Since the implosion of that state in 1991 Ukraine has developed a vibrant if often troubled democracy For an increasingly dictatorial Russian political elite including but not limited to Vladimir Putin Ukraine has appeared more and more threatening Humiliated by the degradation of Russia s international standing feeling betrayed by an expanding NATO and anxious about democratic revolutions in the former Soviet space Putin and his allies have increasingly retreated into a resentful ultra nationalism Dreams of past imperial glory stand in place of any attempt to solve the problems of the present

*The Great Empires of the Ancient East* George Rawlinson,2023-12-15 In *The Great Empires of the Ancient East* George Rawlinson meticulously explores the rise and fall of powerful civilizations such as Babylon Assyria and Persia weaving a rich tapestry of historical narrative with astute archaeological insights Written in the 19th century Rawlinson s work reflects the era s burgeoning interest in Oriental studies and the ancient world characterized by a scholarly yet accessible prose that invites readers to both educate and inspire wonder His detailed analysis of historical texts inscriptions and artifacts enables a deeper understanding of the socio political religious and cultural dynamics that shaped these empires manifesting in a compelling chronicle that illuminates their legacies George Rawlinson a notable British historian was deeply influenced by his own explorations in the East and his groundbreaking translations of cuneiform inscriptions His expertise in ancient languages and dedication to the preservation of history rendered him a prominent figure in contemporary scholarship This background coupled with his personal curiosity about the cultures he studied fueled his desire to provide a comprehensive narrative that would bridge the past and present for modern readers Rawlinson s work is recommended for anyone seeking to understand the foundational empires that contributed significantly to the course of human history Through his scholarship readers will gain not only knowledge but also an appreciation for the complexity of the ancient East making it an essential addition to the library of history enthusiasts and scholars alike

**Encyclopedia of Warfare** Adrian Gilbert,2013-12-16 The *Encyclopedia of Warfare* is a chronological account of the development of warfare since the beginnings of recorded history The book is organized in 10 chapters each of which looks at a particular era in warfare from the ancient world to the present Each chapter includes color maps of key campaigns as well as commentary on battles personalities troops and equipment Sidebars throughout the main narrative

focus on noteworthy aspects of the history of conflict Through its chronological organization and ample use of maps the Encyclopedia also clearly conveys the link between war and world geographical history A thorough yet concise exploration of combat throughout human history this fascinating and informative reference work is an outstanding addition to any library collection

The Splintered Empires Prit Buttar, 2017-09-21 At the beginning of 1917 the three empires fighting on the Eastern Front were reaching their breaking points but none was closer than Russia After the February Revolution Russia's ability to wage war faltered and her last desperate gamble the Kerensky Offensive saw the final collapse of her army This helped trigger the Bolshevik Revolution and a crippling peace but the Central Powers had no opportunity to exploit their gains and a year later both the German and Austro-Hungarian empires surrendered and disintegrated Concluding his acclaimed series on the Eastern Front in World War I Prit Buttar comprehensively details not only these climactic events but also the successor wars that raged long after the armistice of 1918 New states rose from the ashes of empire and war raged as German forces sought to keep them under the aegis of the Fatherland These unresolved tensions between the former Great Powers and the new states would ultimately lead to the rise of Hitler and a new terrible world war only two decades later

An Outline of Modern History Edward Mead Earle, 1921

Illuminating the Narrow Gate Karl R. Luther, 2022-01-17

The apocalyptic end times have finally arrived What is coming to an end though is not what you have been led to believe Do you desire the truth about God our foremost religions the purpose of life and the future of our planet Are you ready to challenge the religious powers that be to learn what most would rather not know If so this revolutionary book will help you transcend the darkness on your eternal journey home to a God of pure unconditional love a God who has no cause or need to ever judge or condemn anybody Illuminating the Narrow Gate reveals the flaws of the mainstream Western religions as it guides and empowers its readers to embrace an enlightened spirituality Brimming with astonishing insights and revelations it will shock the world by debunking the fire and brimstone theology of mainstream Christianity It primarily accomplishes this by unraveling the apocalyptic prophecies of Daniel the gospels and Revelation in their entirety In fact they contain hidden spiritual messages that contradict what has been confidently preached for all these centuries Like a challenging riddle that cannot be solved the answer is obvious in hindsight Only the blinding power of a paradigm can explain how we missed it for so long The revelations will strike with devastating force because the book first arrives at the same conclusion through more traditional means It convincingly describes how Jesus had come to uproot Judaism but the version of Christianity that developed in his wake failed to make the paradigm shift Erroneous tenets that should have been discarded were instead institutionalized in both theology and authority The book also blazes a third independent trail to the same destination by showing how this ancient religious tree bore its poisonous fruit in both the Holocaust and the abomination of slavery that fathered the Civil War Furthermore the book illuminates the nature of evil and its well-cloaked ways which is essential for unraveling the prophecies This wisdom yields a new and astonishing interpretation of the Book of Job that

delivers a quantum leap in insight over the prevailing understanding As the first devout Christian to read this interpretation commented It rocked my apple cart to the core In addition it presents an array of scientific evidence for the spiritual realm s existence that complements its amazing demonstration that long range prophecy is truly possible It thus shows the atheistic religion of scientism is also doomed Meanwhile the book proves Jesus was the Anointed One Messiah with a telescoping trio of prophecies from Daniel that foretold the onset of his ministry to the reign of the Roman Empire to its first ten emperors in the 1st century CE and to 27 34 CE Most Christians will thus either fearfully denounce the book as a satanic assault upon their religion or courageously embrace it as the inevitable completion of the Reformation The great spiritual awakening will soon be kicking into high gear which is exactly what the apocalyptic prophecies long ago foretold and the spiritual realm has long been awaiting As Jesus and a group of angels informed an atheist during his near death experience in 1985 The world is at the beginning of a major transformation It will be a spiritual revolution that will affect every person in the world Can you handle the truth Are you ready to awaken If so this world changing book is at your service You only have to purchase Vol I to get the book s core insights and revelations A PDF document of the Endnotes Bibliography Index et al published in Vol II can be downloaded for free from the book s website to make Vol I a self standing book     *The Empire's Ruin* Brian Staveley,2021-07-06 Brian Staveley author of *The Emperor s Blades* gives readers the first book in a new epic fantasy trilogy based in the world of his popular series the *Chronicle of the Unhewn Throne* *The Empire s Ruin* FanFiAddict Lord TBR s Best of 2021 Best of Summer 2021 Polygon The Annurian Empire is disintegrating The advantages it used for millennia have fallen to ruin The ranks of the Kettral have been decimated from within and the kenta gates granting instantaneous travel across the vast lands of the empire can no longer be used In order to save the empire one of the surviving Kettral must voyage beyond the edge of the known world through a land that warps and poisons all living things to find the nesting ground of the giant war hawks Meanwhile a monk turned con artist may hold the secret to the kenta gates But time is running out Deep within the southern reaches of the empire and ancient god like race has begun to stir What they discover will change them and the Annurian Empire forever If they can survive *Chronicle of the Unhewn Throne* *The Emperor s Blades* *The Providence of Fire* *The Last Mortal Bond* Other books in the world of the Unhewn Throne *Skullsworn* At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
